A Few Words to our Friends after 60 Years

FOR 60 years we have maintained the good name of FERGUSON'S Pedigree Trees, Vines and Plants, and for 60 years we have tried to make each year's service to our thousands of clients all over the Commonwealth better than the last. We still retain hundreds of customers who bought trees from us 30 years ago, and during all that time we have not had one word of complaint. Isn't that something to be proud of? Every scion user in our nurseries comes from a pedigree fruiting orchard. Everyone interested is cordially invited to visit our plantations.

See page 2 for directions: How to Reach our Nurseries.

INTRODUCTION.

THIS issue places in the hands of our horticultural friends the 65th issue of our Annual Fruit Book and Catalog of Pedigree Fruit Trees, etc., and we take the opportunity of expressing our thanks for the support given the Firm in the past, and our intention to spare no effort to merit a continuance of the same.

PEDIGREE FRUIT TREES.—This, perhaps, is the most important feature of our success. In brief, it means the application to the propagation of fruit trees, just the same intense study that is devoted to the raising of pedigree live stock, but in a different direction. In the case of Fruit Trees, the type is already fixed and our business is to secure and propagate only the **best of that type.** Every intelligent orchardist has noticed that certain trees in his orchard—while perfectly true to name—bear better fruit and more of it, although both receive precisely the same treatment. There is no apparent reason for this marked superiority of one tree over its neighbor, but such cases frequently occur. It is on this foundation that we raise Pedigree Fruit Trees. Our widely extended business, together with our own testing system, enables us to locate the best of practically every variety, and it is from these tested trees **only** that our stock is worked. Even here, however, we are only half way towards producing a Pedigree Fruit Tree. The Stock on which our trees are raised has to be studied. We have been for years, and still are experimenting and testing various stocks to find those most adapted to the demands of the different varieties of Commercial Fruits. It is not merely a matter of locality, but principally of constitution. A peach, for instance, no matter how pure its source, will deteriorate if worked on stocks derived from pits obtained from certain cultivated sorts, as such have not the constitution of the wild or natural peach. Further, the stocks used for plums and cherries are quite frequently only suckers, which, in turn are only a shade less objectionable than an apple worked on pieces of root. Such stocks mean a constitutionally weak and therefore unprofitable tree. In raising our Pedigree Fruit Trees, we have eliminated these defects and use only proved and tested Stocks, worked with wood obtained from tested fruiting trees.

CORRECTNESS OF VARIETIES.—In view of the foregoing, it will be obvious that mistakes in nomenclature are almost impossible. Mistakes, however, may occur in spite of the utmost vigilence. In any case of error, we shall be pleased, on receipt of satisfactory evidence, to replace such, free of charge. It is a condition of sale that we cannot hold ourselves responsible for any amount in excess of that originally paid for such trees as may prove incorrect.

FUMIGATION.—Our stock is thoroughly clean and has been inspected by officers of the Department of Agriculture. In addition, all stock is treated in our own Fumigator, under supervision of a Departmental Officer, and we furnish a certificate of such fumigation, if desired.

PACKING.—Like our Trees, our Packing is good and our packages carry safely throughout Australasia. Only clean new material is used, which obviates the danger of conveying disease. Packing material charged at cost only.

CROSS POLLINATION.—This matter has now gone beyond the experimental stages and each year an increasing number of practical orchardists are coming into line, more particularly those growing apples

and pears, and from many quarters we hear of largely increased yields as the result of a judicious selection of suitable varieties. Commercial growers who are planting solid blocks of one variety, find it necessary to plant other varieties in the immediate vicinity for fertilisation, and as the result of several years' experience in the Bathurst Orchards, we are now in a position to state definitely the blossoming period of a large number of apples and pears, and a reference to our Catalog will give the exact period of blossoming period for that district. Practically any variety will fertilise any other variety, provided, of course, the blossoming period of both is identical. As an example, Jonathan is easily and surely fertilised by Granny Smith, and both these again by McIntosh. As to the best method of making use of the pollination varieties, this is largely a matter of local conditions. The simplest method is to plant every seventh or eighth row, which means economy at picking time. A method favored by some practical growers is to have every tree worked with the pollinator, say one limb. This means, of course, an absolute certainty of the blossoms being fertilised, but has the drawback of two distinct harvesting of the fruit. We can work leading Commercial Apples in this way, that is, the cross pollinator, worked on one limb. In any case, we advise the planting of the pollinating variety on the windward side of the orchard.

TERMS AND CONDITIONS.—Our terms are cash on receipt of invoice with an allowance of 2½ per cent. for cash with order. Unknown correspondents will kindly remit cash when ordering or mention a Sydney reference. All packages delivered F.O.R. Darling Harbor, Hurstville and Camden or Sydney wharves. On our receiving a receipt that same have been delivered in good order, our responsibilities ceases.

AUSTRALIAN FRUITS.—There are varieties of fruit throughout the Commonwealth, many of sterling merit, the names of which are not known to the grower. Many are seedlings of Australian origin, others are old varieties which have lost their name. We shall be glad to hear from any orchardist who has either. Write us on the matter. Send samples of fruit. Send wood and we shall work them for you.

Visitors Cordially Invited

THE EASIEST WAY TO REACH OUR NURSERIES AT HURSTVILLE

Take train from Central Station at five past any hour to Arncliffe (not Hurstville), thence per Bexley tram to Terminus, nurseries being five minutes' walk.

TO REACH CAMDEN.

Take train leaving Central 9.45 every morning; change to Camden branch line at Campbelltown. Nursery about one mile from town of Camden.

HOW TO PLANT.—The land must be thoroughly prepared by ploughing several times to get rid of weeds and trash. If possible it should be subsoiled, as this permits the excess of moisture to get away and at the same time, by enabling the roots to penetrate, allows the tree, in dry weather, to draw upon the moisture stored in the subsoil. We urgently advise a thorough preparation of the land before planting. **Planting in Pot Holes must be avoided** if your trees are to thrive. When the land is thoroughly prepared, mark each place with a stake and open the holes as large as possible, stacking the surface soil round the hole for use when planting. Break up the subsoil well, but allow it to remain at the bottom. Do not plant your tree deeper than it stood in the Nursery. Work the fine surface soil well into the well-spread roots, and tread well when your hole is half full. If watering is necessary, do it at this stage and fill in when water has disappeared.

All Trees must be Pruned when Planted.

HINTS TO OUR CLIENTS.

In ordering, please use Order Sheet herewith, and keep separate from letter. Kindly state clearly the route you intend trees to take. Do not forget full address, as we occasionally receive orders with neither name or address.

Freight and Packing Charges must be paid by consignee. Our system of gratis trees will be found to considerably reduce this charge. Unpack bundle on arrival and place the roots in the ground, covering well with fine soil. If this is carefully done, the trees will stand unharmed for some time.

HOW BEST TO HAVE YOUR TREES FORWARDED.

Lots weighing, say 14lbs. are best sent per passenger train, prepaid, but over that weight are better per single package goods (a specially cheap rate applying to goods up to 140lbs.) Any small parcels are better sent per post, as we can choose small sturdy plants for this purpose.

STAMPED PARCELS (PREPAID) RATES.

PER PASSENGER TRAIN.

As these rates only apply when freights are prepaid, customers are requested to add the amount to their remittances. If sent by parcel rate, and not prepaid, 50 per cent. is added to the above rate.

One dozen fruit trees weigh about 12 to 18lbs., according to size of trees. Fifty trees packed, weigh about 56lb.

For rates, see Railway Time Table.

PARCELS POST.

In New South Wales, first pound 6d., each additional pound up to 11 lb., at 3d. per pound; Interstate, first pound 8d., each additional, 6d.

SINGLE PACKAGE RATES PER GOODS.

All Nursery Stocks can now be sent by single package, goods rate, which is far cheaper than stamped parcels rates.

FRUIT TREES.

GENERAL LIST.

Apples.

Worked on Blight-proof stocks—which means all that portion of the tree below the Bud or Graft is proof against Woolly Aphis or American Blight. Prices, 1/3 each, 12/- doz., 75/- to 80/- per 100, £30 to £35 per 1000—500 at 1000 rates.

EARLY VARIETIES.

American Summer Pearmain.—Considered the most highly flavored of all early apples, medium size, yellow flesh, very tender. Blooms 1st Oct., lasts 9 days.

Allsopp's Early.—An extremely early variety, ripening before Lord Nelson. A showy fruit, mainly cooking.

Astrachan Red.—Fairly large, roundish, covered with deep crimson; flesh quite white, juicy.

Beauty of Bath.—Medium size, skin yellowish green, striped with crimson; flesh yellowish.

Carpenter.—(See Gravenstein).

Carolina Red June.—Medium, oval, or conical; skin nearly covered with deep red, flesh very white, tender, very juicy.

Carrington (Red, Lady Carrington).—Fruit medium, roundish; skin pale yellow; clear light red in the sun; flesh white, very tender; thoroughly blight-proof.

Carrington Striped.—Similar to foregoing, except that markings are brilliant red stripes; blight-proof.

Climax.—Blight-proof; skin yellow, streaked with red; flesh yellow, crisp and juicy, and very sweet.

Devonshire Quarrendon.—Medium size, roundish, rich crimson in the sun; flesh whitish, crisp, juicy. Blooms 26th September, lasts nine days.

Duchess of Oldenburgh.—Medium, Streaked with red on a golden or yellow ground; almost blight-proof.

Gannon Grove.—Similar somewhat to "Carrington"; very showy and heavy cropper; not liable to blight.

Gravenstein (Carpenter).—Fruit large, roundish, but a little irregular; skin rich yellow, streaked with bright red; flesh whitish yellow; crisp. Blooms 21st September, last nine days.

Hoary Morning.—Very similar to "Carpenter," but poorer quality. Blooms 28th September, lasts 11 days.

Irish Peach.—Medium size; skin clear yellow, handsomely stripped with bright red; quite blight-proof. Blooms 22nd September, lasts eight days.

Jewell.—Cross between Trivett's Seedling and Jonathan; very showy; fair size. Should make an early export variety. Raised in N.S.W. Blooms 19th September and lasts 11 days.

Keswick Codling.—Fruit large, skin greenish-yellow, with a faint blush; a grand cooking apple. Blooms 26th September and lasts 11 days.

Lord Nelson.—Enormous size, skin clear lemon yellow, shaded and splashed with a clear bright red; a cooking apple. Blooms 17th September and lasts 11 days.

Lord Suffield.—Fruit large, rather conical; color, pale greenish yellow. One of the very finest early cooking apples. Blooms 1st October and lasts 10 days.

Maiden's Blush.—Medium size, of a delicate waxen color in the shade, and a brilliant crimson in the sun. This must not be confused with Twenty Ounce, frequently called Maiden's Blush.

Marjorie Hay.—A very early dessert apple; fruit large, conical, striped and mottled with lovely red; blight-proof.

Reinette Jaunne Hature.—Resembles Gravenstein, but not so liable to canker in limbs.

Santa Clara King.—Large, roundish, deep yellow, covered with red in sunny side, ripens fairly early.

Scarlet Pearmain (True).—Medium size, rather conical; skin deep yellow in the shade, rich crimson in the sun. A showy dessert. Blooms 24th September and lasts 14 days.

Sharpe's Early.—Medium size, roundish; skin deep golden yellow, beautifully striped. Blight-proof. Blooms 25th tember, and lasts 14 days.

Summer King.—A valuable early market variety, large, striped crimson, red and orange; flesh tender.

Trivett's Seedling.—Fruit medium size, skin yellow, streaked and splashed with broken crimson stripes; a showy apple, and a good market variety; blight-proof.

William's Favorite.—A very handsome desert apple, of very fine flavor; bright red. One of the best earlies. Blooms 29th September and lasts 11 days.

Yorkshire Beauty.—A large green cooking apple, of the very best quality; fit for use some weeks before it is fully ripe; blight-proof.

Zouche's Pippin.—A very fine early variety, ripening Christmas; good color; heavy cropper.

MID-SEASON VARIETIES.

Alexander.—Very large, regularly formed; skin greenish yellow, faintly streaked with red in the sun; tree very vigorous. Blooms 3rd October and lasts 11 days.

American Golden Russet.—Medium size, roundish; skin dull yellow, with a very thin russet; flesh yellowish. Blooms 30th September and lasts 10 days.

Allington Pippin.—A variety of Cox's Orange Pippin, medium sized; skin clear yellow, flaked with crimson; flesh white, firm and crisp.

Bismark.—Large, roundish, completely covered with broken crimson stripes, quite blight-proof, and a heavy and early bearer; cooking. Blooms 26th September and lasts 13 days.

Brown's Pippin.—Good, even size, just the thing for export. Colour deep brownish red on dark yellow ground; flesh yellowish, splendidly flavoured.

Baumann's Red Winter Reinette.—An exceedingly handsome variety, ripening after Jonathan. Promises to be one of the very best for local or shiping trade.

Cox's Orange Pippin.—Medium size, round, very regular; skin greenish yellow, with a dark red cheek; flesh yellow, crisp, with a rich aromatic flavour. Blooms 8th October, and lasts six days.

Charles Ross.—A seedling of Cox's Orange Pippin, crossed with Peasgood's Nonsuch; fruit of the shape of Cox's Orange Pippin.

Duke of Wellington.—Fruit large and very firm flesh. Skin beautifully washed with dark red stripes on sunny side, with clear Five Crown yellow on shaded side.

Esopus Spitzenberg.—Handsome dessert apple, large, round, rather long; skin clear lemon yellow, with a beautiful carmine cheek; rich and aromatic. Blooms 28th September and lasts eight days.

Fanny.—(See Pomme de Neige).

Foster.—Coming into use in February, it will fill up a gap in the market between the very early apples and "Jonathan." Blooms 29th September, and lasts 13 days.

John Sharp.—An improved Pomme de Neige, perfectly blight-proof, and very productive. Blooms 1st October and lasts 12 days.

King of Pippins.—Fruit of medium size, roundish; skin pale yellow, with a fine red cheek. Blooms with Granny Smith.

Mountain Pippin.—Fruit is of large size, good packing shape, skin brilliant crimson, streaked with deep carmine.

Mobbs' Royal.—Large, a little flattened; skin grass green, covered with brown red in the sun; flesh white, juicy, subacid. A grand cooking fruit.

McIntosh's Red.—Is a greatly improved Fanny or Pomme de Neige, having the same snow-white flesh of Fanny, but is far more highly coloured and richly flavoured. In colour it is a deep glowing crimson. Our stock is the genuine variety, being worked from trees fruiting under our notice at Camden. Blooms 19th September and lasts 9 days.

Nelson Codlin.—A variety doing well at the Bathurst Orchard. With us it appears rather of dwarf habit.

Peasegood Nonsuch. — Similar to Gravenstein, quite as handsome, and of equal flavour; valuable marketed green as a cooker. Blooms 25th September and lasts 13 days.

Prince of Pippins.—Fruit medium size; skin rich red in the sun; flesh yellow, crisp. Blooms with Granny Smith.

Pomme de Neige.—Medium size, skin yellow, tinged with red in the shade, deep red in the sun; flesh very white, juicy, and good; known as Fameuse, Snowy, and Fanny. Blooms 22nd September and lasts 13 days.

Ribstone Pippin.—Medium size; skin dull yellow, patched, and streaked with dark and pale red; flesh crisp. Blooms 29th September and lasts 9 days.

Ruby Gem.—Medium size; skin brilliant red all over; flesh white, crisp, and juicy; tree a strong grower; blight-proof.

Snowy.—(See Pomme de Neige.)

Twenty-Ounce.—Very large, roundish; skin greenish yellow, boldly splashed and marked with stripes of purplish red; blight-proof. Should be marketed green as a cooker. Blooms 23rd September and lasts 10 days.

Willie Sharp.—Another quite blight-proof apple, pale yellow colour; heavy cropper; valuable for early export.

Worcester Permain.—Medium size, skin almost covered with dark red stripes and marblings of crimson. A very handsome dessert apple. Blooms 5th October and lasts 10 days.

WINTER VARIETIES.

Adam's Permain.—Medium sized, rather oblong; skin yellow, splashed with red; a grand dessert fruit. Blooms with Granny Smith.

Annie Elizabeth.—Large, roundish; skin pale yellow, with faint streaks in the shade, but bright red in the sun. Blooms 10th October and lasts seven days.

Aiken's Seedling.—Somewhat resembles Buncombe; very highly coloured, and very heavy cropper.

Apple of Commerce.—Beautifully coloured, largest size, sound, hard, will cling to a tree during the heaviest gale. Blooms 19th September and lasts 10 days.

Baldwin.—Fruit large, roundish, ribbed; skin yellow, covered with stripes of crimson; flesh yellowish, crisp.

Barry.—Fruit large, flesh firm, crisp, juicy, and of best quality; skin yellow, with carmine.

Blenheim Orange Pippin.—Fruit large, skin deep orange, dull red stripes; flesh yellow. Blooms 3rd October and lasts 11 days.

Ben Davis.—Medium to largs size; skin yellow, almost covered with splashes of two shades of red; flesh white. Blooms 19th September and lasts seven days.

Blondin.—A fair sized, very showy apple, ripening fairly late; has a favourable reputation.

Boston Russet.—Medium to large, roundish; skin dull green, almost covered with brownish yellow russet.

Buncombe (Red Winter Pearmain).—Medium size, oblong, conical; skin yellowish white, mostly shaded with maroon; a very regular bearer. Blooms 1st October and lasts 14 days.

Black Ben Davis (Gano).—Seedling of that well known apple, Ben Davis; better quality and keeper, and a much more certain cropper. Blooms 20th September and lasts seven days.

Canada Reinette (Triump de Luxembourg).—Largest size; skin a little brown in the sun; flesh nearly white. Blooms 5th October and lasts seven days.

Champion.—Very late and firm; skin deep golden yellow, covered with scarlet stripes. Blooms 25th September and lasts 10 days. .

Claygate Pearmain.—Medium size, roundish, conical; skin greenish yellow, nearly covered with brownish red. Blooms with Granny Smith.

Cleopatra (New York Pippin).—Medium to large, oblong to conical; skin a fine clear lemon yellow; flesh white, very juicy and rich; a grand dessert apple. Blooms 19th September and lasts 10 days.

Coronation.—Above medium, skin pale yellow, striped and spotted with red, flesh firm.

Creases (Frampton's). — Large size, roundish; skin almost covered with bright red; flesh very juicy and rich; quite blight-proof.

Crofton Pearmain.—Medium-sized, highly coloured, of good keeping quality; a favourite in some districts in Tasmania.

Crow's Egg.—(See Late Wine.)

Delaware Red Winter.—Medium size; skin golden yellow; highly flavoured and aromatic. Remarkably smooth and shiny skin.

Delicious.—In colour like Jonathan, of most exquisite Ribston flavour. One of the best late-keeping apples. A grand thing for our cool districts. Blooms 26th September and lasts nine days.

Dougherty. — Medium size, almost covered with bright red; a very fine dessert apple; good bearer; late. Blooms 23rd September and lasts seven days.

Democrat (Tasma).—A new seedling originating in Tasmania. Tree robust regular and heavy bearer. Fruit brilliant red; perfectly firm; good aroma; keeps well in cool storage. Planted largely in Tasmania now for export.

Dumelow's Seedling (Wellington).—Large, roundish, flattened; skin pale yellow, a light red cheek, and a little russet; late cooking.

Edna May.—In appearance like a highly coloured Jonathan; very firm, fine flavour; splendid bearer and excellent carrier; sure to become a universal favourite.

Five Crown Pippin (London Pippin).—Large, roundish; skin pale yellow, with, in some districts, a dark red cheek. A grand all-round apple, drying well. Blooms 1st October and lasts 13 days.

French Crab.—Fruit medium size, skin dark green; the very best keeping apple. Blooms 1st October and lasts 9 days.

Golden Russet.—Medium size; skin rough, dull yellow, covered with russet; flesh whitish yellow, very sprightly.

Grime's Golden Pippin.—Medium size, roundish oblate; rich golden yellow, flesh yellow. Blooms with Rome Beauty.

Gloria Mundii.—Very large, roundish, oblate; ribbed skin, greenish yellow; flesh rather coarse-grained, juicy.

Granny Smith.—A very heavy bearer, and when grown in such districts as Orange will keep for the whole year. Strongly recommended for export. Blooms 21st September and lasts 10 days.

Glowing Coal.—Its name exactly describes its colour. Is inclined to overcrop, and should be thinned. Blooms 26th September and lasts 9 days.

Hoover.—Large size, roundish, skin yellowish, covered with two shades of red; flesh yellowish. Blooms 2nd October and lasts 10 days.

Jonathan.—Medium size, roundish, conical; skin light yellow, almost covered with light and dark red or purple in the sun; flesh whitish, a little pinkish; very tender and juicy, with a sprightly, vinous flavour. Highly recommended for shipping. Blooms 24th September and lasts 16 days.

Kentucky Redstreak.—Medium size, roundish; skin greenish yellow, shaded with dull purplish red. Blooms 21st September and lasts 10 days.

King David.—A rich dark red apple, with yellowish flesh; flavour good, juicy, and rich. Blooms 26th September and lasts 11 days.

Lady Hopetoun.—In appearance it very much resembles 'Jonathan'; the raiser says the tree is perfectly blight-proof.

Lane's Prince Albert.—Large conical; grass green, with broken streaks of crimson. Blooms 9th October and lasts 10 days.

Late Wine.—Medium size; skin shaded with light and dark crimson. A grand dessert fruit, identical with Crow's Egg. Blooms 17th September and lasts 10 days.

Lord Wolseley.—Medium size, skin clear, rich yellow; flesh very firm, juicy, brisk. Tree a constant bearer, and quite blight-proof. Blooms 5th October and lasts nine days.

London Pippin.—(See Five Crown.)

Loy.—Is one of the largest and showiest apples in cultivation, rivalling that well known variety "Gloria Mundii."

Magg's Seedling.—Above medium size, skin yellow, striped and splashed with rich red; long keeper, and blight-proof. Blooms 21st September, and lasts 10 days.

Munroe's Favourite (Dunn Favourite).—Fruit largest size, roundish, skin clear yellow, with a reddish-brown cheek. A late keeping apple of first quality. Blooms 21st September and lasts 10 days.

Margil. — Of Ribston Pippin type; medium size; good colour, and very highly flavoured; tree very hardy.

Missouri Pip.—Received from America as one of their very best shipping apples.

Nickajack.—Large, roundish, skin yellowish, striped, and splashed with two shades of red. Blooms 26th September and lasts 11 days.

Northern Spy.—Large oblate, conical; skin pale yellow, with light and dark purple stripes; flesh yellowish; blight-proof. Blooms 7th October and lasts 7 days.

New York Pippin.—(See Cleopatra.)

Oregon Mammoth Black Twig.—Vigourous grower, and very hardy; fruit very large, many specimens measuring 12 inches in circumference; colour dark red; flesh firm, long keeper.

Ohinemuri.—(See Munroe's.)

Perfection (Shepherd's).—Medium size, roundish; skin yellow, but deep rich red in the sun; flesh whitish,. Blooms with Granny Smith.

Prince Alfred.—Large, elongated, conical; skin yellow, striped with clear red; flesh yellowish, firm, juicy, and rich. A grand export apple.

Paragon.—Large, roundish, somewhat flattened, dark red; flesh firm, yellow, crisp, aromatic, sub-acid.

Rokewood.—Medium size, slightly conic, skin rich crimson, a little russet; flesh whitish. Blooms 28th September and lasts 11 days.

Red Majestic.—Described as an Improved Munroe's Favourite, fully half the fruit being covered with glowing red.

Rome Beauty.—Fruit large, skin greenish yellow, mottled and shaded with light red and streaks of darker red. Blooms 5th October and lasts 10 days.

Rymer.—Large, roundish, flattened; skin greenish yellow; a few streaks of pale red in the shade, deep red in the sun. Blooms 25th September and lasts 13 days.

Salome.—Medium size, skin pale yellow, striped, shaded, and splashed with light and dark red. Blooms 26th September and lasts 10 days.

Scarlet Nonpareil.—Medium size, roundish oblate; sage green, striped and shaded with deep red; flesh yellowish white, very firm, juicy, rich and spicy. (Known in Tasmania as Scarlet Pearmain.) Blooms 16th September and last eight days.

Sharpe's Late Red.—Fruit large, skin is bright red, striped, on a yellow ground; flesh yellow.

Shockley.—Below medium size roundish, conical; skin pale yellow, overspread with red. Blooms 24th September and lasts 14 days.

Sherland Queen.—Highly esteemed in Victoria; very showy, and sells well.

Sturmer Pippin.—Medium size, roundish, oblate; skin a fine yellow, almost covered with brownish-red; flesh firm, crisp, and very rich. Blooms 25th September and lasts 13 days.

Stewart's Seedling.—Largest size, roundish, flattened; skin pale yellow, with a brown-red cheek; flesh white, firm, and solid.

Stone Pippin.—(See Winter Pearmain).

Senator.—Fruit not too large, and more brilliant than Pomme de Neige. Tree a vigorous grower and regular cropper. Blooms 19th September and last nine days.

Stayman Winesap.—Said to be a great improvement on old Winesap; a variety largely exported from America to Australia. Blooms 25th September and lasts 10 days.

Statesman.—Upright grower and a good bearer; fruit bright golden, striped and shaded with crimson; a good dessert and cooking variety.

Tasma.—(See Democrat.)

Wealthy.—Medium size; oblate; skin whitish yellow, deep rich crimson in the sun. Blooms 25th September and lasts 10 days.

Winter Magetin.—Medium, roundish, skin dark green, covered with brown red in the sun; flesh whitish, with a brisk, sub-acid flavour; blight-proof. Blooms 5th October and last 10 days.

Winter Pearmain (Stone Pippin).—Medium size, roundish, inclined to be conical; skin pale yellow, with a red cheek; flesh crisp, very juicy; splendid cooking. Blooms 25th September and lasts 14 days.

Winter Peach.—Fruit medium, cream colour, flesh very tender and juicy, with fine acidity; good keeper; late.

Winesap.—Medium size, roundish oblate; fine dark red in the sun, a little yellow, in the shade; flesh yellow, firm, crisp, a rich flavour. Blooms 26th September and lasts 11 days.

Winterstein.—A late variety of Gravenstein or Carpenter, coming in two weeks after Gravenstein.

Wright's Perfection.—We can see no difference between this and Trivett Seedling.

Yates.—Small, conic, skin whitish yellow, splashed with shades of red; flesh white, stained next the skin; an enormous bearer; blight - proof. Blooms 23rd September and lasts 10 days.

Dwarf Apple Trees.

These trees are most suitable for filling spaces along walks, or in places where there is not sufficient room for standard trees. They produce the finest samples of fruit, are remarkably heavy bearers, are easily gathered, and less liable to be blown off. The following varieties have been selected as best adapted to this mode of culture:—

Price, 2/- each; 21/- per dozen.

Carrington	Jonathan	Twenty-Ounce
Emp. Alexander	Lord Nelson	Willie Sharp.
Five Crown Pippin	Lord Suffield	King David
Gravenstein	McIntosh Red	Oregon Mammoth
Granny Smith	Northern Spy	Black Turig.
Irish Peach	Ribston Pippin	Delicious
	Rome Beauty	

For descriptions see General List of Apples.

Cider Apples.

We offer varieties specially as the best apples for producing Cider. These are the most profitable varieties where the making of cider is an enormous industry. All worked on blight-proof stocks.

Price, 2/- each.

Specially imported by us, as being the most profitable Cider Apples in cultivation in Great Britain.

Cherry Pearmain	Fox Whelp	Skyrme's Kernel
Eggleton Styre	Kingston Black	White Norman
	Red Streak	

Custard Apples (*Cherimoyer*).

This delicious fruit is well worth a trial in the warm inland districts, as, when established, it is much more hardythan is generally supposed.

Price, 1/3 each, 12/- per dozen.

Rough-fruited. The variety usually seen in the Sydney market bears moderate crops at Camden.

Planters will note we are considerably reducing varieties of Fruits listed in this Catalogue, many previously listed having proved to be non-commercial varieties. Those listed herein can be all relied on either for Orcharding or Private Gardens.

Apricots.

Worked on Seedling Apricot and Peach Stocks also a limited quantity on Plum Stocks.

Price 1/3 each; 12/- dozen, 75 to 80/- 100; £30 to £35 per 1000. 50 at 100 rates, 500 at 1000 rates.

Alsace.—Large, roundish; rich yellow, shaded with brownish red; flesh deep yellow, very rich. Ripe first week in January.

Angoumois Hative. — Ripening first week in January. Medium size, deep yellow, dark brown in the sun.

Blenheim (Shipley's).—Fruit largest, a little pointed; skin clear yellow, bright red cheek; flesh deep orange.

Bobby Allen.—A second early apricot, succeeding Masculine by ten days. Fruit large, conical, of good colour, known as Allen's Early.

Busche Peche.—Medium size; bright red in the sun; flesh deep yellow, ripe last week in December.

Belle de Toulouse.—Fruit very large, rich and juicy; a constant cropper. Ripens 10th December. Is a good carrier.

Campbellfield's Seedling.—Very large; skin rich orange, with large red blotches; flesh deep orange, very rich, juicy. One of our very best.

Camden Pale Superb.—Large, oval; skin pale yellow, bright red in the sun; flesh pale, very meaty; ripe first week December.

Carrington.—Must be heavily thinned; fruit large; skin brownish in the sun; flesh rich and vinous; ripe after Christmas.

Californian Royal.—Fruit medium size, round; skin rich orange, not spotted; very rich, juicy; ripe December.

Dundonald.—A very favorite variety; fruit very large, skin deep orange; a fine variety, ripening with Moorpark.

Defarges.—Medium to large, golden orange with purple check, flesh firm; ripens December.

Elruge.—Fruit always large; skin clear, deep yellow, dark red in the sun; flesh firm; first week in December.

Early Moorpark.—A very fine apricot, ripe here second week in December; very large, deep, rich orange in skin and flesh.

Early Golden.—Ripening a little after Masculine, but much larger; skin and flesh deep orange.

Gourlay.—A Californian variety, largely grown there for canning.

Harris.—Fruit of largest size, roundish; skin deep golden yellow, bearing constantly.

Hemskirke.—Largest size, roundish; skin deep orange, bright red in sun; flesh deep yellow; ripe middle of December.

Hative d'Auverne.—An enormous fruit; long, conical. The tree needs the knife in summer, but very little in winter.

Kaisha.—Strongly resembles Pineapple; ripe here third week in December; its size will recommend it to planters for market.

Large Early.—Tree very vigorous; and must be pruned lightly in winter; ripens two weeks after Masculine.

Large Orange.—A most profitable apricot, bearing every year an enormous crop of large, very highly colored fruit.

Moorpark (Temple's).— Very large, round, one-sided; skin deep reddish orange, with an abundance of rich juice; needs good cultivation; ripe end December.

Mansfield Seedling.—Somewhat like Moorpark; skin deep orange, with a few red dots; a heavy bearer.

Newcastle Early.—Ripens third week November; fruit of fine yellow color and a heavy bearer. Larger than Red Masculine.

Oullin's Early.—Large; skin deep rich yellow, flesh orange, very rich; ripe third week December.

Oullin's Improved.—Fruit very large; deep rich yellow; very sweet, of true "Moorpark" flavor; a heavy cropper.

Pine Apple.—Fruit large, roundish; skin bright yellow; very clean; ripe Christmas week.

Royal.—Fruit large, deep yellow, tinged with beautiful red; flesh deep yellow, with an abundance of rich, vinous juice; ripe third week in December.

Red Masculine.—Earliest apricot ripening here, November 9; fruit small, round; skin yellow, beautifully red in the sun.

Roman.—Large, roundish, oval; skin fine yellow, with a pale red cheek; fairly juicy. Ripe first week in January.

Riverside.—Larger than Moorpark; skin tinged red where exposed; flesh deep orange yellow, and very luscious.

River's Large Red.—Prolific bearer, fairly large, round; bright red in the sun; flesh orange, very rich and vinous; ripe third week in December.

Royal George.—A good fruit, hanging till New Year here; of good size, and fine flavor. Its fault is want of color.

St. Ambroise.—Fruit large, roundish, deep yellow, rich red in the sun; flesh deep yellow.

Trevatt.—Recommended by Mildura growers as being the very finest variety for drying. Fruit somewhat resembles Shipley's. Is an enormous cropper and we think should be given a trial by those interested in canning.

Turkey.—Medium, round, deep orange, brownish red in the sun; flesh yellow, firm, juicy; ripe last week December.

Warwick.—Very large, oval; deep orange, with brilliant red; flesh orange, very firm, rich and vinous. Its size and appearance will always sell it. Ripe third week in December.

Bananas.

Although, strictly speaking, a tropical fruit, the Banana will bear well in many parts of the State, especially in the interior. Of course, a sheltered situation must be chosen.

Cavendishii.—The well-known dwarf banana, producing immense bunches of large, delicious fruit, with a delicious flavor. Price, 2/- each.

Lady's Finger.—A splendid flavored variety, fruit long and slender, produced in enormous bunches. Very hardy, and of finest flavor. 1/6 each.

Plantain.—The hardiest of the tribe, ripening its fruit even in this locality. Price 1/6 each.

Sapientum.—The common banana, very hardy, and, although not so rich as the preceding, of good flavor. Price 1/6 each.

Giant Sugar.—Fruit small, but produced in immense bunches; flavor particularly rich and delicious. Price 2/6 each.

Cherries.

Worked on Seedling Mazzard Stock, and so avoiding the Suckers so troublesome where the common suckers are used.

The Cherry requires a deep, warm, dry soil, with special regard to drainage. If these conditions are observed, there is no more prolific crop.

Price, 1/3 each; 12/6 dozen; 75/- to 80/- per 100; £30 to £35 per 1000; 50 at 100 rates, 500 at 1000 rates.

Archduke.—Large, bright red, becoming very dark when mature; flesh half melting, juicy, with rich, sub-acid flavor; ripens after May Duke.

Bedford Prolific.—Large, roundish, skin dull brownish black; flesh tender and rich; a fine cherry; early.

Belle de Orleans.—Fruit above medium size, roundish; skin yellow, half-covered with pale red; an enormous cropper.

Bigarreau Rockport.—Skin, a beautiful bright red; flesh firm, juicy, sweet. Ripens a few days before May Duke.

Bigarreau Gaucher.—Fruit very large, nearly round; skin brownish red; flesh reddish, firm juicy, and good. After E. P. Gean.

Belle de Montreuil.—Large, round, marbled with red; flesh firm, deep red; an early variety and hardy.

Bela de Pistoia.—An early variety. Fruit very large, round, dark red; flesh soft, sweet and very perfumed.

Bigarreau Pellisier.—Beautiful large fruit; skin dark glossy red; flesh rosy; valuable early cherry.

Bigarreau M. Goucher.—Fruit very large, nice red color, heart-shaped, firm, juicy, delicious; ripening late in season; tree very vigorous and prolific.

Bigarreau Riverchon.—Large, almost black, flesh firm and good.

Bigarreau Twyford.—Fruit large, skin a bright shining red; recommended for growing for market on account of its earliness.

Bigarreau Noir de Guben.—Large and good; very luscious in colour, and a prolific cropper.

Bigarreau Napoleon.—Fruit of the largest size, regularly heart-shaped; skin amber in the shade, with a fine crimson cheek; flesh firm and crackling; juicy.

Bigarreau Black.—Fruit very large, jet black; like St. Margaret, but appears to succeed in a warmer climate; late.

Bigarreau Jabourlay.—Described as the earliest Bigarreau Cherry, fruit large; dark red, rich flavour.

Bigarreau Monstreux de Mezel.—A very large, handsome cherry of excellent quality; medium.

Bing.—Fruit very large, dark brown or black; very fine; tree very vigorous and hardy; foliage heavy and dark green; flesh firm, and a splendid carrier.

Black Eagle.—Fruit above medium size, bourne in pairs and three; skin almost black.

Black Republican (Lewelling).—Fruit of large size, deep shining black. Ripens latest.

Black Tartarian.—Of largest size, skin glossy, purplish black, flesh purplish, half tender; superb fruit.

Bleeding Heart.—Medium size, skin dark, dull red; flesh firm, a heavy cropper. Mid-season.

Burgdoff's Seedling.—A magnificent large dark red, very early variety, ripening just after Early Purple Guigne.

California Advance.—A seedling from Early Purple Guigne; much larger.

Chapman.—A seedling of Black Tartarian, larger and finer, a better bearer, and ripens after Purple Guigne.

Claremont.—Early pale cherry, ripening early in November; fruit large, clear, rich vermilion in the sun; firm.

Centennial.—A seedling from that fine cherry, Napoleon Bigarreau. It excels its parent in size considerably.

Downton.—Fruit large, rather blunt; skin pale cream, splashed with light red; flesh white throughout, tender.

Early Brown Bigarreau.—Fruit large, heart-shaped; skin liver color; flesh brownish; very rich. Mid-season.

Early Lyons.—Fruit very large; skin deep red in the sun; flesh red, very juicy, firm and very solid. A grand market variety, ripening a week after Early Purple Gean.

Early Purple Gean.—Medium size, roundish, heart-shaped; skin smooth, rich purple; flesh purple, tender.

Early Rivers.—Large, purplish black; flesh rich and agreeably perfumed; ripening a week after Purple Gean. An enormous cropper.

Elton.—Large, pale yellow in the shade; flesh fairly firm, ripens a little after May Duke.

Empress Eugenie.—Fruit large; skin dark purplish black; flesh purple, of a rich luscious flavour.

Florence. — Large, roundish, heart-shaped; pale amber, nearly covered with bright red; flesh amber, very firm; a favorite fruit for market on account of its lateness.

Fruhurst du Mark.—Medium size; dark red in both skin and flesh; very sweet; good market sort; early.

Guigne Annonay.—Large, dark black, somewhat resembling Early Rivers, but is 8 to 10 days earlier; free vigorous grower.

Governor Wood. — Large, roundish, skin yellow, marbled with bright red; juicy, sweet, rich and delicious.

Late Duke.—Large, heart-shaped, skin a rich, dark red; similar to May Duke in appearance, but a month later.

Merville de Langsur.—A fairly late variety; large, dark red, very juicy, tree prolific.

May Duke.—Fruit medium, skin rich dark red; flesh reddish, tender and melting; a popular early cherry.

Morello.—Medium, skin rich dark, purplish red, rich purple juice; the favourite cooking and preserving cherry.

Mountain King & Mountain Monarch.—Two very hardy varieties of the Improved Morello type, splendid for bottling.

Noble.—Large dark red, flesh firm, good flavour; tree hardy and prolific; reputed to be the best dark cherry grown.

Ohio Beauty.—Large, obtuse, heart-shaped; skin light yellow, almost covered with fine red; flesh whitish,

Pontiac.—Fruit large, purplish black, late.

Precoce de Boppard.—The earliest cherry known, ripening October, before Early Purple Gean; fruit dark glossy red, striped and spotted; a good grower and constant cropper.

Reine Hortense. — Large, roundish, bright lively red; flesh tender, very juicy, slightly sub-acid.

Ramen Olivar.—Dark glossy red; flesh firm and sweet; very large, measuring up to 1¼ inch in diameter; called the upright Lyons by some growers.

St. Margaret.—Very large, roundish heart-shaped; skin shining black; flesh purple, very juicy, with a strong brisk flavour; a grand cherry, ripening with Florence, and always commanding high prices.

Terry.—A large, brilliant red cherry, with a small pit, growing darker as it ripens; early bearer of regular crops; early, excellent.

White Heart.—This is only Bigarreau under another perhaps better known name.

Werder's Early Black.—Fruit large, tender, very rich; perhaps the most profitable variety for market culture.

Citrus Fruits.

For the reason, among others, that it has really no dormant period, the Citrus tribe require a little more care than most fruits. Being a very shallow rooter, it suffers in time of drought, and must be mulched—anything will do, dead weeds, or grass, or manure. Further, it will not stand excess of moisture or cold, but both these can easily be avoided in selecting a site.

Price 1/6 each, 15/- doz., £5/10/- to £6 per 100, except for higher - priced varieties. Special quotations per 1000.

Worked on Lemon (Citronelle) and Orange Seedlings.

Oranges.

Blood (Maltese).—Medium size, flattened; skin deep red; filled with abundance of deep red juice; tree a free grower, ripens early.

Buckeye Navel.—Improved Washington Navel from America; a true Navel orange, ripening early in season; distinct and delicious flavour; a good cropper.

Golden Nugget Navel.—Very smooth, solid, and thin skinned; of very fine texture; colour strong gold; tree of pendulous habit of growth, and is a regular and even cropper.

Holdfast.—Valuable on account of the remarkable way in which it hangs to the tree; fruit large, roundish; skin pale yellow.

Homasassa.—Fruit medium size, somewhat flattened; skin very smooth and thin; a splendid Californian variety.

Jaffa.—"Unsurpassed by any other variety"; tree a strong vigorous grower, very productive.

Joppa.—Fruit large size, oblong; skin particularly thin; tree a vigorous upright grower, quite thornless; a a constant and early bearer.

Mediterranean Sweet.—Its great value consists in its being an early, prolific, and continuous bearer; medium size, slightly oblong.

The Navelencia.—A cross between the popular Valencia and Washington Navel; retains the good qualities of both parents. A valuable variety for citrus growers.

Parramatta.—Fruit large size, round; skin deep yellow; when the trees attain a little age, of splendid quality.

Queen.—Medium to large, flattened; skin deep yellow, and with age remarkably thin; very juicy, a very sturdy grower.

Siletta.—Medium size, roundish; pale yellow, very smooth and thin; abounding in juice, enormous bearer.

St. Michael.—Fruit of largest size, roundish, skin deep yellow, smooth and thin; profitable for market. Bears carriage.

Thompson's Improved Navel.—Improvement on Washington Navel; fruit equal in every way to its parent, but is earlier, and is a good, even consistent cropper..

Valencia Late.—One of the best varieties grown. Fruit large, oblong; very firm and solid; pulp fine grained, with a high rich flavour. The very latest to ripen.

Washington Navel.—A splendid orange; fruit very large, very even, of perfect shape and colour; pulp very fine-grained, remarkably juicy; rich, racy flavour.

White Siletta.—One of the earliest oranges to ripen; skin very fine and thin, pulp rich and very juicy; will usually ripen before the frosts come.

Mandarins.

(Prices same as Oranges.)

Beauty of Glen Retreat.—Of noble size and appearance; most luscious flavour; an enormous cropper; is doing well in this State.

Canton.—(See Scarlet.)

Ellendale Beauty.—Pale colour, very fine skin, and on account of its huge size and favourite colour, will always sell.

Parker's Special.—Larger size and equal in quality to Beauty of Glen Retreat. The fruit ripens earlier.

Emperor.—The largest of the Mandarins; skin almost red, and loosely attached; flesh very juicy, not so highly flavoured as Thorny; profitable for market.

Fewtrell's Early Shipping.—Skin and flavour like an orange, but peels and quarters like a mandarin; very robust, and heavy cropper; almost seedless.

NEW MANDARIN.

Imperial.—Is the very earliest variety in cultivation, coming on the market weeks ahead of any other and always commands fancy prices. In appearance a cross between Thorny and Emperor, being nearly the size of the latter. Has a magnificent flavour. Tree good grower, heavy cropper and stands frost.

Jacobs' Improved Thorny.—Very fine skin, juicy and highly coloured; splendid free grower, and good cropper; flavour between Thorny and Scarlet.

King of Siam.—Received from South Australia, where it is considered an acquisition; 2/6 each.

Scarlet (Canton).—Fruit very large in size, skin almost scarlet; flesh very juicy, but not of best flavour. Very productive, and very handsome.

Oonshiu.—A very hardy tree, said to stand frost well; pendulous habit; no seeds; flesh firm, thin skin.

Thorny.—Medium sized, quite flat, with a very high flavour. The tree requires to have the wood thinned.

PRESERVING VARIETIES.

Cumquat.—Fruit very small, round; skin deep yellow; only used for preserving; tree a vigoraus grower, heavy bearer.

Poorman's (True).—Fruit very large; very hardy; an enormous cropper; fair flavor; in heavy demand by jam factories.

Seville (Round).—Fruit large size, roundish, rather flattened, very solid; somewhat similar to Poorman, but distinct in texture.

Seville (Flat).—Similar to preceding, except in shape. Considered more valuable for marmalade by the factories.

Lemons.

(For Prices see Oranges.)

Common.—A very hardy lemon, bearing when the finer varieties do not.

Eureka.—(See Sweet Rind.)

Genoa.—Fruit medium size, oval, with a very thin rind, and a strong, pleasant acid flavour; inclined to be thornless. Remarkable early bearer.

Lisbon.—A splendid old variety, which is too well-known to need description.

Lisbon Variegated.—Similar to Lisbon, but fruit and foliage variegated. A very vigorous grower, and good bearer.

Lisbon Thornless.—Fruit larger than Lisbon, a little coarser; tree a spreading, vigorous grower.

Messina.—A variety from Messina, and is largely exported to this State.

Sicily.—A lemon of splendid quality, almost destitute of rag, and with an abundance of richly acid juice; of medium size; thin, smooth, very tough.

Sweet Rind.—The best of all lemons, being above medium size, and very even. Sells very freely in the markets.

Villa Franca.—A summer bearing lemon; tree a strong vigorous grower, with very few thorns; pulp very rich in acid.

Limes.

(For Prices see Oranges.)

East Indian.—Fruit of large size, very juicy; tree a free grower, very prolific.

Persian.—Fruit small, very sweet and juicy; very productive.

Tahiti.—Fruit very large, with an exceedingly thin rind and few seeds; very juicy; does well in Queensland.

West Indian.—Fruit small of excellent flavour; makes the best limejuice; free bearer.

Shaddocks.

(For Prices see Oranges.)

Common.—Fruit of large size; an abundance of highly acid juice.

Manilla.—Fruit small; juice rich and sweet; the best of its class.

Citrons.

Bengal.—Fruit large, round; a grand preserving variety.

Giant.—Fruit of large size, roundish; skin rough.

Knight's—Fruit large, oblong; skin rough; the best for candied peel.

Grape Fruit.

(Edible Pomelo).

Marsh Seedless.—This fruit is becoming very popular in the States, partly on account of its medicinal properties of correcting stomach troubles. The fruit of this Pomelo is of medium size, thin rind, with about half the usual bitter; practically seedless; pulp juicy; very little rag, and of superior flavour; keeps and packs well; an acquisition in every way. Price 2/6.

Triumph.—Medium size; peel smooth, clear, thin, and fine-grained; little rag and few seeds; very heavy, being juicy and well-flavoured. There is no bitter in the juice, and but little in the rag. One of the best. Price 2/6.

For Citrus Trees worked on Seedling Oranges, we can give Special Quotation. Stocks, this year particularly fine, all being grown in virgin land.

Figs.

Price, 1/3 each; 12/- doz.; 75/- 100.

Adam.—Fruit of very large size, long; very blunt; skin pale brown; an enormous early fig.

Angelique Bordeaux.—Medium size, roundish; skin pale greenish yellow, with light-coloured dots; flesh white, good cropper.

Black Genoa.—Fruit very large, long, skin dark purple, almost black, flesh bright red.

Blue Ischia.—Fruit medium size; skin very dark purple, flesh deep red, sweet and luscious.

Blue Provence.—Fruit small, roundish; skin purple; flesh deep red, very rich and juicy. An enormous bearer.

Brown Turkey.—The very best and hardiest of figs; succeeding everywhere, and bearing two and, in favoured localities, three crops annually. Fruit large.

Brown Ischia.—Fruit large, roundish, obovate; skin chestnut coloured; flesh purple, very sweet and rich; a splendid fig.

Brunswick.—Fruit largest size, pyriform in shape; skin fine violet, brown in the sun, dotted with pale brown specks.

Castle Kennedy.—Fruit large, short, and thick; skin deep reddish brown; flesh pink, very rich and sugary; early.

De l'Archipel.—Fruit very large, pear-shaped; skin pale brown, with stripes of dark brown; flesh deep red.

Early Violet.—Fruit small, roundish; skin brownish red, covered with blue bloom; flesh red, of good flavor.

Green Ischia.—Fruit large, roundish; skin covered with a pale brown tinge in the sun; flesh purple.

Marseilles (White Genoa).—Fruit above medium size, quite round; skin pale yellowish green; a splendid fig.

White Adriatic.—Fruit of large size; skin white, thin, but tough; flesh red, very rich, turning amber color when dried.

Grape Vines.

GROWN AT OUR VINE NURSERIES, GOSFORD. CUTTINGS PROCURED ONLY FROM CLEAN AREAS.

Price, 6d. Each, 4/- per Dozen, 25/ per Hundred. Special Quotations for Large Quantities.

We can send Grape Vines to any part of the State from our Gosford. Nurseries.

Almeria or Daria.—Bunches and berries largest size, roundish; skin very tough, of beautiful light amber color. Will keep for weeks.

***Aluk.**—Rose-colored grape, firm flesh, exceedingly heavy bearer; free from disease; stands wet well.

Black Muscat.— (See Snow's Muscat Hambro.)

Black Hambro.—Bunches large; berries large, roundish; skin deep black; a very heavy and regular cropper.

Black Frontignac (Black Muscatel).—Bunch medium, berries small, thickly set, with a rich, muscat flavor.

Black Champion.— Bunch and berry large; deep shining black; ripens fairly early.

Black Prince.—Bunches long; berries largest size, oval, rather thinly set; skin thick, deep black; very rich and sugary; late.

Black St. Peter's of Black Alicante.—Bunches and berries very large, oval; skin tough; jet black, with a blue bloom.

***Black Monukka.**—One of the very few seedless grapes; bunch and berry of largest size; skin deep, shining black.

Bowood Muscat.—A seedling of Muscat of Alexandria; equally rich in Muscat flavor; a large berry, and a much better setter; ripens all March.

Black Tokay.—Very late black variety; berries large and sweet; will hang until May. 1/- each.

***Buckland's Sweetwater.**—A very early grape, of good quality; bunch and berry large, pale amber; very heavy cropper.

Baxter's Sherry, or Camden Sherry.—Largely grown in this district; hangs uninjured all March, becomming a deep golden color, with a reddish bloom. Identical with Doradillo.

Black Lady's Finger (Purple Cornichon).—Same shape and flavor as Lady's Finger, but skin a deep shining black; more hardy, and not susceptable to black spot; hangs late. 1/- each.

Champion Muscat (Synonymous Princess Alexandria).—Berry very large, round; skin tough, deep rich red; flesh very rich, with high muscat flavor.

Chasselas Duhamel.—Big, round berries, golden yellow; about a week earlier than ordinary Chasselas.

Chasselas de Jesus.—Medium sized bunches; medium berries, loose round; rather tough skin; not so early as other Chasselas.

Chasselas Rose.—A new and promising grape; berries large, of a pinkish color.

Crystal.—This is the grape so largely grown in Adelaide for market, reaching Sydney when grapes are all but over; berry large, round, pale amber.

Centennial—Berries enormous, closely set, large bunches; in color, a rich, deep amber, and with a most delicious flavor; as a market grape it is unsurpassed, its gigantic size and wonderful beauty always selling it at fabulous prices.

***Cinsaut.**—A variety which should follow Black Hamburg. Being free from disease, heavy cropper, showy bunches, is preferable to that variety.

***Citronelle.**—Handsome oval berried, light greenish-yellow grape; large bunches; late; hangs well; not subject to disease.

***Clairette Mazel.**—Delicate Muscat flavor red rose-colored grapes; medium size, small bunch; skin thin. For those who care for an exquisitely-flavored grape, none can beat this.

***Chaouch Rose**—Large, thick-set bunches of egg-shaped berries, beautifully tinted when ripe and exposed to the sun. Exquisite flavor and considered the best table grapes.

Daria.—(See Almeria.)

Doradillo.—(See Baxter's Sherry.)

Duke of Buccleugh.—Enormous size; splendid quality; will command fancy prices for its size alone.

*Early Sherry.—A profitable early white grape, largely grown for market in this district.

Emperor.—Strong, vigorous grower leaves very large, bunches large; berries dull purple, oval, and very firm.

*Ferdinand de Lesseps.—A very distinctly flavored grape; like none other that we know; a very strong grower; berries fairly large, closely set; pale yellow.

*Fewarra.—Remarkable for its tough skin will hang weeks; does well in our warmer districts; deep, shining black.

Flame Tokay.—A very late ripening variety; bunches rather loosely set, which is a decided advantage in a late grape.

*Fredericton.—A large showy bunch, heavy bearer; stands wet well; slightly subject to the black spot. An acquisition in black grapes.

Green Gascoigne.—A very hardy, free-bearing grape, but as yet little known; bunch and berries large, roundish; skin greenish yellow, very tough.

*Golden Champion.—Berries of largest size, round; skin tender, deep golden; but does not stand the wet; fairly early.

Golden Chasselas or Royal Mascadine.—Bunch and berry medium size, round; skin fairly tough; deep golden; very juicy and good; hardy; early.

Gros Colman.—Berries very large, round; skin tough, deep purplish black; fine late grape, very free bearer and bears when young.

Gros Maroc.—A large, late black grape, berries larger and better flavored than Gros Colman. Price 1/- each.

Gordo Blanco.—An improvement on Muscat of Alexandria, in that it sets the fruit much better; in flavor, size, resembles Muscat Alexandria.

*Lady Downes.—Large, roundish, oval; skin thick; reddish purple, becoming quite black; flesh firm.

Lady's Finger.—Bunches very large; berries largest size, peculiarly pointed; deep yellow, tinged with pink.

Mudgee Black Sherry.—Largely grown in Mudgee district, reaching Sydney market up to Easter, being a firm, tough berry, it will withstand moist weather.

Mrs. Pearson's Golden Queen.—Berries large, roundish, oval, deep golden color; does well in hot climate.

Muscat of Alexandria.—The standard of flavor for all White Muscats; it sets its berries rather loosely.

Muscat-Hambro (Snow's). — Bunches very large; berries very large, rather oval, sometimes almost round; skin deep purple; flesh very juicy, with a rich and distinct muscat flavor. Perhaps the best of Black Muscats. Ripens during all March. Known also as Black Muscat. Snow's Muscat and Black Muscat of Alexandria.

Madresfield Court Black Muscat.—Equally rich in muscat with the foregoing; berries very large, and thickly set; a very heavy and constant cropper; late.

Morillion.—(See Doradillo.)

Purple Cornichon.—(See Black Lady's Finger.)

Princess Alexandria.—(See Champion Muscat.)

*Panse Jaune.—A large, heavy cropper, white grape, nice color when exposed to the sun; fairly late and hangs well.

Raisin des Dames.—Synonymous with Camden Sherry.

Red Hanneport.—A valuable market variety; a copper-colered grape, with a rich strong muscat flavor; hangs until middle of March.

Rose of Pera.—A grape strongly recommended by our Agricultural Department as very suitable for our warm districts. A heavy cropper; hardy.

Red Malaga.—Identical with Black Malaga, except in color, which is coppery red.

Snow's Muscat Hambro.—(See Muscat Hambro.)

Sultana.—Bunches medium size, long; berries medium size, oval; skin pale yellow; flesh without seeds; chiefly valuable for raisin making.

Sabalskowski.—A very large grape, the berries tapering; skin a deep pinky red; a splendid looking grape; does well in hot climates. 1/- each.

*Semis De Goes.—Heavy cropper, black variety, round grape; free from all diseases; large showy bunch.

*Syrian.—A truly superb variety, some bunches having reached the enormous weight of 10lb.; berries large, oval; skin thick, becoming tawny at maturity; flesh firm and solid; will hang remarkably late.

Trentham Black (Terret).— Bunches large, tapering, and shouldering; berries above medium, oval; skin tough, jet black.

Thompson's Seedless.—This is said to be an improved Sultana, in that it is a far heavier cropper, and berries set better. 1/- each.

Wortley Hall.—Bunches large, well shouldered; berries very large, oval; skin thick, deep purple, with a heavy bloom; a most handsome grape; late.

Waltham Cross.—Bunches large, berries large, round; skin thin, but tough; clear amber; a magnificent grape; suited to the warmer districts; late.

White Hanneport.—Synonymous Gordo Blanco.

Zante Currant.—The dried currants sold in shops are made from this grape, and as the process of manufacture is simplicity itself, it is a most profitable crop to grow. The vine requires to be long pruned. Quite seedless.

Varieties marked * on resistant stocks only.

Grapes on Resistant Stocks.

GROWN AT OUR VINE NURSERIES, GOSFORD, N.S.W.

These are now an assured success in New South Wales; young vines, two years grafted, bearing 20lb. to the vine. All should give them a trial.

We beg to offer the following varieties grafted on the various Resistant Stocks, and can supply in large quantities in the leading varieties.

It is becoming recognised that, owing to the spread of Phylloxera, Commercial vineyards in the future must be planted on these Stocks. The adaptability of either Riparia or Rupestris is now definitely settled, as flourishing vineyards are now scattered throughout New South Wales, and perhaps no better object lesson could be found than the district immediately surrounding our Camden Nursery, where vineyards planted in stiff clay, in white sand, and in red sandy loam, both on the hills and on the flats, may be found. Some of these have so impressed the officers of our Agricultural Department as to induce them to take photographs for reproduction in the "Gazette."

Owing to their extraordinary vigor, we recommend planting at a greatly increased distance, which enables the cultivation to be done by horse power, and, of course, economy in working.

Price, 1/- each; 10/- per dozen (except where otherwise priced). Special quotations for large quantities.

Grapes—American Varieties.

*Bell's Seedling.—Of the Isabella type, but larger berries; skin deep, blackish purple.

*Catawba.—Bunch and berry fairly large; skin deep red, with a thin lilac bloom.

*Delaware.—Small, finest flavor, clear red; a standard of excellence for table and market.

*Diana.—

*Dr. Hindley.—An improvement on the usual type of American grapes, in that the berries are larger; a strong grower, with the usual flavor.

Isabella.—A well known variety; berries large, black; a very strong grower.

*Perkins.—Received by us from Hugh Dixon, Esq., who considers this the best American grape, with a peculiar raspberry flavor; pink.

*Pierce.—A very large berried grape, with heavy foliage; very strong aroma.

*Rebecca.—

Those marked * on resistant stocks only.

Guavas.

A most excellent fruit, either for dessert or preserving. The purple variety is thoroughly hardy, and will stand pretty severe winters.

Price, 1/6 each 15/- per dozen.

Purple.—The hardiest variety; fruit small, but borne in immense crops. Sometimes called Strawberry Guava, from its flavor resembling that of the Strawberry.

Parker's Hybrid.—An enormous fruit, twice the size of the ordinary yellow Guava. Requires a warm locality.

Yellow.—Fruit as large as a hen's egg, semi-transparent; splendid for dessert, and makes a grand jelly.

White.—Similar in growth and habit to Purple, but a pale whitish color, good size, very highly flavored.

Loquats.

A most useful fruit, coming in before any other fruit is ripe. Many worthless seedlings are grown, and the fruit is little more than seeds.

California Advance.—Fruit large, deep golden yellow, being nearly all pulp, flavor distinct and delicious. Stock limited. Price, 2/6.

Mammoth.—An extremely large variety, with very thick flesh and a single small seed. Flavor very rich and good; very juicy. Budded plants, 1/6 each.

Common.—Grown from selected seed, and with fair treatment producing enormous crops of large and very juicy fruit. A profitable shelter tree. Price 1/- each.

Early Golden.—A variety from South Australia, not quite so large as Mammoth, but much earlier. Worked plants, 1/6 each.

Herd's (Mammoth).—This variety is of enormous size, and when thinned and annually manured, is the size of a hen's egg. Our stock is from the original trees. Budded plants, 1/6 each.

We shall be pleased if our Clients will forward the names of any of their friends to whom a copy of this Catalogue may be useful.

F. FERGUSON & SON,

Postal Address: Hurstville. **Hurstville and Camden, N.S.W.**

Mulberries.

Some of the free-growing varieties are very suitable for planting for shelter for trees.

Price, 1/6 each, 15/- per dozen.

Black English.—The best variety, very long-lived, and makes a handsome tree. 2/- to 3/- each. (Very scarce.)

Cape.—A fast growing tree, useful for shelter, and the fruit useful for culinary purposes.

Downing's Ever-bearing.—Full, large, measuring 1¼in. long, juicy, with an agreeable flavor. Ripens its fruit gradually during some weeks; enormous cropper.

Hick's Fancy.—Produces its fruit continuously during three months. Fruit of large size, very juicy fine aciduloús flavor.

Multicaulis.—This variety is used for the early feeding of silk-worms. We can offer these in large quantities.

Medlars.

This delicious fruit is hardly grown in this country, and, except to persons from the other side of the world, hardly known. The fruit must be gathered as soon as ripe, and stored inside till it becomes quite soft, when it is most delicious.

Price, 1/6 each, 15/- per dozen.

Dutch.—One of the best. Fruit not large. A heavy bearer.

Nottingham.—Fruit medium size, but of fine flavor.

Monstreaux.—The largest of the medlars. Tree with a peculiar crooked growth.

Royal.—A variety highly esteemed in England for its flavor and productiveness.

Nuts of Various Sorts.

The cultivation of the different varieties of Nut-bearing trees is an industry which should have a great future in New South Wales. The importations of the various Nuts from abroad are annually enormous, the whole of which may be secured by growers of Nuts in New South Wales, as in this country, they very soon come into bearing, and are mostly long-lived and very beautiful trees.

Almonds.

WORKED ON SEEDLING PEACH STOCKS.

Price, 1/3 each, 12/- dozen; 75/- to 80/- per 100; £30 to £35 per 1000.

Brande's Jordan.—An upright-growing variety, bearing large, sweet nuts, of the paper shell class.

Burbank's Seedling.—A great bearer; recommended as one of the best for this climate, and flowers much later than other sorts.

Early Papershell.—Recommended for planting at Yanco and other irrigation areas; very productive.

Golden State.—A regular bearer; large, with a full, smoth-skinned kernel, and a soft shell.

Grosse Tendre.—Very large, thin-shelled, good grower and heavy bearer.

Hatch's Nonpareil.—A very fine almond large kernal, and very thin shell. The shell of this almond is the thinnest we know of.

I.X.L.—A sturdy, upright grower, with large foliage; nuts large, with, as a rule, single kernels; soft shell.

Large Papershell.—A variety of common Papershell, but much larger; shell very tender, kernel large, white and sweet.

Nonpareil.—Of weeping habit of growth, an extraordinarily heavy and regular cropper, with very thin shell.

Ne Plus Ultra.—Extremely prolific, producing its nuts in bunches all over the twigs; nut large and long.

Princess.—Nuts 1½ inch long, with large, richly flavoured kernels; flowering much later than the other varieties.

Riverside Peerless.—Nut somewhat resembling Brande's Jordan, but if anything a trifle larger, and is far more highly flavoured; husk soft, a valuable variety to plant alternately with Brands's Jordan for fertilsation.

Sultana.—Fruit rather smaller than Papershell, and narrower, but of superior flavour.

White Nonpariel.—The tree is a strong grower; nuts very large, with white shell;.

Pecan Nut.

Price 2/- each.

Carya Oliviferous.—A quick growing tree, being in full bearing at eight years old. Fruit 1½ inches long, borne very abundantly. Most delicious of all Walnuts.

Chestnuts.

Price 1/- to 2/- each.

Spanish.—The well-known Sweet Chestnut, bearing its fruit in burrs; a splendid shade tree, attaining a great age.

Japanese Giant Chestnut.—As its name implies, a large Chestnut from Japan. bearing fruit three times the size of the Spanish, and coming into bearing at a very early age; 2/-.

Filberts and Cob Nuts.

Price 1/6.

All the very best varieties.

Walnuts.

Chaberte.—A large variety of French origin; very productive; excellent dessert. The tree develops its leaves and blooms late in the spring. 2/6 each.

Dwarf Prolific.—This is a very fine variety, fruiting much earlier than the "Common." Per dozen, 15/-; 1/6 ea.

Juglans Regia.—The English or Persian Walnut; a most handsome shade tree, and deserves planting on that account, apart from its value as a nut producer. Price 1/- to 2/-.

Juglans Seiboldii.—A Japanese variety, very hardy, and a very handsome tree; bears while young; nuts produced in clusters. 2/- each.

Juglans Cordiformis.—Also of Japanese origin. The nut is flat, or heart-shaped. something like a chestnut; shell very thin. 2/- each.

Improved French Walnuts.

2/- each.

Mayette
Franquette
Preparturines

We can quote Walnuts in quantity at low rates.

Macadamia Ternifolia (Queensland Nut.)

A valuable tree, either for shade or for fruit. Hardy as far south as Melbourne, attaining a height of 60ft., and a fairly quick grower. Reaches the nut-bearing stage in seven years. In flavour the nut resembles the Hazel. 1/6 each (in pots).

We will supply 25 assorted SUMMER FRUIT TREES (priced at 1/3) for 25/-, 50 for 45/-, and 100 for 80/-. We will, at customer's request, select the varieties most suitable for their particular districts.

Nectarines.

This fruit, being so closely allied to the Peach, requires similar soil and treatment to that fruit.

Price 1/3 each, 12/- per dozen, 75/- to 80/- per 100. £30 to £35 per 1000; 50 at 100 rates, 500 at 1000 rates.

Albert Victor.—Large, yellowish white, with a carmine blush; a free-stone, ripening here first week in January.

Balgowan.—Large, roundish, pale green, deep red in the sun. Ripe third week in January. Freestone.

Camden Superb.—Originated from Stanwick, which it strongly resembles, but excels it in size. Freestone.

Cardinal.—Very early, brilliant colour, and ripenig ahead of Early Rivers; very prolific.

Cooza.—Goldmine for fruitgrowers. Its grand size, coupled with its splendid colour, should alone recommend it. Freestone, ripening middle of January.

Darwin.—Fair size, very brilliant red and yellow skin; flesh yellow, of delicious flavour; fairly late.

Downton.—Largest size, skin greenish white with a deep-red bloom; ripens early in February. Freestone.

Elruge.—Largest, roundish; skin greenish, dotted with red, rich, and very juicy. A freestone, ripening early in January.

Early Rivers.—Fruit large, weighing 8 oz.; skin rich crimson in the sun, light yellow, in the shade; juicy, a freestone.

Fertile du Poitou.—Enormous fruit, marbled with purple red and entirely red on the sunny side. Freestone.

Goldmine.—Size enormous; skin nearly all covered with bright, bronzy red; flesh beautiful cream colour, juicy, melting and sugary; a freestone, with a particularly small stone.

Horton's Seedling.—The largest Nectarine in cultivation. Fruit dark red in colour, a perfect freestone, ripening well into March.

Hunt's Tawny.—Skin yellowish, with a deep purple cheek; flesh orange; particularly rich and juicy; a freestone; ripening early in January.

Irrewarra.—Fruit above medium, very highly coloured, and of a splendid flavour; a freestone, ripens November.

Judd's Seedling.—Large, roundish, deep purplish red skin with rich yellow flesh; ripens in March.

Konstanze.—Dark blood red colour, flavour distinct, and very agreeable. Early.

Lusted's Xmas.—A variety ripening Christmas week. Resembles Lord Napier, and may possibly be a seedling.

Lady Carrington.—A large and very showy variety; a clingstone, ripe first and second weeks in January.

Lee's Seedling.—Fruit large, handsome, and richly flavoured; described as thouroughly hardy.

Lord Napier.—Largest size; yellowish, covered with vermilion; a freestone, ripening early in January.

Lippiatt's Prolific.—Large, highly coloured, rich, sweet, and prolific; early.

Meek's Scarlet.—Large, heavy cropper, good colour, slipstone; mid-season.

Monicourt Vinous.—Very highly flavoured, juicy and luscious; heavy and constant cropper; fruit large, good.

Mrs. Dr. Chisholm.—Valuable whether for size, colour, or season; covered with bright red. Freestone.

Napoleon.—Large, round, rather long; skin greenish, covered with stripes of dull red; a freestone, ripening February.

Newington.—A fine clingstone; largest size, skin covered with brightest red in the sun; ripens second week in January.

New Boy.—Largest size, very handsome, covered with brilliant crimson; good flavour; ripening end of February.

Oldham Hill.—Is evidently a seedling of Stanwick; resembles that variety in flavour, but is almost twice its size, and ripens later.

Oldenburg.—Large, round, dull green, with stripes of dull red; flesh greenish, juicy; a freestone, ripening second week in January.

Precoce de Croncels.—One of the earliest, fruit large, yellowish, with dark plum colour.

Stanwick.—Largest size; flesh greenish white, very juicy, with a rich high flavour; a freestone, ripening middle of February.

Sydney Market.—Large, rather pointed; skin deep purplish red; flesh white; a clingstone, ripe January.

Stanwick Seedling.—A seedling from old Stanwick, which it strongly resembles. It is, however, not so liable to crack.

Spenser.—A new variety from Rivers, of England, but which has not yet fruited with us.

Violette Hative.—Large, pale yellowish-green, covered with deep purplish red; flesh white; end of January.

Victoria (Rivers).—Very large, of good quality, and a heavy bearer.

W.C. Fripp.—Large, dark yellow, with a bronzy red cheek; flesh pale yellow; a clingstone, ripening end of February.

Wilkinson's Free.—A remarkably early nectarine, ripening in Baulkham Hills district early in December.

Wilkinson's Cling.—Raiser speaks of it as earlier than Lady Carrington; better colour and equally as heavy cropper.

Zealandia.—Very large, rich red in colour, and is classed as one of the very finest and absolutely the largest nectarine grown in N.Z.

Olives.

The following varieties are the most noted in Europe, either for their oil-producing qualities, or as being especially suitable for pickling.

Price, Grafted Plants, 2/- Each.

Boutillane.—Introduced by the Department of Agriculture for oil making. The yield being 11¼oz. to every 6lb. fruit.

Bouquettier.—Fruit medium size, an enormous bearer, and produces a great yield of oil.

Blanquette.—Chiefly valuable for its oil, but is also suitable for pickling.

Blanquette, Late.—Very similar to the preceding, but ripens much later.

Black Italian.—The best variety for pickling, on account of its large size and good flavor.

Correggiola.—Introduced by the Department of Agriculture for oil making. Yielding 14oz. to every 6lb. fruit.

Gros Redownow.—Large-fruited and very highly esteemed for pickling. It also makes a splendid oil.

Large Fruited.—Largest size, and is very similar to that sold in bottle under the name of large Spanish.

Lucca.—From this variety the famous Lucca oil is made; an enormous cropper, and gives a very high percentage of oil.

Picholine.—The very hardiest variety, doing well in any soil; fruit oblong, not large; an enormous cropper; considered one of the best for pickling.

Pigale.—Introduced by Department of Agriculture for oil making, yielding 11oz. to every 6lb. fruit.

Pleureur.—Introduced by Department of Agriculture for oil making, yielding 14oz. to every 6lb. fruit.

Salome.—A very fine variety, fruit large; very highly esteemed for pickling.

Verdale.—An oil variety, producing a large quantity of good quality oil.

We shall be only too pleased to mail Catalog to anyone interested.

Postal Address: Hurstville.

Peaches.

WORKED ON SEEDLING PEACH STOCK.

This beautiful and most profitable fruit succeeds best on a deep open loam, thoroughly drained, and with a moderately warm climate. The season of ripening is for Camden district, each variety having fruited with us.

Price 1/3 each, 12/- per dozen; 75/- 100; £30 to £35 per 1000. 50 at 100 rates, 500 at 1000 rates.

Comprising varieties ripening during November and December.

EXTRA EARLY VARIETIES.

Alexander's.—Large size; skin greenish white, purple in the sun; flesh greenish white; freestone; ripe December.

Admiral Dewey.—Early yellow fleshed freestone, coming in with Briggs' Red May; fruit of most handsome appearance; covered with purplish crimson.

Amsden's June.—Large, roundish; skin greenish, rich deep red in the sun; flesh greenish white; a freestone; ripe with Briggs'.

Bell's November.—Ripening 7th to 12th November. In appearance it resembles Briggs' Red May.

Briggs' Red May.—The standard of extra early peaches; fruit not largest, roundish; skin whitish green, bright red in the sun; flesh tender; freestone.

Champion.—Large, high flavor, and claimed to be the best shipper of early varieties; a perfect freestone.

Downing.—Large, round; pale green, almost entirely covered with purplish crimson; flesh greenish; freestone; ripens December.

Duke of York.—Large peach, of excellent flavor and said to ripen as early as the Alexander; does not cast its buds like that variety.

Duchess of Cornwall.—Ripening with Alexander, medium size, freestone, skin creamy, yellow, with red striped cheek.

Edward VII.—Another remarkable early peach, ripens early in November.

Flat China.—Fruit flat. Skin pale yellowish white, pink cheek.

Governor Rawson.—Coming on the market early in November. It is a perfect freestone, fairly large, and of a deep red color.

Governor Garland.—Fruit large; skin pale greenish white, almost covered with rosy red; flesh whitish, fairly firm.

High's Early Canada.—Ripens with Briggs', and is in every respect superior to it; fruit very large; skin yellowish white, with broken stripes and markings of crimson.

Le Vainquer.—Ripening a few days earlier than Sneed; it is of better color quite freestone, and forms a better tree.

Sneed.—Medium, creamy white, striped with carmine, flesh greenish-white; juicy, vinous, nearly freestone; very good Chinese variety; ripens about eight days before Early Alexander.

Surpasse Amsdens.—Large, roundish, deep glowing red color; a perfect freestone.

Triumph.—It bears a strong resemblance to a good specimen of Crawford, same large size, handsome appearance, and rich flavor. Added to this, it ripens within a day or two of Briggs'. We very strongly recommend this fine peach.

SECOND EARLY VARIETIES.

Aunt Becky.—Large white-fleshed freestone, ripening just after Braddock's, hence a valuable market variety. Very highly colored.

Braddock's.—Fruit large; skin brownish red nearly all over; flesh yellowish white, very juicy; its season—just succeeding Briggs'—will always get it top prices; an enormous bearer.

Camden Superb (Devlin's Red).—Earliest cling we have; a most profitable market sort; skin almost covered with deep red; ripe by Christmas.

Carman.—Ripening same time as Early Rivers, large, roundish, with pale yellow skin, red blush on sunny side; white flesh.

Duffy's Xmas Box.—Raised in N.S.W. A most valuable variety for Xmas trade; very large in size, two rows of fruit filling more than a box; handsome, showy; good flavor; freestone; can be recommended.

Early Newington.—Large, round; light yellow, covered with deep purple; clingstone, ripening end of December.

Early Rivers.—Waxen white, with a clear carmine cheek; flesh whitish; third week in December; freestone.

Hales' Early.—Medium size, roundish; skin pale yellowish white, deep red in the sun;white fleshed; freestone; ripens with Early Rivers.

La France.—Large, skin dark carmine-red; flesh white, juicy, exquisite perfume; tree vigorous and prolific; ripe at Xmas.

Lady Ingold.—Yellow-fleshed peach, ripening immediately after Hales' Early; large; skin rich yellow, crimson in the sun; a freestone.

Ruby Red.—A clingstone, ripe early in January; a heavy and constant cropper; sells very freely; good packer.

Wiggins.—A fine peach, ripening here Christmas. Always of good size, fair amount of red. Valuable for its season; freestone.

Wilkinson's Cling.—Largest size, very pleasing appearance. Heavy and constant cropper. Ripe third week in December.

MID-SEASON VARIETIES.

Amelia Berta.—Equal in size and appearance to Elberta, and ripens between Hales' Eearly and Crawford; freestone.

Camden Excellent.—Large, round; skin pale yellow in the shade, deep red in the sun; freestone, ripening end of January.

Calvert's King.—Splendid white-fleshed cling; very large; not liable to peach rot; ripening with Royal George; cling.

Christiana.—Large; skin pale yellow, with a rich red in the sun; flesh yellowish; succeeds Elberta.

Early Crawford.—Large, oblong; skin rich yellow, with a fine red cheek; flesh yellow; a freestone; ripe middle January.

Elberta.—This still remains the very best peach of its season, its great beauty and size commanding top prices; freestone; ripens January.

Foster.—Large size, skin a deep orange red; flesh yellow; freestone; resembles Early Crawford.

Gladstone.—Very large, round; skin pale, with slightly mottled cheek of thin red; flesh white; freestone.

Grand Admirable.—Large, roundish; skin a fine rich orange, with a rich red cheek; fine clingstone, ripening January.

George IV.—Large, round, pale lemon color in the shade, carmine in the sun; flesh whitish yellow; a freestone, ripe first week in January. Highly recommended.

Kia-Ora.—A seedling from Elberta, Identical in size and general appearance of the fruit; but of superior flavor.

Louis Groquet.—A variety to come in after Hale's Early; large and highly colored; flesh white, fine, suggary; freestone.

Leopold 1st.—Large, roundish; skin pale yellow, splashed with carmine; flesh pale yellow; freestone.

Mountain Rose.—Largest size; whitish yellow, almost entirely covered with clear, bright red; flesh whitish, freestone, ripens early in January. Highly recommended.

Muir.—Very best drying peach; contains much sugar and very little water; freestone; ripening about a week after Lemon Cling.

Muir's Perfection.—A splendid yellow cling, very highly colored; large and heavy cropper.

Newington (or Frazer's Newington).—Largest size, pale yellowish white, covered with deep crimson, flesh yellowish white; firm, of grand flavor. Highly recommended.

Old Mixon Free.—Splendid midseason freestone; fine flavor.

Paragon.—A seedling from Elberta, medium size; deep yellow, mottled with red; very juicy and rich; clingstone.

Phenomenal.—Large, white-fleshed freestone; skin a brilliant carmine in sun; very heavy cropper; January.

Powell's Beauty.—A splendid peach, of Elberta type. Considered an even better all-round peach than Elberta.

Riverside Red Elberta.—A sport from the well-known Elberta. Fruit is large, oblong; (far higher color than Elberta).

Royal George.—Large, round and even; pale yellowish white, almost covered with fine rich red, with a total absence of down; flesh whitish; a freestone, ripening January.

Royal George Cling.—Large, round, light yellow in the shade, almost covered with fine red in the sun; flesh whitish, firm, but melting, clingstone; ripening January; one of the best.

Robert Stewart (True).—Large, round, a little pointed; whitish yellow, with a brilliant red cheek; tender, with a rich, spicy flavor; ripe end January. Freestone.

Row's Champion Slip.—Large whit-fleshed freestone, ripening week before Elberta. Very highly colored and sure to be a market favorite. Very heavy and constant cropper. Highly recommended.

Reine des Verger's.—Medium, almost entirely covered with purplish crimson; flesh white; freestone, last of January.

Shanghai (White Shanghai).—Oblong; skin creamy white, with a light crimson cheek; a clingstone, ripening 3rd week January.

Shipper Cling.—Similar to the Crawford; it is, however, a cling. Flesh yellow, meaty; should carry well; ripe third week in January.

Stark.—A variety from America, where it is claimed to be an improved Elberta in every way.

Shanghai Seedling or Red Shanghai.—A splendid form of Shanghai, showing a beautiful red cheek; enormous bearer; vigorous grower; ripens same time as Shanghai (Sometimes called Robert Stewart, in error.)

Shanghai Freestone.—A perfect freestone, splashed and washed with brilliant bright red. A most striking variety for market and sells very freely.

Thomas Rivers.—Large round, with bright red cheek; flesh firm, juicy and of good flavor; deep color.

Thompson's Seedling.—A freestone, perfectly round; flesh white, very rich, skin nearly covered with a beautiful rose red.

UP-to-Date.—It has little or no color next to the stone, a point much sought after by canning factories.

Wotton's Shanghai.—Improvement on Red Shanghai, being larger, more highly colored, and ripens earlier than that variety. Always brings fancy prices in the markets.

LATE VARIETIES.

Comprising all those ripening late February, March and April, &c.

Baldwin's Late.—Large, skin greenish, with dull red cheek, of good flavor; a freestone; ripens March.

Bilyeus Late.—Large, roundish; skin white, with a bright red cheek; flesh white, juicy; inclined to split.

Barrington.—Large; clear white, with a rich crimson cheek; flesh yellowish white; ripens middle of February.

Black's Late.—A valuable late variety from Keri Keri; large and of most handsome appearance; flesh firm, juicy, and of delicious peach flavor; tree exceedingly prolific.

Bonanza.—Large size, round, even; skin almost white, with a fine carmine cheek; flesh white; ripens first week in March. Good.

Brandywine.—Yellow flesh freestone, ripening at least three weeks later than Crawford.

Chair's Choice.—Large, yellow-fleshed freestone; flesh deep orange. A splendid peach, ripening February.

Camden Golden.—Largest size; golden color with a bright red cheek; flesh yellow; one of the best late freestones. Similar to Salway.

California.—Enormous yellow fleshed clingstone, round; having heavy purplish cheek; flesh rich deep yellow. Splendid for bottling and canning.

Comet.—Largest size; skin covered with deep dark red; flesh deep yellow; a freestone, ripening March.

Copas Late Red.—An extra large freestone peach; color red, ripens in March; freestone; should become a great favorite.

Crimson Beauty.—A valuable freestone peach, with white flesh; bright crimson; ripens end of February. Highly recommended.

Delicious.—Yellow, with minute carmine dots; flesh yellow, stone small; a sure cropper.

Fulton.—Large, roundish; pale yellow, covered with a deep red bloom; flesh white; ripening early in March.

Globe.—Very large, quite round; a bright gold color, with a deep crimson cheek, a freestone; yellow flesh, good.

Gold Dust.—Is a large, solid, yellow-fleshed cling, of very handsome appearance; valuable for early canning.

Golden Eagle.—Is a heavy cropper; good color; yellow-fleshed. Ripe second week in February. Free-stone.

Golden Queen.—A yellow-fleshed clingstone, claimed to be one of the best canning peaches. Young trees are

very compact in growth, and are well set, with fruit buds, showing every indication of being a great cropper.

We introduced this variety two years ago, and already it has made its name in the Irrigation areas as a canner. Confused by some growers with Phillip Cling, but it is quite distinct, being N.Z. raised. Stock limited. 2/- each. Special quote per 100.

Hawkesbury Champion.—A valuable fruit for its season, ripening as it does at the end of March. Inclined to be small in dry seasons.

Henrietta (Levy's Late.)—Extremely late, yellow-fleshed cling; promising variety for canning and market; good cropper.

Kirshler Prize.—Fruit of large size, splendid appearance; somewhat in the way of a Royal George Cling. Flesh white, red at the stone; skin covered with brilliant carmine; flavor excellent; in fact one of the best we have ever sampled. Has been a regular prize-taker at the Camden, Campbelltown and Liverpool Shows for years. Ripe first week in March.

Lady Palmerston.—Medium to large, round; skin greenish yellow, with a deep red cheek; flesh pale yellow; freestone, ripening February.

Lord Palmerston (Pavie de Pompone.)—Very large, round, skin creamy white, with a rose red cheek; flesh white; a clingstone.

Late Crawford.—Above medium size, skin deep yellow, mottled with dark red; flesh pale yellow.

Lemon Cling.—Medium to large, clear lemon yellow; ripening first week in February; a good canner.

Lovell.—Largest size, round; yellow freestone, of very rich flavor; ripe during February; good cropper.

Lippiatt's Late Red.—Ripe first week in April; color creamy, mottled, striped dark red; fine flavor; tree a fine grower, and an immense bearer.

Maoriland.—Largish size and showy appearance; a perfect freestone, ripe middle March; flesh pale; meets the February-March markets.

McDevitt's Late Cling.—The finest peach of its class; size, enormous, good shape, color, rich yellow, covered with dark purple, in perfection in February.

Nicholl's Orange.—Large, round; deep orange, with a red cheek; flesh deep yellow, firm; a favorite canning peach. A clingstone; ripe February.

Osceola.—Large, yellow, with red cheek; flesh yellow; sugary and buttery; ripening February.

Phillip Cling.—An enormous, yellow-fleshed cling, coming in when practically all other clings are over, and consequently in great demand by factories.

Prince of Wales.—Large; green in shade, deep red in the sun; flesh greenish-white; a freestone, ripening first week in March.

Princess Royal.—Fruit large, round, a little pointed; creamy white in the shade, deep red in the sun; a clingstone, ripening February.

Prize.—Large yellow-fleshed, of type of Brandywine; very highly colored, and coming in first and second week in February.

Prize Taker.—Large peach of handsome appearance; splendid flavor; freestone; ripe end of February.

Picquet's Free.—Large, round, yellow, with red cheek; flesh yellow; freestone; ripens second and third week in February.

Pullar Cling.—This very fine canning peach was raised at Ardmono (Vic.); it is a very large, highly-colored clingstone, and preferred by canning factories above all others; good grower; heavy cropper and regular bearer. Highly recommended.

Red June.—Large size; skin almost covered with fine, dark red; flesh greenish white; clingstone; ripening April.

Red Italian.—Free; fruit very large, round; skin rich yellow in the shade, deep crimson in the sun; flesh deep yellow, juicy. Similar to Salway (True).

Red Italian Cling.—A variety of Old Yellow Italian, ripening with that variety, but differs from its parent in that it is rounder; its color is a deep rich red. One of the best late clings.

Ruding's Late.—White, bright red cheek; juicy and highly flavored; very productive; ripens third week in February.

Runyon's Orange.—Largest size; blackish crimson; flesh deep orange; a clingstone, ripening February.

Salway.—Medium; skin yellow, fine-red in the sun; flesh fine yellow; freestone, ripening second week in March. Simito Red Italian Free.

Shipley's Late Red.—Ripens February; a heavy and regular cropper; large, roundish; yellowish white, with a blush-red cheek; flesh whitish.

Stump the World.—Enormous size, inclining to oblong; dark red; a splendid preserving peach; a clingstone.

Sea Eagle Improved.—It is rather more highly colored than the old form, and from our experience of both, a much heavier cropper.

Sellar's Cling.—Large; golden yellow; clingstone; ripe with Late Crawford; fine appearance.

Susquehana.—Large, handsome; deep yellow, almost covered with rich red; flesh yellow; freestone; February.

Wonderful.—Largest size, rather oblong; skin golden yellow, brilliant carmine cheek; flesh yellow; freestone, ripening February.

Windeyer.—A valuable, white fleshed free, ready for market in February, when good showy white-fleshed frees are not plentiful.

Yellow Italian Cling.—Largest size; deep orange, with a rich red cheek; flesh deep yellow; ripens March, and will hang for two weeks.

Newly Raised and Recently Introduced.

Blackburn Elberta.—Raised in Wagga, N.S.W., and is a decided improvement on any of the Elberta types of peach. Has magnificent color long before it is soft, and consequently meets a very ready market. Is being largely planted in the Irrigation districts. Can be recommended as the "best Elberta so far." 2/- ea.

Golden King.—Raised at Kogarah, New South Wales. Is a very highly colored yellow fleshed cling, ripening about same time as "California," but is a far heavier cropper than that variety. Will be valuable as an early canner. 2/- ea.

Mayflower.—Imported from France; very early variety, ripening four or five days before Sneed, and ten to twelve days before Amsden; fruit large, of a superb carmine-red color all over, of excellent quality; clingstone. On account of the great earliness and bright color, it should be largely planted. Small trees, 5/- ea.

Red Bird Cling.—Earliness, glorious color, and splendid quality make it the greatest of the very early peaches. Creamy white, overspread with bright glowing red; large size, of exquisite beauty and excellent quality; flesh firm like Heath Cling, far excelling Alexander and other early sorts; tree hardy. The first extra-early good shipping peach. Small trees, 5/- ea.

Stark Early Elberta.—This peach comes from America with a great name and pages of description. It is said to be larger, better quality and color, finer flesh, smaller stone, and from ten to twenty days earlier than Elberta; besides this, much hardier. No other peach approaches it in color and quality. Small trees, 5/- ea.

Wallis Heath Free.—Immense size; quality best; flesh cream yellow, with a touch of pink. St. Louis markets pay an extra price for it. Henry Wallis, the originator, one of the most practical experimenters in the country, says: "My best late peach; its fine quality, hardiness, vigour, and great productiveness will always maks it a favorite." Small trees, 5/- ea.

Pears.

The demand for pears is a growing one, and, although longer in coming into bearing than most trees, the high prices which are always obtained for good samples and the great age to which the trees attain, combine to make them the most profitable crop grown. A deep, rich soil, or a well-worked clay, is essential for the finest fruit, and some shelter from prevailing winds, otherwise the pear needs less attention than most fruits. Worked on Seedling Pears.

Price, 1/3 each, 12/- dozen; 75/- 100; £30 to £35 per 1000. 50 at 100 rates; 500 at 1000 rates.

EARLY VARIETIES.

Beurre d'Amanlis.—Fruit large, yellowish green, with a pale brown red cheek; flesh yellowish, ripe end of January. Blooms 17th September and lasts 11 days.

Bartlett.—(See W.B. Chretien.)

Citron des Carmes (Madeline).—Medium, yellowish green; flesh white, with a delicate perfumed flavor. The earliest.

Clapp's Favorite.—Large, strongly resembling Bartlett in shape; very hand-

some early pear. Blooms 23rd September and lasts 7 days.

Doyenne d'Eete.—Small, yellow, shaded with bright red; flesh white, melting, juicy; an early bearer, ripening middle of December.

Jargonelle (English).—Large, greenish yellow-brown in the sun; flesh yellowish white; tree a pendulous grower, is not liable to decay.

Lawson (Comet).—Fruit largest; bright yellow; flesh juicy and rich.

Rousselet Stuttgart.—Small to medium; yellow with bright red cheek, very juicy and sugary.

Red October.—A variety of "Beurre de Capiaumont"; bright brown, tinged with orange red; an abundant bearer.

Williams' Bon Chretien (Bartlett.)—This pear is too well-known to need any description, and is being largely planted for canning, marketing in a green state, and home use. The most popular pear we have. Blooms 19th September and lasts 11 days.

Windsor.—Large; skin lemon yellow, with a tinge of red; flesh yellowish white, rather coarse; ripe at Christmas.

Wilder.—Medium size; pale yellow, with a brown red cheek; vigorous grower. One of the best earlies.

MIDSEASON VARITIES.

Baron de Mello.—Medium size; skin dark brown russet; flesh greenish yellow; melting and buttery, with a fine aroma. Is fruiting at Bathurst Experimental Farm, and promises to be a valuable market sort. 2/- each.

Beurre Fongueray.—Large, best quality heavy cropper. First-class certificate from Royal Horticultural Society.

Beurre Bosc.—Large, dark yellow, covered with streaks of cinnamon russet; flesh white. Blooms 1st October, and lasts nine days.

Beurre Diel.—Large; lemon yellow, with marblings of russet; flesh yellowish white; regular cropper.

Beurre de Capiamont.—Medium size; clear yellow, with a light cinnamon-red cheek; ripe early autumn. Blooms 22nd September and lasts nine days.

Beurre Hardy.—Large; greenish, covered with light russet; a fine free-growing, productive pear; ripening all autumn.

Beurre Baltet Pere.—Received by us from Belgium. It comes with the very highest recommendations as a mid-season, medium-sized dessert pear.

Beurre Golden.—Mid-season variety, doing well on the coastal lands of this State; very highly colored and good flavor.

Beurre Superfine.—Large and delicious; one of the best for dessert; prolific bearer. Blooms 19th September and lasts seven days.

Brockworth Park.—Large; pale yellow flushed with red; flesh white, buttery.

China (Sand) Pear.—Large; clear lemon yellow, with a little red in the sun; vigorous healthy grower; early bearer. Cooking.

Compte De Lamy.—Medium, clear yellow, with a brownish red cheek; very good, ripening end March.

Directeur Hardy.—This is one of the handsomest pears known; a great and early cropper and of excellent quality; medium.

Doyenne Du Comice.—Large, rich; skin clear yellow, covered with a deep rich red. Blooms 22nd September and lasts nine days.

Doyenne Boussock.—Large, handsome and melting; highly recommended. Blooms 19th September and lasts 11 days.

Fertility.—Large fruit, of brilliant color and high flavor; the tree is a vigorous and healthy grower, and most valuable for market. Blooms 24th September and lasts nine days.

Flemish Beauty.—Large; pale yellow, covered with reddish brown; flesh yellowish, juicy. Blooms 18th September and lasts 11 days.

Garber's Hybrid.—Fruit large, very smooth, golden yellow. A heavy cropper, and fruit ripens earlier than Kiffer's.

Gregoire Bordillion.—Large, resembling Duchess d'Augouleme; first quality, hard, and prolific. Blooms 1st October and lasts nine days.

Howell.—Large, light waxen yellow; heavy bearer, following "Williams' Bon Chretien," a first-class market pear, and should be largely grown. Blooms 10th September and lasts 9 days.

Kieffer Hybrid.—Fruit medium size, roundish, oval; skin yellow, orange in the sun; an enormous and early bearer, ripens April. Blooms 8th September and lasts eight days.

Idaho.—Large and handsome; skin golden yellow, strewed with russety spots; Blooms 16th September and lasts 10 days.

Le Lectier.—Large size; true pyriform; skin grass-green, mottled with dark green; very juicy; ripens April.

Le Conte.—Fairly large size; skin very smooth and clean, of a clear lemon yellow. Blooms 8th September and lasts eight days.

Laffer's Bergamot.—It is a first-class Bergamot, medium to large size; good flavor; ripe March.

Louise Bonne of Jersey.—Large; glossy pale-green, covered with brown red; excellent flavor; ripens end March. Blooms 19th September and lasts 9 days.

Marguerite Marillat.—Fruit large, showy, with sugary, aromatic, luscious flavor; ripens in February.

Magnate.—Large; rich yellow in the shade, bright crimson in the sun; flesh yellow.

Madame Henri Desportes.—Fruit roundish, yellowish, with thick coat of cinnamon russet; flesh yellow, buttery, rich and sugary. Another variety recently selected from the fine collection of pears growing at Experiment Orchards, Bathurst, N.S.W. 2/- each.

Marie Louise.—Medium; deep yellow, sprinkled with russet; flesh white; one of the finest. Blooms 29th September and lasts six days.

Madame Treyve.—Medium; pale yellow, with a red cheek; flesh tender; ripens in March.

Orange Bergamot.—Largely sold in Sydney, and which comes from Tasmania, where it is considered their best autumn pear; very handsome.

Packham's Triumph.—A greatly improved W. B. Chretien, coming in after that variety is over. Has proved successful for shipping to England. Fruit similar to W.B.C., more even in outline, and superior in flavor; is being very largely planted, and cannot be too highly recommended either commercially or for private use. Blooms 19th September and lasts nine days. Highly recommended.

Poire Du Berriays.—Medium; golden yellow, flesh melting and juicy; good market variety.

Pitmaston Duchess.—Large; yellow, with light russet; flesh yellowish white, buttery and juicy; ripens late autumn.

Seckle.—Small yellowish green, with russet-red cheek; flesh whitish, very buttery; considered in America the richest.

Triomphe De Vienne.—Large; skin russety; good flavor; free bearer.

Victor Hugo.—Large, showy; flesh tender; richly flavored; tree remarkable for its robust, hardy growth.

White Doyenne.—Large; smooth; sometimes a fine red cheek; flesh white, melting, rich and delicious. Blooms 19th September and lasts seven days.

WINTER VARIETIES.

Bailey's Bergamot.—Medium size, in shape like Gansell's, but a month later and more certain cropper. Blooms 22nd September and lasts eight days.

Bergamot Esperance.—Large; yellow, with rich crimson; flesh firm; a noble pear. Blooms 10th September and lasts nine days.

Bergamot (Gansell's).—Large; yellowish brown, much covered with russet; flesh granular, white; rich, aromatic juice. Blooms 18th September and lasts eight days.

Belle Guerandaise.—Large, attaining one foot in circumference; flesh fine, juicy, melting; of very good flavor. In season April to May.

Beurre Picquet.—Medium size, of peculiar yet exquisite flavor; tree vigorous and prolific.

Broompark.—Medium size, roundish; skin yellow, with a brown red in the sun; rich and vinous; ripens April to May.

Beurre Clairgeau.—Fruit largest; skin warm yellow, shaded with orange and crimson; flesh yellowish, with vinous flavor; ripens March to June. Blooms 14th September and lasts 10 days.

Beurre Easter.—Very large, greenish yellow, with sometimes a brownish red cheek; one of the very best late pears. Blooms 17th September and lasts 13 days.

Bountiful.—Largest size, immense cropper; tree vigorous and thrifty; fine flavor, melting, rich and aromatic.

Beurre d'Anjou.—Large, melting and juicy. One of our best export varieties. Blooms 10th September and lasts 12 days.

Catillac.—Very large; yellow, with a brownish red cheek; flesh firm and only fit for cooking; sometimes called Flat Baking.

Chaumontel.—Large; yellowish in the shade; rich deep red in the sun; melting. Blooms 8th September and lasts 10 days.

Conference.—Large; skin very smooth and shining; very juicy and melting. Blooms 19th September and lasts 11 days.

Durandeau.—Medium; dull green, with a slight brown-red cheek; very rich; ripens early winter.

Elizabeth Cole.—Above medium; green, partly covered with yellow; with a rich and honeyed sweetness; ripens about April. Blooms 18th September and lasts eight days.

Fame.—A constant cropper; largest size, fine russety brown; when stored is very juicy.

Forelle or Trout Pear.—Medium sized, speckled, melting and good; blooms 10th September, and lasts 11 days.

Glou Morceau.—Large obovate; skin yellow; flesh buttery, melting, and very juicy, of best dessert quality.

Josephine des Malines.—Medium size, roundish; pale greenish yellow, russet; with a delicate aroma; perfection in July. Blooms 18th September and lasts nine days.

Knight's Monarch.—Medium, roundish; yellowish green, with brown specks; flesh yellowish. Blooms 18th Sept., and lasts 11 days.

l'Inconnue.—Medium; light yellow, netted with russet. A fine, very late pear, ripening end of July. Blooms 23rd September, and lasts 7 days.

Mount Vernon.—Large, nearly globular; rich, russet; flesh juicy; vigorous grower, and comes into bearing early; late.

Madame Cole.—Medium; yellow, almost covered with brown russet; a dessert pear of the highest excellence. Blooms 26th September, and lasts 10 days.

Packham's Late.—Fairly large; heavy cropper, and promises to rival Triumph. Blooms 21st September and last nine days.

P. Barry.—Large, elongated; deep yellow; flesh whitish, fine melting; ripens middle of June.

Princess—A seedling from Louise Bonne of Jersey; the flesh is melting, with a rich, refreshing flavor; late.

Roosevelt.—Tree of erect growth, very free bearer, one of the largest fruits, measuring sometimes 16 inches in circumference. Skin smooth, yellow ground, tinted with salmon-pink, and covered with large vermillion spots on the sunny side; flesh snow-white, very fine, melting, juicy and sugary; medium. 2/- each.

Sheldon.—Medium to large; yellow and red; very excellent. From Wayne County, N.Y. Tree a fine grower and productive. 2/-.

Uvedales St. Germains (Large Baking).—An enormous pear, sometimes weighing three pounds. Valuable for its cooking qualities. Will keep all winter.

Vermont Beauty.—Medium size, roundish; skin yellow, almost covered with carmine; altogether a most handsome and delicious pear.

Vicar of Winkfield (Napoleon).—Large, long, pyriform; pale yellow; flesh greenish white, juicy. Blooms 21st September, and lasts nine days.

Winter Cole.—Medium size, almost round; skin pale yellow, with a little russet; flesh yellowish; one of the finest and richest pears. Blooms 21st September and lasts nine days.

Winter Bartlett (True).—All know the famed "Williams" pear, and in the above we have a duplicate of the old favorite, but ripening at least three months later. Blooms 19th September, and lasts 11 days.

Winter Nelis.—Medium size; skin yellowish green, covered with russet; in perfection in May. Blooms 19th September, and lasts 10 days.

We will supply 25 assorted SUMMER FRUIT TREES (priced at 1/3) for 25/-, 50 for 45/-, and 100 for 80/-. We will, at customer's request, select the Varieties must suitable for their particular districts.

F. FERGUSON & SON,

Postal Address: Hurstville. **Hurstville and Camden, N.S.W.**

Newly Introduced Pears.

Corona.—A S.A. raised variety. Is a seedling from Williams' bon Chretien, but a much better keeper. Very highly colored, being a brilliant red, nearly all over. 1/6 each.

La Conte.—Large size; skin reddish brown; flavor excellent and of a very fine texture; tree hardy, vigorous and a very heavy cropper. Sure to become popular, and we predict a big fortune in it for export. 1/6 each.

The blossoming dates, etc., quoted above, have been kindly furnished us by the Department of Agriculture, from records taken at Bathurst Experimental Orchards, Bathurst, and will, we feel sure, be invaluable to planters interested in interpollination.

Persimmons.

Our own raising, as we have discarded the importations from Japan for several years. Our plants will move as well as any ordinary fruit trees. In fact, our soil seems admirably adapted to produce fine fibrous roots in the Persimmon.

Price, 1/3 Each, 12/6 per Dozen, 90/- per 100.

Among.—Medium size, roundish; skin light orange; flesh brownish; an early variety; edible from the tree.

Dai Dai Maru (Hot Cross Bun).—Largest size, square, or four-sided, rather flattened, skin deep orange; flesh yellow, almost seedless; a fine variety, fairly early.

Haychi Ya.—Large, oblong; pointed; skin light red, russett at the point, and turning black towards the tip.

Hayakume.—Large, round, covered at the end with heavy russety; skin vermillion, flesh brown, rich and luscious.

Jubilee.—In shape, rather flattened or square. Very large, and needs ripening inside.

Kurokumo.—Medium size, almost round; skin yellowish red; flesh orange, with very few seeds.

Okame.—A favorite square shape; very large, rather flattened; skin reddish orange, and almost seedless.

Tanenashi.—Seedless variety, and is largely grown for market, under that name; fruit of the largest, conical; skin bright yellow, flesh yellow; when thoroughly ripe and soft is a very fine variety.

Yeddo Ichii.—Medium, round, rather pointed; skin light yellow, russety; flesh amber, with rather many seeds. A late variety, and perhaps the best, if allowed to become soft.

Yemon.—Fruit large, rounded, rather flattened; skin clear deep yellow, with little russet; flesh orange.

Zenji-Maru.—Small, round; deep orange, black at the end; flesh brownish, with a good few seeds.

Plums.

Worked on Seedling Myrobolan and Marianna Stocks; also some varieties on Seedling Peach Stocks.

Price, 1/3 Each, 12/- Dozen; 75/- to 80/- 100; £30 to £35 per 1000.

EARLY MIDSEASON VARIETIES.

Angelina Burdett.—Above medium, round, dark purple; flesh yellowish, very juicy and rich; a freestone; enormous cropper.

Blue Rock.—Large and very rich; one of the very best dessert plums.

Belgian Purple.—Large, roundish, oval; brownish purple; flesh greenish, juicy rich and sugary. A clingstone.

Black Cluster.—Fruit medium size, roundish; black; flesh greenish, juicy and sugary.

Cherry, or Early South American.—Small, round; fine lively red; flesh greenish yellow, very juicy.

Columbia.—Largest size, brownish purple; flesh orange, very rich, sugary and excellent.

Clyman.—Large size, round; dark purple; flesh yellowish, firm; requires to be thinned.

Diamond.—Large, oval; black, covered with a blue bloom; flesh deep yellow; a splendid preserving variety, ripening mid-season.

Diapre Rouge.—Large, round; skin pale red, with a lilac bloom; a very heavy and constant cropper, ripening with Diamond.

Early Orleans.—Medium size, oval; skin dark red, purple in the sun; flesh yellowish green; a freestone.

Evan's Early.—Fruit medium size, roundish, oval; skin deep purple; an enormous cropper.

Green Gage.—The highest flavored and most delicious of all desert plums; fruit of medium size, round; skin yellowish green; flesh pale green, very juicy and melting.

Jodoigne Gage.—A red gage, imported from Rivers, and like all fruits from this source, of first-rate quality; ripens after Green Gage.

Lincoln.—Large; deep reddish; purple; a heavy annual cropper.

October Green Gage.—Improvement on the old Green Gage, being equally highly flavored and luscious, at least twice its size, and earlier.

Oullin's Golden Gage.—Large, roundish; rich yellow; juicy and sugary. Most productive; a clingstone.

Prince Englebert.—Large; deep purple; flesh yellowish; a freestone.

Precious.—Sported from Cherry Plum; fruit is very much larger, and better in every respect.

Princess Alexandria.—Largest size, splendid flavor; skin deep glowing red; heavy and constant cropper.

Rivers' Early Prolific.—Medium size, roundish oval; skin reddish purple; flesh yellowish, rich.

The Czar.—Fruit large, oval; skin quite black; flesh yellow, tender and of excellent flavor; bears fruit in clusters.

Washington.—Largest size, roundish oval; skin dull yellow, with a pale crimson blush; flesh yellow, firm, very sweet and delicious; a freestone.

Yellow Diamond (English).—A sport of the "Diamond" Plum; instead of dark purple, it is of a clear yellow color.

LATE VARIETIES.

Admiral.—Resembles "Monarch," somewhat later; bears profusely; a most valuable late kitchen and market plum.

American Damson or Frost Plum.—Medium oval; deep purple, flesh greenish yellow, juicy; a clingstone.

Bryanstone Gage.—Pale yellow; very juicy and rich. Highly recommended.

Bradshaw.—Large, oval; reddish purple; flesh yellowish, but juicy, rich and pleasant.

Coe's Golden Drop.—Very large size, oval; light yellow, with a few dark spots; flesh firm, juicy, rich.

Coe's Late Red.—Medium size, nearly round; skin light purplish red; flesh yellowish, rather firm.

Denbeigh.—Large, roundish, oval; skin clear, shining red; firm, rich; a most handsome plum.

Denyer's Victoria.—Large, roundish oval, skin light yellow, with lilac shadings; a freestone.

Duane's Purple.—Large, roundish, oval; skin reddish purple in the sun; flesh rich amber.

Golden Transparent.—Large, bright golden when ripe; a most delicious late plum.

Grand Duke.—One of the very finest late plums; fruit large, almost oval; skin purplish black; flesh deep yellow, firm.

Imperial de Milan.—Large, roundish; deep purple; flesh greenish.

Imperial Green Gage.—Improvement on old Green Gage in size, and quite equal in flavor; fruits well in the warm Camden district.

Jefferson.—Largest size, oval; skin golden yellow, with a purplish red cheek; very rich and luscious.

King Damsons.—Largest size, exceptional quality and striking appearance; tree very productive.

Late Black Orleans.—Medium size, skin deep black; a thick blue bloom; flesh deep yellow, juicy; a clingstone.

Late Orange.—Skin bright orange, covered with a heavy bloom; very rich flavor; good cropper; tree vigorous.

Late Transparent.—(See Golden Transparent.)

Loutherboro.—Medium, roundish oval; skin almost black; flesh yellowish firm; enormous cropper; best jan plum extant.

Magnum Bonum (Red).—Large, oval; deep red; flesh greenish.

Magnum Bonum (White Egg).—Very large frequently six inches in circumference; oval; skin a deep golden; flesh yellow; a clingstone.

Monarch.—Very large, roundish, oval; skin dark purplish blue. Will hang for weeks.

Pond's Seedling.—Very large, oval; skin yellowish, nearly covered with carmine; juicy and sugary; a beautiful plum.

Purple Gage.—Medium, roundish; skin violet, dotted with pale yellow; very highly flavored.

President.—We consider this the best acquisition to this class of fruit. Large oblong shaped, over two inches long, beautiful purple; flesh firm and sweet; perfect freestone.

Reine Claude Tardive de Chambourcy.—Size and aspect of Green Gage; free; very vigorous and prolific.

Reine Claude de Bavay.—Large, roundish; skin greenish yellow; flesh yellow, with a sugary, rich flavor,

Shropshire Damson.—The well-known English Damson; an enormous cropper; the fruit and juice when cooked are of a rich purple.

Sultan.—Medium, round; skin dark purplish red, dotted with brown specks; flesh greenish.

Takapuna Drop.—A sport from Coe's Golden Drop; yellow, marked with purple; a large dessert plum; good cropper.

Trewinnick's Damson.—Best of the Damsons, bearing more fruit than leaves; fruit large for a Damson; purple.

Prunes.

Worked on Myrobolan Stocks; also on Narianna Stocks.
Prices, 1/3 Each, 12/- Dozen, 75/- to 80/- 100; £30 to £35 per 1000.

This fruit presents great possibilities in Australia, as the value of Prunes annually, is enormous. The process of manufacture is very simple, very little plant being required; in fact, in California, they are simply sun-dried, and in that form, realise a higher price than those dried in evaporators.

Our list comprises all the newest, as well as the best of all the old varieties, and, as we anticipate Prune-drying is likely to enormously develop, we are raising them by thousands.

Bulgarian.—Largest size, roundish oblong; skin deep purple, with a thick, heavy blue bloom.

Fellemberg or Italian Prune.—Medium to large, long, oval; skin dark purple; flesh rich yellow; dries with little loss of weight.

Golden Prune.—Large, roundish oval; skin thin, tough, of a beautiful golden color; dries beautifully, 24 dried prunes weighing sixteen ounces; a perfect freestone.

Giant.—Very largest size, deep purple; a heavy cropper; makes a splendid market fruit from its size and appearance.

Hungarian or Pond's Seedling.—Largest size, oval; skin yellowish, nearly covered with bright red or carmine.

Oregon Silver.—Seedling of Golden Drop, same shape, same huge size, but will bear heavily in warm districts.

Pacific.—The noblest of the plum family, larger than Diamond; of a deep maroon color.

Prune d'Agen (French Prune).—This is the prune almost exclusively used in France for drying. Although small as compared with some of the new varieties, it is of such high sugar contents, that for commercial purposes, it is unrivalled. Fruit medium size, oval, with a neck; skin violet purple, with a thick bloom; flesh greenish yellow. This is the true French Prune of commerce.

Pearl.—A seedling of d'Agen; white, semi-transparent, with a heavy bloom; makes a splendid prune.

Robe De Sergant.—Similar to d'Agen in shape and color, but larger; and what makes it valuable is that it ripens ten days before that variety.

Sugar.—Even in size, large, averaging 13 or 15 to the pound; very rich in sugar.

Splendor.—Unlike d'Agen, Splendor is a perfect freestone; like it, it is productive to a fault; ripens ten days before d'Agen.

Tragedy.—Large, oblong, pointed; skin thick; deep purple; flesh yellow, rich in sugar, with a rich vinous juice; a freestone.

Tennent.—Large, dark purple; parts freely from the stone; exceedingly rich; dries well.

Japanese Plums.

Prices, 1/3 each, 12/- Dozen, 75/- to 80/- 100; £30 to £35 per 1000.

Owing to their adaptability to nearly all situations, their great beauty and enormous bearing qualities, Japanese Plums are now very largely planted.

Worked on Plum and Peach Stocks.

Ada Crossley.—It is not so early as Ranfurly, but is a wonderful cropper, and when gathered ripe, has a fine flavor and very luscious.

Admiral Togo.—Round and handsome, skin bright crimson; flesh solid, yellow, rich and juicy; ripens early.

Abundance (Botan).—Fair to large; brilliant carmine; juicy, of fair flavor; ripe ten days before Burbank; clingstone.

Alpha.—Ripens twelve days in advance of cherry plum. Fruit at least twice the size of cherry plum; deep, dark red.

Apple.—Large size and striking appearance; fruit ripens soon after Burbank.

Akarana.—Resembles Botan; a vigorous grower, having luxuriant foliage.

Balleana.—Large early plum, averaging 6 by 9 inches; light yellow, covered with crimson; flesh firm, pale yellow, with a delicious Williams' Pear flavor; strong upright grower; freestone.

Bartlett.—Fruit medium size; skin mottled with red on a red ground; flesh yellow, with a rich, piquant flavor; tree a very handsome, sturdy grower.

Burbank.—Largest size, round; cherry red in the sun, with a hazy lilac bloom; flesh deep orange; clingstone.

Climax.—Large; heart shaped, and highly colored; delicious flavor; ripens very early; tree vigorous, upright growth.

Combination.—Fruit large, globular, very uniform in size, straw color.

Chalco.—Large, like a tomato, deep reddish purple, with very sweet, fragrant yellow flesh.

Chabot.—Large, heart shaped; bright red, with a rich purple bloom; flesh yellow; ripe end January.

Cyca Smomo.—The upright blood plum, ripens earlier than Satsuma.

Delaware.—A blood plum of drooping habit; fruit large, very rich and juicy; ripens after Satsuma.

Doris.—Fair size; bright red, juicy but firm; recommended for the early markets.

First.—Large for an early plum; pale amber, faint bluish on sunny side, half transparent.

Formosa.—Rich yellow till nearly ripe, when it turns a clear rich red; fruit of large size, unusually firm; apricot flavor; tree a vigorous grower; an abundant and uniform cropper.

Gaviota.—Cherry red; flavor excellent; fruit of large size, and an abundant and regular cropper; tree a late bloomer; a splendid shipping plum.

Gold.—A marvel of beauty, the golden globes being borne all along the limbs, singly; in color clear, deep golden; small.

Gonzales.—Bright red, showy and handsome; flesh firm, sweet and sprightly.

Hale.—A clear golden color; ripe after "Burbank;" fruit rich and juicy; a very heavy cropper.

Hermisillo.—Medium size, early; splendid flavor and appearance.

Hattankin.—Large, round; skin bright, clear yellow, no red; flesh pale yellow, firm; a clingstone; ripe end December.

Kelsey.—Very large, heart shaped; clear yellow, covered with red, in the sun; a partial clingstone; late.

Large Red.—Oval; skin brilliant red; flesh yellowish, juicy, of fair flavor.

Lord Ranfurly.—Like Burbank in growth of tree and appearance of fruit, but ripens quite a month before that variety.

Maynard.—Oval, large; color deep, clear purplish crimson, thin blue bloom.

Mikado.—Showy, medium size; skin brilliant carmine, flesh thick yellow; good flavor.

Moyola.—Identical with Chabot.

Ogon.—(See Hattankin.)

October Purple.—Fruit large, quite round; deep purple, almost black; flesh yellow, with distinct flavor.

Orient.—Largest size; skin clear, glowing red, somewhat similar in color to Red June.

Ogden.—Large, round; flesh firm, light golden color; very productive.

Okti Smomo.—Large, long in shape; skin deep, dark red, equal in appearance to "Burbank;" good.

Plumcot.—A cross between a Blood Plum and an Apricot; fruit of largest size; tree a vigorous grower.

Prunus Pessardii.—The leaves of a red, bronze color; the young wood purple; fruit small, red from the time the blossoms fall.

Prunus Simonii.—Large, flat; skin deep crimson; flesh yellow, firm, with a delicious flavor and aroma.

Purple Monster.—From our experience, we consider this identical with "Kelsey."

Rubio.—Flesh, deep crimson, being one of the best bloods; skin clear yellow, covered with bright crimson; splendid as an early shipper; vigorous and bountiful cropper.

Red June.—Medium, round; skin brilliant red all over; ripens here second week December.

Shipper.—Flesh wine-colored; skin blackish purple; will hang for weeks uninjured; a good cropper.

Sultan.—Huge size, oval; deep purplish crimson; flesh firm, dark crimson; very productive.

Shiro.—Medium; clear, light yellow, with thin white bloom; clingstone; early; most profitable market sort; possibly the best early market variety.

Satsuma (Blood).—Medium, round; skin deep purplish red; flesh dark red; of a pendulous habit; late. Highty recommended.

Superbe.—Immense size; delicious flavor; color yellow; round; partaking of its parent Simonii.

Santa Rosa.—Fruit of a deep purplish crimson, averaging 6 inches in circumference each way; skin clear golden, covered with purple; flesh firm and of excellent flavor; a distinct Blood; good grower and heavy bearer. Highly recommended.

Tunks' Seedling.—Large, conical; purple, mottled; ripens with Burbank; heavy cropper.

Vesuvious.—The best ornamental foliaged plum extant, leaves being very large and of a beautiful glowing crimson.

Wickson.—Now so well and favorably known as to hardly need description; an enormous bearer; does well everywhere; sells as well green as ripe.

Wright's Early.—Similar to "Burbank," but four weeks earlier; a heavy and constant cropper.

Quinces.

Undoubtedly the most hardy of all fruit trees, enduring the extremes of drought and flood, and still bearing heavy crops annually. If fairly treated, cut back every year, and the fruit thinned, will produce enormous crops of large, showy, marketable fruit.

Price, 1/3 Each, 12/- Dozen, 75/- to 80/- 100; £30 to £35 per 1000.

Apple-shaped.—Large, roundish, like an apple. For stewing, it is unrivalled, becoming quite tender.

Bourgeat.—Large, rich golden yellow; smooth, velvety skin; beautiful large foliage; quite distinct.

Champion.—Fruit very large and handsome; flesh tender, with a very delicate flavor; a splendid keeper, and carries well.

De Vranja.—Introduction from Servia, recommended for its prolific qualities; fruit enormous, weighing nearly 3lb.; very agreeable flavor.

Giant of Lescovaz.—Imported from France, the fruits often attaining up to 3½lb.; flesh white; tree very prolific.

Large Orange.—Somewhat resembles an orange; tree a strong vigorous grower, and immensely productive.

Master's Early.—A large variety, resembling Champion in appearance, but much earlier; tree a regular and constant bearer.

Meech's Prolific.—Large, of a lovely orange; tree a strong, vigorous grower, and immensely productive.

Missouri Mammoth.—Enormous size, very even outline, mild, pleasant flavor, most popular market variety.

Pineapple.—Raised by Luther Burbank, and described by him as a long effort to secure a quince that would cook like an apple.

Pear-shaped.—Medium size, oblong; skin pale yellow; flesh very firm; longest keeper of any of the quinces.

Portugal.—Largest size, oblong; skin paler yellow than any other; tree a particularly strong grower.

Rea's Mammoth.—Of similar appearance to the Orange Quince, but averaging one-third larger; fruit round; early bearer.

Van Deman.—We have this variety fruiting, and can recommend it; as good as Portugal; a heavy cropper.

Zucker (Sugar).—Fruit very sweet; excellent when preserved; the sweetest of all quinces.

Rhubarb.

Propagated from divisions and not from Seed. The latter would be inclined to sport.

Eearly Albert (Imported).—A very fine variety, valuable on account of its extreme earliness; bright, lively red; cooks without any fibre. Price 1/- each, 9/- doz.

Giant.—The well-known, old favorite variety, stem of large size; very hardy and prolific. Seedlings, 4/- to 6/- per doz.

Hogan's Shillelah.—Stems of immense size, very thick; a very hardy and free-growing rhubarb. Price, 1/- ea., 9/- doz.

Improved Topp's Winter.—Similar to its parent, but of much better habit of growth; stalks are longer, and better color. Price 1/- each, 9/- dozen.

Johnstone's St. Martin's.—Immense size; high flavor, and great hardiness. Price, 1/-.

Myatt's Linnaeus (Imported).—Wonderfully prolific; one of the largest and best in cultivation. Price 1/- each, 9/- dozen.

Myatt's Victoria (Imported).—The hardiest for warm districts; stems very large; of excellent flavor and color. Price, 1/- each, 9/- dozen.

Topp's Winter.—In use during the months from May to August; stalks long, rather slender, borne in the greatest profusion; in color, a vivid red; flesh very tender, stewing to a pulp, without a sign of fibre. Price, 1/- each, 9/- dozen.

Webb's Buninyong.—Large, extra length, of splendid quality; very hardy and prolific; a first-rate variety for market purposes. Price, 1/- each, 9/- dozen.

Small Fruits or Berry Fruits.

Gooseberries, Currants, Raspberries, etc.

Blackberries.

Price, 1/- Each.

English.—Medium size, black; one of the best flavored.

Golden Mayberry.—Golden straw color, and ripen here in November; the bushes are distinct from all others, growing like trees, 6 to 8ft; covered golden, semi-translucent berries. Price, 1/-.

Japanese Wineberry.—Similar to raspberry in shape; color bright, glossy scarlet; strong grower and quite an ornamental shrub.

Lawton.—Medium size, black; early; habit upright.

Lucretia Dewberry.—Large, handsome, of a shining jet black; melting, and of delicious quality. The plant is healthy and hardy everywhere, and exceedingly productive. Price, 9d. each; 6/- per dozen.

Mammoth.—This is, without doubt, the very best thing in the way of Blackberries; ripens October, November, and right on to March, in clusters of magnificent dark-red berries, of most luscious flavor; does not sucker, a fault with so many of this family. Price, 1/-.

The Logan Berry.—Fruit is sometimes an inch and a quarter long, the shape of a blackberry, the color of a dark-red raspberry, and a combination of the flavors of both. The stems are strong, free from thorns, but covered with fine spines, have a trailing habit, and the fruit is furnished in great profusion in early December. Price, 1/- each, 10/- per dozen.

White Crystal.—Clear golden yellow, form of Blackberry; fruit large, seed minute; ripens early.

Currants.

All the very best varieties in Black, Reds and Whites.
Currants.—7/- per dozen; 35/- per 100.

Gooseberries.

All the very best varieties, suitable to Australian climate.
Reds, Yellows, Whites and Greens.— 7/- per dozen; 35/- per 100.

Raspberries.

These we have, in all the very best English and American varieties. Price 3/- per dozen; 20/- per 100.

Strawberries.

The most suitable soil is a deep, rich loam, or even clay, deeply dug, and enriched with strong manure. Plant in rows two feet apart each way, and keep ground constantly stirred, cutting off all runners as they appear, at least three times a year.

Price, 4/6 per 100; Special Quotations per Thousand.

Annetta.—A Queensland seedling; fruit large, 10 to 16 to the quart; bright, shining red; of delicious flavor.

Aurie.—Fruit is large, highly colored, and very sweet. It is a heavy cropper, and bears two crops in the season.

Dr. Moree.—A splendid berry of Cresswell type, but larger, better flavored; one of the heaviest croppers in cultivation.

Federation.—Large and abundant cropper, of Queensland origin, thoroughly drought-resistant; can recommend.

Glenfield Beauty.—Fruit is of medium size, rather pointed, of good rich crimson color, and is produced in clusters.

King Edward VII.—Berries extra large, deep vermillion, produced in bunches well clear of the ground; a heavy cropper.

Lord Kitchener.—Above medium size, dark purplish red; firm fleshed and very sweet; a heavy winter cropper.

Marguerite.—One of the best known varieties, largely grown for market, on account of its appearance.

Melba.—Large, brilliant red; of finest quality; ripens fairly early; continuous cropper.

Noble (Laxton's).—Immense size, roundish; bright crimson; flesh pinkish, very rich and delicious. Price 6/- per 100.

Phenomenal.—Early variety; large splendid flavor and color, carrying well; an acquisition.

Royal Sovereign.—Largest size; bright glossy scarlet, coloring well to the point; flesh white, exceedingly firm.

The Creswell.—Fruit very large, rather long, of a bright glossy red color; a good second early, and will produce a continuous crop right up to May.

Zena.—Raised; large, bright shining red, of exquisite flavor. An early and regular cropper, carrying two good crops annually.

Tree Tomato.

A small evergreen tree from India, attaining a height of six to eight feet. Its fruit is produced in pendulous branches of four to six each; of brownish red color, oval or egg-shaped. In flavor, the fruit resembles the common tomato, with a smack of the lemon. Will keep many weeks after gathering, and will produce an annual crop for an indefinite period. The tree is of easy culture. Price, 1/- each.

Grandilla Passion Fruit.

The large white Passion Fruit grown so largely in Queensland; will do well in a fairly sheltered place, but, of course, no use in localities liable to frosts. Price, 2/- each.

Tacsonia Mollissima.

White Passion Fruit.—This plant has been grown for some time as an ornamental climbed, with handsome rose-colored flowers, and producing enormous quantities of white fruit about the size of a hen's egg, which, on being tried, proved to be valuable for table, and much relished by many. Price, 1/- each.

Hovenia Dulcis (Chinese Raisin)

This is grown more for the curious fruit, which is borne in clusters or branches; in flavor, it very much resembles a Muscatel Raisin. It forms a very handsome small tree; deciduous. Price, 2/- each.

Passion Fruit Plants.

We specialise in these and raise tens of thousands annually. We select seeds specially from our own plantations at Gosford (the home of passion culture), where we have thousands of plants fruiting; and planters may rely on the variety we send out.

Plants from open beds, 6/- 100; 35/- 1000.

In pots established, 6d. each, 5/- doz.; 35/- 100.

Pomegranates.

Valuable market fruits, the variety we grow being enormous and very highly colored. Price 1/6 each.

Asparagus Plants.

From seed specially selected:—

Argentine Purple	2 year roots, 7/6 100.
Conovers Colossal	2 year roots, 7/6 100.
Camden Park	2 year roots, 7/6 100.
Palmetto	2 year roots, 10/- 100.

Tomato Plants.

We can arrange for good strong plants of the following for delivery from July to February, at 6d. per dozen, 3/6 per 100.

Chalks Early Jewel.
Matchless
Trophy
Duke of York
Burwood Prize
Ponderosa
Earliest of All
Dwarf Champion
Mikado

We shall be pleased if our Clients will forward the names on any of their friends to whom a copy of this Catalogue may be useful.

Postal Address: Hurstville. **Sydney and Camden, N.S.W.**

NEW ROSES for 1917

Crimson Chatenay.—(H.T.)—Similar in habit and freedom of flowering to Madame Abel Chatenay; crimson red. Price, 3/6.

Crimson Emblem—(H.T.)—Bright crimson; moderately full scented; decorative. Price, 3/6.

Henrietta.—(H.T.)—Fiery crimson; good grower; very free bloomer; scented; fine for garden. Price, 3/6.

Mrs. Archibald Mackey.—Best described as a huge Belle Siebrecht, rather deeper in color. Fine exhibition rose, and a good bedder; fragrant, 3/-.

Mrs. John Foster.—Color rich vermilion; sweetly scented; habit dwarf; one of the most pleasing colors to be found in roses, after the color of "Geo. C. Waud." Fine for exhibition or the garden. 3/-.

Mrs. J. Fred. Hawkins.—A seedling from "Mad A. Chatenay," giving huge trusses of rosy salmon pink flowers throughout the season. Should become a fine bedding rose. 3/- each.

Mrs. Mona Hunting.—Growth free and branching, producing flowers in profusion. Flowers medium sized and very full, buds long and pointed, color deep chamois yellow, opening to pure fawn. Silver Gilt Medal, National Rose Society. 3/-.

Modesty.—The flower is long and pointed, so much so, that we would place it as the longest and most pointed flower among Hybrid Teas. The color of the guard petals is washed and veining vermillion rose, the remaining color of the bloom is a pearly cream, faintly flushed rose; free blooming and sweet-scented. A faultless exhibition bloom. Gold Medal, N.R.S. 3/6.

Miss Stewart Clark.—(H.T.)—Lemon chrome, nicely shaped; medium sized blooms; decorative. Price, 3/6.

Prince Charming.—(H.T.)—Reddish color, mixed with old gold; a pretty decorative. Price, 3/6.

Tipperary.—In color between "Lady Hillingdon" and "Melody," in the bud and half developed soft golden yellow; its great feature is freedom of flowering; most attractive color; stout habit of growth. Certificate of Merit, N.R.S. 3/-.

W. C. Gaunt.—Shapely, medium-sized, pointed blooms, with naturally reflexed guard petals of brilliant vermillion scarlet are intensified by the deep crimson reverse; these three rich colorings give the rose great character. The blooms are on rigid flower stalks; vigorous branching wood; tea rose perfumed. Grand addition to this type of rose. 3/-.

Roses of Recent Introduction.

Admiral Ward.—Vigorous, large, globular flower, with large petals; crimson red color, shaded with fiery red. 1/6.

Climbing Georges Schwartz.—A vigorous climbing sort of the beautiful dwarf; a fine acquisition. Price, 2/-.

Clb. Segand Weber.—A vigorous climbing sport from the well-known dwarf. 1/6.

Cheerful.—Color, orange flame, shading overspreading the petal; blooms large; mildew proof. It opens in all weathers, flowering freely and continuously. 1/6.

Constance.—Glossy foliage, orange yellow bud, streaked with crimson; large, full, globular flower, of beautiful yellow cadmium. Stock limited.. 2/-.

Cupid.—Single, produced in clusters; the color in the half-developed stage is a flesh, with a touch of peach, softening to delicate flesh and opal when fully expanded. Pillar. 1/6.

Edward Bohane.—Crimson orange scarlet, imbricated formation; vigorous growth and floriferous; delightfully fragrant. Gold Medal, N.R.S. 1/6.

G. Amadee Hammond.—Color cadmium or egg yolk, shading off to fawn or delicate buff; blooms large, full; floriferous and fragrant; growth robust. Gold Medal, N.R.S. 1/6.

Gorgeous.—Vigorous branching growth; flowers large and full, produced in profusion on stiff erect stems; color, orange yellow, and heavily veined with reddish copper. Gold Medal, N.R.S. 1/6.

Imogen.—Centre orange yellow, towards the outside, pale yellow and creamy-white; long pointed buds; strong growth. 1/6.

Janet.—Virtually a dwarf "Gloire de Dijon." In the young stage, delicate egg yolk salmony flesh or golden ochre on very delicate fawn; delicious perfume. 1/6.

Madame Colette Martinet.—Vigorous grower; golden yellow bud; medium sized globular flower, not too full; beautiful old gold yellow color, shader with orange yellow. 1/6.

Mrs. Maud Dawson.—Brilliant cerise in color; ideal shape; extremely floriferous. Silver Medal, N.R.S. 1/6.

Mrs. MacKellar.—High pointed centre, citron yellow as the large blooms expand to pearly primrose white; vigorous growth and floriferous. It possesses a potent eastern fragrance. Mildew-proof. Award of Merit, N.R.S. 1/6.

Mrs. Hugh Dickson.—Delightfud perfume; flowers are large, with high pointed centre; color deep cream, with heavy suffusion of orange and apricot. S.G. Medal, N.R.S. Stock limited. 2/-.

Mrs. Bertram J. Walker.—Vigorous growth; flowers, large, full and symmetrical, freely produced; color bright cerise pink, is even throughout the flower. Gold Medal, N.R.S. 1/6.

Mrs. Franklin Dennison.—Porcelain white and primrose yellow; the flower is of large size and of great substance, quite full; perfumed. 1/6.

Mrs. George Gordon.—Vigorous growth, flowers in greatest profusion; flowers large, with pointed centre; color rosy pink, flushed silvery at the edges; petals nicely reflexed; base of petals yellowish pink. 1/6.

My Maryland.—Bright salmon pink, with paler edges, delightfully fragrant.

National Emblem.—Color dark velvety crimson, shading to vermillion towards the edges; the buds are long; quite full; mildew-proof. 1/6.

Queen of Fragrance.—Color shell-pink, tipped with silver, bright and charming; delicious fragrance, which won for it the Clay Challenge Cup. 1/6.

Sallie.—Foliage mildew-proof; the flowers large, outer petals creamy flesh, deepening towards the centre, with splashes of yolk of egg color. 1/6.

General List of Ever-Blooming Roses.

Price, 1/- each; 10/- per dozen, except where otherwise specified.

These are all continuous bloomers and most highly fragrant. Though not so hardy as the Hybrid Perpetuals, they will all stand moderately severe frost. They may be much more closely pruned is Spring than is generally recommended; to produce exhibition blooms, this is a matter of necessity. A succession of good flowers may be obtained throughout the growing season by cutting back the flowering branchesto within an eye or two of the old wood. The climbing varieties should have the long shoots trained as required during their growth, and afterwards be slightly shortened. By closer cutting, they will form large bushes without supports. In all cases any debilitated or unripe wood must be annually discarded.

Admiral Dewey.—A beautiful light blush sport from that universal favorite, Caroline Testout. Vig.

Admiral Schley.—Deep cinnabar crimson; a distinct color; good. Mod.

Alexandria.—Flowers orange buff shaded bronze; good shape; first-class for cutting. Mod.

Albatross.—Large, color ivory white; faintly tinged with blush pink; of handsome conical form. Mod.

Alice Grahame.—Ivory white, tinted salmon; large, and splendid form; nice clean grower. Mod.

Alice Lindsell.—Creamy white, pink centre; large, full, fine form, petals stout; good exhibition bloom. Vig.

Alice Hamilton (China).—Brilliant velvety crimson, fine buds, open flowers, large semi-double, free flowering. Mod.

Alliance de Franco-Russia.—Clear canary yellow, large, very full, and of perfect form. Free.

Althea.—Beautiful opaque salmon pink, base of petals shaded with orange; very large and full. Mod.

Alberto N. Calamet.—Large and full; buds long and elegant; color flesh white, reverse of petals clear rose. Free.

Alba Rosea.—White, with pale rosy centre; large, full and globular. Free.

Alphonse Karr.—Dark crimson, medium size. Mod.

Alexander Hill Gray (T).—Growth is robustly vigorous and erect; color pure yellow, like Marechal Niel. Strongly tea-perfumed. Free.

American Beauty.—Rosy, cerise, large, full, well formed. Vig.

Anna Marie Soupert.—Bright lake red; large, splendid form and habit; long buds. Mod.

Anna Olivier.—Rosy flesh and buff, large and full; very beautiful in bud. Vigorous.

Antoine Rivoire.—Rosy flesh, shaded carmine; base of petals yellow, large and full. Vig.

Apotheker George Hofer.—Brilliant bright red; large and full, long buds; very strong grower. Vig.

Archduchesse Marie Immaculata.—Bright red, shaded salmon; large, good form, and full. Vig.

Auguste Comte.—Outer petals carmine red, centre reddish yellow; buds long and beautiful. Free.

Augustine Halem.—Rosy carmine; large full, and well formed; free blooming. Mod.

Aurora.—Rich, bright, salmon pink, shading to paler pink in outer petals. Mod.

Avoca (H.T.)—Crimson scarlet buds, very long and pointed; flowers large and sweetly perfumed. Vig.

Beauty of Stapleford.—Deep rose, bright carmine centre; large, full and good form. Mod.

Beauty Inconstant.—Coppery red, shaded carmine and yellow; very variable quite distinct. Free.

Beatrice.—Rich pink, shaded with vermilion; outer petals very pale flesh, and the centre bright pink. Mod.

Belle Siebrecht.—Bright rosy pink; petals long and recurved; constant bloomer, and a charming variety. Free.

Beryl.—Golden yellow, long buds; very highly scented. Mod.

Bessie Brown.—Creamy white, highly perfumed, of immense size and good form. Free.

Betty.—Large, fairly full, and glorious form; petals four to five inches long; color ruddy gold. Mod.

Betty Berkley.—Deep red; intense color, buds long and oval; winter bloomer. Vig.

Boadicea (Tea).—Pale peach, deliciously tinted with pink, centre shaded rose. Mod.

Bride.—White, generally with a greenish tinge; outer petals tinged pink; should be in every collection. Mod.

Bridesmaid.—Bright pink; a sport from Catherine Mermet; large and full, free bloomer. Mod.

British Queen (H.T.)—A pure white and possesses the unique characteristic that each bloom is perfectly formed. The flowers are large and of fine form, and sweetly fragrant. Mod.

Catherine Mermet.—Flesh rose; full, good form. Vig.

Celia.—Bright satin-pink, deeper shade in centre, full flower, with reflexed petals. Mod.

Chas. J. Grahame.—Petals dazzling orange crimson; blooms upstanding, large and splendid form. Vig.

Cissie Easlea (H.T.)—Clear saffron yellow with carmine centre, fine full flower, good show flower.

Clara Watson.—Beautiful light-colored rose; centre of bloom shaded salmon and rose. Free.

Claudius (H.T.)—Growth strong with well formel, full globular flowers; color bright rose; very free-flowering. Mod.

Corinna.—Flesh rose, shaded coppery salmon; good habit of growth; good for exhibition. Mod.

Corallina.—Deep rosy crimson flowers, shaded coral red; growth vigorous. Vig.

Cornelia Koch.—Pale straw color, nearly white; extra size, good form. Mod.

Comtesse de Barthe.—Rosy flesh, globular and fairly full, very free blooming. Vig.

Comtesse Felicie Hoyos (H.T.)—Very clear salmon yellow; centre rosy copper, with vivid carmine. Mod.

Comtesse la Frigneuse.—Bright canary yellow; large and full; long, beautiful bud. Free.

Comtesse de Panisee.—Rosy buff, veined with violet and carmine; large and full. Mod.

Comtesse Riza du Parc.—Salmon rose, tinted copper. Vig.

Comtesse Nadaillac.—Rosy flesh petals, coppery yellow. Free.

Countess of Caledon.—Rich bright rose, flowers extra large; one of the finest exhibition roses. Mod.

Countess of Derby.—Blooms large, with high centre; color, centre salmon, outer petals rose. Vig.

Countess of Gosford (H.T.)—Salmon pink, the base of the petals saffron and yellow; blooms of perfect form. Vig.

Countess Pembroke.—Soft rose, deeper centre; large, full, and perfect shape, deliciously perfumed. Dwarf.

Danmark.—A variety in way of La France; growth very strong and stout, free bloomer. Free.

David Pradel.—Rosy lilac, deeper in centre; large and full; distinct. Free.

Devonniensis.—Creamy white, bluish centre; large, full and well formed. Vig.

Dean Hole.—Very large, of great substance, high centre of fine elongated form; petals very large and smooth; color, silvery carmine, shaded salmon; absolutely distinct. Vig.

Dorothy Page-Roberts (H.T.)—Ideal decorative rose, a lovely shade of coppery pink, suffused with apricot yellow. Vig.

Dora (H.T.)—Color, peach blossom, with deeper centres, changing to silvery blush, very large. Vig.

Double Pink Killarney (H.T.)—This variety will supersede the Killarney now grown. It possesses more petals than the original type. Free.

Dr. Cazeneuvre.— Buds almost black; open flowers, velvety crimson. Free.

Dr. Grill.—Light rose, coppery yellow centre; beautiful bud, but not full. Vig.

Dr. J. Campbell Hall.—Large, full, and perfectly formed, with high centre; color coral rose, suffused white; base of petals yellow. Free.

Dr. O'Donel Browne.—Full, yet always opening well; petals smooth, shell-shaped, and massive; color, carmine rose. Vig.

Duchess of Albany.—A sport of La France, deeper shade of pink. Mod.

Duchess Marie Salviata—Orange, shaded rosy pink; variable; large long buds. Free.

Duchess of Portland.—Pale sulphur yellow; large, full, symmetrical form. Free.

Duchess of Sutherland (H.T.)—Color a delicate rose pink, with lemon shading on a white base. Free.

Duchess of Wellington.—Saffron yellow; a beautiful shade; in shape and type, the rose resembles Killarney. Free.

Earl of Warwick.—Soft salmon pink, shaded with vermilion; large and full, of beautiful shape, and quite distinct. Mod.

Edmond Deshayes.—Creamy white, shaded flesh in centre, large and full. Vig.

Edward Mawley (H.T.)—Velvety crimson; blooms very large, with petals of wonderful depth and substance. Free. Very highly perfumed.

Edw. Meyer.—Color, coppery red and yellow, with orange shading, opening to a beautiful yellow. Vig.

Elizabeth Barnes (H.T.)—Salmon rose, with a fawn centre; outside of petals deep rosy red, shaded with copper and yellow. Vig.

Emanuel Giebel.—An improved Madame Falcot, being of a deeper yellow. Vig.

Edgar M. Burnett (H.T.)—Very large full flowers of fine shape and form, with large flesh petals, tinted rose. Claimed to be a great improvement on La France. The sweetest scented rose of all. Gold Medal, N.R.S.

Emilie Gonin.—Very large, full, well-shaped, white, tinted orange, each petal heavily edged with carmine. Vig.

Empress Alexander Russia.—Red, shaded orange and carmine. Vig.

Enchantress.—Creamy white, tinted buff, growth vigorous; very free blooming. Vig.

Ernest Metz.—Soft carmine rose, petals deeper; good show rose, large and full; Mod.

Etoile de France.—Color velvety crimson, centre vivid cerise red; very beautiful. Vig.

Exquisite.—Flowers bright crimson, shaded with magenta, large, full and globular. Free.

E. T. Cooke.—Beautiful pale crimson yellow, suffused with pink. Free.

F. R. Patzer.—Creamy buff, back of petals delicate warm pink. Free.

Ferniehurst (H.T.)—Pure coppery pink, a beautiful mingling of color impossible to describe. Very sweetly perfumed. Vig.

Florence Edith Coulthwaite.—Large, full, and of perfectly imbricated form; deep cream, striped with bright rose. Free.

Florence Haswell Veitch (H.T.)—Brilliant scarlet, shaded with black, large, full and excellent shape. Vig.

Fiametta Nabonnand.—Satin white, tinged pale rose. Free.

Florence Pemberton.—Creamy white, with faint touch of pink; perfect in form; strong grower and continuous bloomer. Vig.

Francis Dubreuil.—Velvety crimson, reflexed cerise and amaranth; good high color, and good show variety. Mod.

Frau Peter Lambert.—Dark pink, shaded rose and salmon in the centre; large full flowers. Mod.

Frau Lilla Rautenstraugh.—Apricot orange, suffused with yellow, tinted rose; flowers large, full and high centre. Free.

Frau Margrethe Moller (H.T.)—Dark rose, with clearer edges of petals; very large and full. Mod.

Freiheer von Marschall.—Deep carmine, full, handsome bud. Vig.

Friedrichruh.—Blood red; blooms large, full, well formed, flowering freely and continuously. Mod.

General McArthur.—Brilliant dark crimson, flowers of exquisite form, petals round, of good substance; free blooming. Vig.

General Galliene.—A rose of great substance; rich metallic red; blooms last a long time in perfect state. Free.

Geoffrey Henslow (T.)—Orange crimson of great brilliancy; the blooms are fully produced, and are large, full and of perfect form. Free.

George Dickson (H.T.)—Color is velvety black, scarlet crimson, with brilliant scarlet reflexed tips. Become more attractive when staged in water; blooms open naturally. Vig.

George C. Waud.—Glowing orange vermilion; large, full, perfectlly formed, with highly pointed centre. Mod.

George Schwartz.—Bright, deep canary-yellow, very deep and rich in color; large and fairly full. Free.

Gladys Harkness.—Salmon pink, of fine form, large and fragrant. Vig.

Grace Darling.—Creamy white, shaded peach pink; large, full, and excellent form. Mod.

Grace Molyneux.—Color is creamy apricot, flesh in centre; outer petals delicate creamy white inside. Vig.

Grande Duchesse Anastasie.—Salmon-pink flowers, large, full, and perfect shape; sweetly scented. Vig.

Grossherzog von Oldenberg.—Fine, clear red, large full flowers, fine form. Free.

Grossherzogin Alexandra.—Creamy white, in the way of K.A. Victoria; free flowering. Vig.

Gruss au Sangerhausen.—Flowers scarlet with deep red centre; large, full, good shape; buds long and handsome. Vig.

Grus an Teplitz.—An acquisition on account of its color, which is of the brightest crimson scarlet. Vig.

Gustave Grunerwald.—Carmine pink, centre clear yellow; high pointed centre, buds long and pointed. Vig.

Harry Kirk (Tea).—Deep sulphur yellow, passing to a lighter shade at edge of petals. Vig.

Hector Mackenzie.—Dark pink, changing to silver crimson; very floriferous and sweetly perfumed. Vig.

H. V. Machin (H.T.)—Deep, bright, velvety crimson; sturdy, erect grower, and every shoot carries a flower. A fine exhibition variety. Gold Medal.

Helen Boulter.—Satiny flesh, shaded with rose at the centre, and with silved at the edges of the petals. Free.

Helen Good.—A clear pale flesh sport from the favorite rose, Maman Cochet. Free.

Herzogen Marie von C. Gotha.—Pure white, passing to pale yellow; edged rose. Free.

His Majesty.—Dark rich crimson shaded vermilion, crimson on the edges of petals. Vig.

Hon. Edith Gifford.—Flesh color, centre salmon rose; variable, large full, and very hardy. Free.

Honorable Ina Bingham (H.T.)—A rose of enormous petals, which are of the purest pink, deeply veined. Vig.

Homere.—Pale rose salmon, centre petals bordered pink; good form, blooms in clusters. Vig.

Hugo Roller.—Rich lemon yellow, the petals being edged and suffused with crimson; flowers of medium size. Free.

James Coey.—Buds deep orange yellow, opening to deep golden yellow, edged with white. Free.

J. B. Varonne.—Deep carmine, petals coppery yellow; large full, beautiful form; very fragrant. Free.

Jonnkeer J. L. Mock (H.T.)—The blooms which are produced with the greatest freedom, are of perfect formation; color carmine, changing to imperial pink. Vig.

Joseph Hill.—Salmon pink, shaded with yellow, buds long and pointed, fine full flower, of exquisite form. Mod.

Joseph Metral.—Deep magenta, changing purple cerise; large and very full. Vig.

Juliet—(Hybrid Briar).—(Wm. Paul & Sons).—Color, old gold and crimson; very striking, show or garden.

Jules Toussaint.—Flowers brownish-red, base of petal citron yellow. Vig.

Jules Finger.—Deep rose, shaded salmon; large, full and well formed. Free.

Kaiserin Augusta Victoria.—Pure white, with orange centre; outer petals reflexed. Mod.

Killarney.—Buds long and pointed; flesh tinted white and pink; very free and perpetual. Vig.

King George V. (H.T.)—Color, rich, blackish crimson, with violet shadings. Vig.

Konigin Carola (H.T.)—Rose pink; fine form; good exhibition or garden. Free.

Kronprinzessin Victoria (Bourbon).—Best described as white Malmaison. Free.

Kronprinzessin Cecile.—Pale silvery pink; buds are long and develop into large and well-shaped flowers. Free.

La France.—Pale peach, reverse deep rose; large, full, and well formed; very fragrant; good show bloom. Free.

La France, de '89.—A magnificent bloom, almost like a Paeony; brilliant rosy red, lined with white. Vig.

Lady Ashdown.—Very pale Rose du Barri, shading to yellow at base of petals, reflex of petals silvery pink. Vig.

Lady de Bathe.—Color creamy white, with peach shading in the centre of the bloom. Free.

Lady Battersea.—Fine cherry crimson, fair size, pretty in half-opened flower. Vig.

Lady Chelmsford.—Deep crimson, changing to purple; buds pointed; petals thick and velvety. Free.

Lady Coventry (H.T.)—Beautiful vermilion, shaded and veined with intense blue. Ruling color blue when fully opened.

Lady Hillingdon.—Orange yellow; long buds, half-full flowers; very free blooming and attractive color. Vig.

Lady Rossmore.—Flowering freely and continuously; blooms of medium size and fairly full; color reddish crimson. Vig.

Lady Roberts.—Reddish apricot, the base of the petals coppery red, large, full and of good shape. Free.

Lady Ursula.—Petals are unusually large; the color is a delightful shade of flesh pink and thoroughly distinct. Vig.

Lady Wenlock.—China-pink, golden-pink, and nankeen at base of petals, opening to scarlet apricot as it expands. Free.

Laurent Carle.—Buds long, flowers very large, of perfect form; color, brilliant velvety carmine. Vig.

Leeo XIII.—White, tinged pale yellow; large, full and double. Vig.

Lena (T.)—A glowing apricot, the edges of petals a primrose yellow as the flower ages. Free.

Le Flambeau (T.)—(Chedane.)—Medium size, dark red and scarlet centre. Free.

Leslie Holland (H.T.)—Deep scarlet crimson; fair substance. Free.

Liberty.—Flowers brilliant crimson, constant bloomer; keeps its color well after being cut. Mod.

Lieutenant Chaure (H.T.)—Velvety crimson red; flowers large and fairly full; color crimson red, shaded garnet. Vig.

L'Innocence.—Large, full and globular; brilliant whiteness. Mod.

Lord Tarquin.—Pale flesh color, shaded; large, full and good form. Free.

Lyon Rose.—Buds coral-red, tinted with chrome yellow at the base; open flowers, shrimp-like at the edges. Mod.

Luciole.—Bright carmine, tinted yellow; large, full and well formed. Free.

Ma Capucine.—Deep orange or copper color, shaded rose; beautiful bud. Mod.

Ma Tulipe.—Rich deep crimson, semi-double, large stiff petals like tulip, good for cutting. Free.

Madame Antoine Mari.—Rose washed and shaded white; handsome buds, which open well. Vig.

Madame Abel Chatanay.—Rosy carmine, shaded salmon; good. Vig.

Madame Badin.—Flowers large; bud long; color bright carmine red, with dark flushings; good in winter. Mod.

Madame Caroline Testout.—Large globular; bright flesh pink; in way of La France, but darker; immense petals. Vig.

Madame Caroline Kuster.—Light yellow, centre deeper, and sometimes coppery. Free.

Madame Charles.—Rich apricot; medium size, full and beautiful in bud. Vig.

Madame Charles Lutand (H.T.)—Chrome yellow, slightly blended with bright rosy scarlet on the outer petals. Free.

Madame Chedane Guinoisseau.—Canary yellow; beautiful in the bud.

Madame C. P. Strassheim.—Yellowish white in summer, sulphur yellow, changing to buff in autumn. Vig.

Madame Constant Soupert (T).—Deep yellow, shaded peach; has been well shown and well spoken of. Vig.

Madame de Watteville.—Creamy white, each petal edged rose; very fragrant. Free.

Madame Edmond Sablayrolles.—Bright yellow on the outside, centre orange-yellow; large and full. Free.

Madame Edmee Metz.—Rosy carmine, long pointed buds; free blooming. Mod.

Madame Edouard Herriot (Pernetiana)—It is of the well-known Lyon rose type. Many attempts have been made to describe the color, but it is almost impossible to do so—Tangerine is the nearest we can get to it. Mod.

Madame Edward Helfenbein.—A rich, metallic copper; quite distinct. Vig.

Madame Elie Lambert.—Beautiful flesh rose, satiny white at edge of petals. Free.

Madame Eugene Rescal.—Coppery red to China rose, orange ground. Free.

Madame Falcot.—Deep apricot yellow, very beautiful bud. Vig.

Madame George Bouland.—Clear yellow, shaded orange and rose. Free.

Madame Hippolyte Jamin.—Outer petals white, tinted blush, centre coppery yellow. Vig.

Madame Joseph Combet.—Creamy white, shaded rose, centre rosy yellow. Vig.

Madame J. W. Budde (T.)—Flowers large, full and of perfect form; color brilliant carmine. Free.

Madame Jean Dupuy.—Rosy yellow, changing to creamy white and yellow towards the margin; outer petals edged with rose. Vig.

Madame Jules Grolez.—Brilliant China rose, perfect form; one of the best. Mod.

Madame Lucien Linden.—Deep yellowish tan color, reflexed with salmon rose, centre coppery red, large and full. Free.

Madame Lambard.—Salmon pink, shaded rose; large and fairly full. Vig.

Madame Louis Laurans.—Deep red, reflexed with magenta; buds long. Mod.

Madame Phillipe Revoire.—Apricot yellow, with lighter centre, shaded pure carmine. Vig.

Madame Philemon Cochet.—Satin rose, large, full and gloublar. Free.

Madame Paul Oliver.—Salmon, shaded with rosy carmine; large and globular. Mod.

Madame Ravary.—Buds golden yellow; open flowers orange yellow; very large, globular, almost full. Mod.

Madame P. Eular.—Vermillion silvery pink; large flower on long stem; beautiful form; fragrant. Vig.

Madame Segond Weber.—Rosy salmon; the blooms are enormous, petals large, form absolutely perfect. Vig.

D.T.—Rubicunda, red flowering. 60ft. 1 6

D.T.—Alba Flora Plena. Double white. 60ft. 1 6

Bambusa (Bamboo Cane).

E.S.—Arundinacea, tall common. 50ft. .. .. 2/6 to 3 6

E.S.—Humilis. 15ft. 1 6

E.S.—Nigra, Black Bamboo, 20ft. 1 6
Do well in any fairly moist land, and give a tropical appearance to the shrubbery.

Balfouria.

E.S.—Pittosporoides. 25ft. 1 6
Lovely free blooming tree, yellow flowers; very hardy.

Barkleya.

E.S.—Syringafolia, yellow; a remarkably graceful tree, with glossy green leaves. 10ft. 1 6

Bauhinia. s d

E.S.—Alba. 6ft. 1 6

E.S.—Purpurea. 25ft. 1 6
Very showy flowering plants, suitable for lawn specimens.

Benthamia.

Fragifera. 6ft. 1 6

Berberis.

E.S.—Darwini, yellow. 10ft. 1 6

E.S.—Fortuni. 4ft. 1 6

E.S.—Vulgaris, Common Barberry. 8ft. 1 6

E.S.—Vulgaris Purpurea 1 6
Vulgaris is the well known English fruit, Barberry. The evergreen species are useful under shrubs, as they thrive under tree shade.

Betula.

D.T.—Alba. (English Birch). 30ft. 1 6

Beech (See Fagus).

Blue Gum (See Eucalyptus).

Boronia.

E.S.—Megastigma, brown, sweet-scented. 3ft. 1 6

Bouvardias. (See special list.)

Brachychiton.

E.T.—Acerifolia, Fire Tree. 80ft. 1 6

Brassia.

E.S.—Actinophylla; handsome foliage. 15ft. 1 6

Browallia.

E.S.—Jamiesonii, yellow. 8ft. .. 1 0

Brugmansia.

E.S.—Knightii, large, white, trumpet-shaped flower; very showy. 10ft. 1 6

Buddleia.

E.S.—Globosa. 10ft. 1 6

E.S.—Lindleyana. 10ft. 1 6

E.S.—Paniculata. 20ft. 1 6

Veitchii. 10ft. 1 6
Good for hedge and shelter purposes.

Brunsfelsia (Franciscea).

E.S.—Americana, pure white, very sweetly scented. 6ft. 1 6

E.S.—Eximea; flowers blue and white at same time. 5ft. 1 6

E.S.—Latifolia, blue. 6ft. 1 6
Elegant, free-flowering, evergreen shrub plants; they prefer warm, sheltered situations, and light soil.

Buxus.

E.S.—Aborea (Tree Box). 20ft. 1 0

E.S.—Latifolius. 8ft. 1 6

E.S.—Sempervirens, common English Box, for edging. 10/- 100, 1/6 doz.

E.S.—Sempervirens, Aurea Variegata. 4ft. 1 6

	s	d
Callistemon (The Bottle-brush).		
E.S.—Lanceolatus. 8ft.	1	6
Colors red and crimson shades, very useful shrubs.		
Calodendron.		
E.T.—Capensis (Cape Chestnut). 40ft.	2	0
Tree producing handsome flesh-colored orchid-like flowers.		
Calycanthus.		
Floridus ((Allspice). 4ft.	1	6
A deciduous, hardy shrub; the flowers have a sweet apple scent, the wood and roots, when cut, have a strong smell of camphor; spreading habit.		
Cannas. (See separate list.)		
Camellias. (See separate list.)		
Camphora.		
E.T.—Officinialis (Camphor Laurel). 50ft.	1	0
Cantua.		
E.S.—Dependens. Pink. 6ft. ..	1	6
Cassia.		
E.S.—Condolleana. 15ft.	1	6
Quick growing, showy, and very hardy flowering shrubs; yellow flowers.		
Castanospermum.		
E.T.—Australis, Moreton Bay Chestnut. 40ft.	1	6
Catalpa.		
D.S.—Syringafolia, white. 20ft. ..	1	6
Speciosa, a showy, rapid-growing tree, with pyramidal clusters, a foot long, of white and purple fragrant flowers.	1	6
Carob. (See Ceratonia.)		
Carya.		
D.T.—Olivaformis (Peccan Nut). 60ft.	2	0
Castanea.		
D.T.—Vesca (Spanish Chestnut). 40ft.	1	6
Ceanothus.		
E.S.—Divaricatus, blue, 8ft.	2	6
Handsome flowering shrub, quick grower, and very hardy.		
Cerasus.		
E.S.—Laurocerasus (English Laurel). 20ft.	1	0
E.S.—Lusitanica (Portugal Laurel). 20ft.	1	6
The Laurels are old English favorites; they will thrive well if planted in good, strong soil.		

	s	d
Cherries.		
Double Flowering.—These we have specially imported from Japan, where double-flowering cherries, peaches and plums are one of the sights of the world. We have some 10 varieties of the very choicest. Price 2/-.		
Ceratopetalum.		
E.T.—Gummiferum, the Christmas Bush. Forms lovely specimens, and will do well in ordinary garden soils in N.S.W. 40ft.	2	0
Cercis.		
D.T.—Siliquastrum (Judas Tree), flesh color. 20ft.	1	6
Ceratonia.		
E.T.—Siliqua (Carob Tree). 30ft.	1	6
The Carob Tree, St. John's Bread, or Locust Tree, makes splendid lawn specimens. Pods and seed valuable for stock feeding; very hardy.		
Cestrum.		
E.S.—Auranticum. Orange. 8ft.	1	0
E.S.—Diurnum. White. 4ft. ..	1	6
E.S.—Nocturnum. Brown. 6ft...	1	6
E.S.—Purpureum. Purple	1	0
E.S.—Elegans. Scarlet. 6ft. ..	1	0
E.S.—Scabra. Red. 4ft.	1	0
Handsome flowering, quick-growing, evergreen shrubs; very hardy.		
Chimonanthus.		
D.S.—Fragans (Allspice). Yellow. Splendid for shrubbery; flowers in mid-winter, and perfumes the surrounding air. 10 to 12ft. ..	1	6
Chionanthus.		
D.S.—Virginica (Nth. American Fringe Tree). Very ornamental.	1	6
Christia.		
E.S.—Grandiflora. 5ft.	1	6
Compact shrub, flowers red and yollow.		
Chrysanthemum.		
E.S.—Frutescens, Paris Daisy. White. 4ft.	1	0
E.S.—Frutescens. Double white 4ft.	1	0
Frutescens. Yellow. 4ft.	1	0
E.S.—Andersoni. White, brown centre. 4ft.	1	0
Choisya.		
E.S.—Ternata	1	6
Dwarf shrub, with flowers like orange blossoms.		

	s	d
Clethera.		
E.S.—Arborea (Lily of the Valley Tree). 6ft.	2	6
Flowers pure white, compact growth; forming a magnificent shrub.		
Clianthus.		
E.S.—Puniceus (Parrot's Beak). Pink. 6ft.	1	6
E.S.—Puniceus Albus. Pure white 5ft.	1	6
Useful for training against fences, etc.		
Celtis.		
D.T.—Australis. 30ft.	1	6
Coprosma.		
E.S.—Baueriana picturata, orange and green variegated. 6ft.	1	6
E.S.—Lucida, a handsome evergreen shrub, with bright shining leaves, very hardy, thrives well anywhere. 5ft.	1	0
Variegata. 6ft.	1	0
Coronilla.		
E.S.—Glauca. 4ft.	1	0
Corynocarpus.		
E.T.—Laevigatus, Karaka Tree of New Zealand. 50ft.	1	6
A pretty evergreen, producing white flowers and a plum-like fruit; very hardy.		
Cotoneaster.		
E.S.—Buxifolia, white. 3ft.	1	6
E.S.—Microphylla, white	1	6
E.S.—Simmonsi. 8ft.	1	0
Crotolaria.		
E.S.—Trifiliastrum, yellow. 20ft	1	0
Crataegus (Hawthorn or May).		
D.S.—White, double. 12ft.	1	6
D.S.—Pink, double. 12ft.	1	6
D.S.—Red, double. 12ft.	1	6
E.S.—Crenulata. Bears a profusion of red berries; very decorative	1	6
E.S.—Pyracantha, evergreen, bearing bunches orange-red berries; very attractive	1	6
D.S.—Carrierii. 15ft.	1	6
The double flowering Hawthorns should be in every garden, being one mass of bloom in early spring, and very attractive.		
Cuphea.		
E.S.—Jorullensis, yellow and red. 4ft.	1	0
E.S.—Platycentra, red 1½ft.	1	0
Cydonia.		
D.S.—Japonica, scarlet. 6ft.	1	6
D.S.—Alba Plena	1	6
D.S.—Candidissima	1	6
D.S.—Cardinalis	1	6
D.S.—Rosea Plena	1	6
D.S.—Sanguinea Plena, double red. 6ft.	1	6
D.S.—Sanguinea Nivalis, white. 6ft.	1	6
Handsome shrubs; should be largely planted. Bloom in late winter or very early spring.		
Cytisus.		
D.T.—Laburnum. Yellow. 20ft	1	6
E.S.—Proliferous (Tree Lucerne). 8ft.	1	0
Cyphomandra.		
E.S.—Betascea. The Tomato Tree; an ornamental tree, bearing a profusion of edible fruit; makes a good preserve. 10ft.	1	6
Daphne.		
E.S.—Indica Rubra, red. 3ft.	2	0
E.S.—Odora, white. 4ft.	1	6
They are pretty, very highly perfumed, free bloomers, suitable for bouquets; universal favorites.		
Deutzia (Wedding Bells).		
D.S.—Crenata, fl. pl. 1½ft.	1	0
D.S.—Campanulata	1	0
D.S.—Candidissima Flore Flena; semi-double flowers. 6ft.	1	0
D.S.—Gracilis. 1½ft.	1	0
D.S.—Lemoinei Compacta	1	0
D.S.—Pride of Rochester, double flowering, pure white. 5ft.	1	0
D.S.—Rosea	1	0
D.S.—Scabra. 6ft.	1	0
D.S.—Wilmoriana, large white	1	6
Beautiful flowering plants, which cannot be out of place; all the varieties produce white flowers and good foliage.		
Diervillea (Wiegelia).		
D.S.—Alba, white	1	0
Abel Carriere, flowers or rich, rosy crimson color. 4ft.	1	6
Amabalis. 6ft.	1	0
Amabilis Variegata. 6ft.	1	6
Eva Rathke, darkest crimson. 4ft.	1	6
Mad. Lemoni, white. 6ft.	1	6
Gustave Maceat	1	0
Jean Mace, flowers of very dark crimson purple color. 4ft.	1	6
These are very desirable and beautiful plants for the garden; they are profuse bloomers, and require but little attention. They produce fine clusters of tube-shaped flowers.		

	s	d
Diosma.		
E.S.—Ericoides. 3ft.	1	6
Charming little evergreen plant, with light feathery foliage, which is, during September and October, studded with small starry white flowers.		
Diplopappus.		
E.S.—Fruitcans. Dwarf shrub, covered with lilac Daisy blooms. 2ft.	1	6
Diplacus.		
E.S.—Hybrida. 3ft.	1	6
A dwarf yellow flowering shrub, very attractive evergreen.		
Dombeya.		
E.S.—Dregiana. 8ft.	1	6
Hastersi. 10ft.	1	6
Evergreen free flowering shrubs, with good foliage; flowers perfumed, white in color; requires plenty of space.		
Doryanthes.		
E.S.—Excelsa (Gigantic Lily), a striking native scarlet flowering plant. 12ft.	1	6
Palmerii.—A North Australian species; red, shading to white	1	6
Dracaena.		
E.S.—Australis. 8ft.	1	6
E.S.—Draco (Dragon's Blood). 10ft.	1	6
E.S.—Fragrans. Splendid for shrubbery; free flowering	1	6
E.S.—Nutans. 8ft.	1	6
E.S.—Stricta. 10ft.	1	6
Handsome, tropical looking plants; hardy.		
Duranta.		
E.S.—Alba, white. 6ft.	1	0
E.S.—Plumieri, blue. 6ft.	1	0
A pretty family of dwarf growing evergreen shrubs, very free flowering and quite hardy; make pretty dwarf hedges, being almost constantly in bloom. (See also Hedge Plants.)		
Eloeagnus.		
E.S.—Japonicus Aureas. 10ft.	1	6
E.S.—Japonicus. 15ft.	1	6
E.S.—Longipes, very elegant hardy shrub; the fruit is edible. 6ft.	1	6
Very useful plants for covering unsightly fences, etc.; also fine, hardy shrubs.		
Elm (See Ulmus).		

	s	d
Eulalia.		
E.S.—Japonica. 4ft.	1	6
Zebrina. 4ft.	1	6
Grass-like foliage, of a dark green, mottled with yellow spots and very decorative.		
Epiphyllum.		
E.S.—Truncatum, crimson and purple.	1	6
A hardy class of plants, and very showy when in bloom.		
Erythrina.		
D.S.—Bidwilli. 5ft.	1	6
D.T.—Caffra. 20ft.	1	0
D.T.—Crista Galli. 20ft.	1	6
D.S.—Compacta, crimson. 4ft.	1	6
Erythrinas, or Coral Trees, are splendid objects in large or small pleasure grounds, producing large spikes of brilliant colored flowers; they will thrive in the poorest soil, or even barren sand.		
Eucalyptus.		
E.T.—Citriodora, lemon-scented. 75ft.	1	0
E.T.—Corynocalyx, sugar gum. 100ft.	1	0
E.T.—Ficifolia, scarlet, one of the finest flowering shrubs in cultivation; should be planted in every garden. 15ft.	1	6
E.T.—Globulus, Tasmanian Blue Gum. 100ft.	1	0
E.—Calaphylla, rosea. Splendid rose colored form of the original	1	6
E.—Leucoxyflon rosea, pink flowering ironbark. 40ft.	1	6
We list only a few of the ornamental varieties of this large genus. Globulus is the well known Tasmanian Blue Gum, the wonderful health-giving qualities of which are so well known. In a young state, it is very handsome, and grows very quickly.		
Escallonia.		
E.S.—Macrantha, scarlet. 10ft.	1	6
E.S.—Montavidiensis, white. 20ft.	1	6
E.S.—Rubra, red. 6ft.	1	6
Beautiful free-flowering evergreen plants; all worth growing; Montavidiensis has white flowers, borne in bunches; it will stand clipping.		

	s	d
Eugenia.		
E.S.—Jambosa Malacensis (Rose Apple). 20ft.	1	6
E.S.—Myrtifolia, white, with crimson berries. 20ft.	1	6
E.S.—Smithii, native Lilli Pilli. 20ft.	1	0
E.S.—Ugnii, white. 3ft.	1	6
E.S.—Uniflora, Brazilian Cherry; a good fruit. 20ft.	1	6
Pendula	1	6
E.S.—Ventenati, beautiful weeping habit. 20ft.	1	6
Beautiful myrtle-leaved evergreen, rather slow growing, but ornamental; some of the varieties have blue and purple berries.		
Euonymous.		
E.S.—Japonica. 12ft.	1	6
E.S.—Alba Variegatus. 6ft.	1	6
E.S.—Alba Latifolius. 12ft.	1	6
E.S.—Aurea Marginatus. 6ft.	1	6
E.S.—Argenteum Marginatus. 6ft.	1	6
E.S.—Radicans. 4ft.	1	0
Very useful, hardy evergreens.		
Euphorbia.		
E.S.—Splendens. 4ft.	1	6
Pretty flowering plant, being covered with crimson flowers; often called "Thorn of Christ."		
Eupomatia.		
E.S.—Laurina. 12ft.	1	6
An evergreen shrub, bearing curious flowers and foliage; a native of Australia; flowers perfumed.		
Exochordia.		
Alberti (Pearl Bush), white. 6ft.	1	6
Grandiflora, large, white. 4ft.	1	6
Fagus.		
D.T.—Sylvatica (Beech). 60ft.	1	6
D.T.—Sylvatica Purpureus. 50ft.	2	0
Ficus.		
E.T.—Australis. 60ft.	1	0
E.T.—Benjaminii, the Weeping Fig. 40ft.	2	0
E.T.—Macrophylla, Moreton Bay Fig. 100ft.	1	0
E.T.—Muelleri, beautiful weeping habit. 50ft.	1	6
E.T.—Nitida, beautiful variety, for street and other plantations, 40ft.	1	6
This genus is remarkable for its brilliant foliage, and far surpasses all other as shade trees. They form enormous trees, and seem to thrive anywhere, excepting Benjaminii, which does best in tropical climates.		

	s	d
Forsythia.		
D.S.—Verdissima, yellow, very showy. 14ft.	1	6
Fraxinus.		
D.T.—Excelsior (Ash). 50ft.	1	6
D.T.—Excelsior Aurea (Golden Ash). 25ft.	2	6
D.T.—Alba (American Ash). 50ft.	1	6
Very effective for street planting, the Golden Ash being very distinctive in wood and foliage.		
Fourcroya.		
E.S.—Gigantea Variegatea, very ornamental for lawns or large shrubberies, and park planting. 8ft.	1	6
Gardenia.		
E.S.—Fortunii, fl. pl. 4ft.	1	6
E.S.—Globosa, flowers white and globose, very handsome. 15ft.	1	6
E.S.—Intermedia, very free flowering. 3ft.	1	6
E.S.—Magnifica. 4ft.	1	6
E.S.—Radicans. 1ft.	1	6
E.S.—Thunbergi. 12ft.	1	6
Evergreen flowering shrubs; foliage of a beautiful dark glossy green and the lovely pure white flowers are most deliciously fragrant.		
Genista.		
E.S.—Alba, the white flowering broom, a very floriferous shrub. 8ft.	1	6
E.S.—Andreana, yellow and red, very pretty. 6ft.	1	6
Fine ornamental plant, with handsome foliage and attractive flowers.		
Gleditschia.		
D.T.—Horrida (Honey Locust Tree), a splendid deciduous tree. 30ft.	1	6
Goldfussia.		
E.S.—Anisophylla. 3ft.	1	0
Graptiphyllum.		
E.S.—Earlii, crimson, showy shrub. 4ft.	1	6
Grevillea.		
E.T.—Robusta (Silky Oak). 40ft.	1	0
The well known Silky Oak, grand for street planting in hot districts.		

	s	d
Gynerium (Pampas Grass).		
E.S.—Argenteum. 10ft.	1	6
Roseum. 10ft.	1	6
E.S.—Variegatum, yellow variegated. 6ft.	1	6
Beautiful strong growing grass like plant, throwing plumes of lovely white and pink flowers.		
Hibiscus.		
E.S.—General Courteges, scarlet, large. 6ft.	1	6
E.S.—Chrysanthus, yellow, black centre. 3ft.	1	6
E.S.—Conqueror, rich apricot, with velvet plum colored throat, single and very large blooms, which are freely produced. A really sterling novelty, good grower, and hardy; specially recommended and is quite distinct. 6ft.	2	0
E.S.—Geo. Harwood, beautiful, large, single pink, dark centre. 6ft.	1	6
E.S.—Island Empress, a splendid, hardy and very floriferous variety, the blooms are of a soft dark rose shade, and one of the best shaped doubles; a valuable addition. 6ft.	2	0
E.S.—Island Queen, deep rose, single, splendid form and size. 6ft.	1	6
E.S.—Lambertii, double crimson. 6ft.	1	6
E.S.—Moorei, carmine, dark centre. 6ft.	1	6
D.S.—Mutabilis (Chinese Rose) large double pink flowers, very showy. 8ft.	1	0
D.S.—Mutabilis Alba, similar to above, but white	1	0
E.S.—Peachblow, the flowers are semi-double and of a beautiful deep rose pink	1	6
E.S.—Rosa Sinensis, scarlet. 6ft.	1	6
D.S.—Syriacus (several varieties). We can supply the best of these which will thrive in even the coldest districts. 6ft.	1	6
Among our very best flowering shrubs, and as they are so thoroughly adapted to our climate, and fulfil so many requirements of the flower garden, they can be safely recommended.		

	s	d
Habrothamnus (See Cestrum).		
Halesia.		
D.S.—Tetraptera, Snowdrop or Silverbell Tree, white. 15ft. ..	1	6
Hakea.		
E.S.—Eucalyptoides, scarlet. 12ft. Blooms during winter, and is very showy.	1	6
Hawthorn (See Crateagus).		
Heeria.		
Rosea, a pretty flowering, sub-shrub.	1	6
Heliotropium.		
E.S.—Aureum. 2ft.	1	0
E.S.—Roi des Noires, very dark. 3ft.	1	0
E.S.—White Lady. 3ft.	1	0
E.S.—Midnight, large dark, blooms. 2ft.	1	0
E.S.—Royal Highness, large, light blue. 2ft.	1	0
Well-known, highly fragrant, free-flowering plants.		
Horse Chestnut (See Aesculus).		
Hydrangea.		
D.S.—Cyanoclada, black stemmed, very floriferous, dark blue. 4ft.	1	0
D.S.—Hortensis Variegata. 3ft. ..	1	0
D.S.—Japonica, blue. 4ft.	1	0
D.S.—Otaska, pink. 4ft.	1	0
D.S.—Paniculata Grandiflora, white 4ft.	1	6
D.S.—Thomas Hogg, white. 4ft.	1	0
D.S.—Stellata Fimbriata, white. 3ft.	1	6
During recent years, great improvements and valuable additions have been made to this beautiful class of plants. They are of the most lovely tints, varying from white, pink, rosy blue, rose, to rosy purple, and dark blue shades. The heads are of immense size, last well, and the plants are very free blooming.		
New Introductions.—We can supply the best.	1	6
Strong growing plants, having bold, dark-green foliage and immensely large flowers. They thrive best in moist situations; make good specimens when grown as pot plants.		

	s	d
Holmskioldia.		
E.S.—Sanguinea, produces abundance of orange red blooms. 8ft.	1	6
Haemelia.		
E.S.—Patens, good hardy shrub, with orange blooms, very showy. 4ft.	1	6
Hypericum.		
E.S.—Moserianum, bright yellow. 3ft.	1	6
Beautiful shrub, growing about 3ft. high, and late in summer, covered with deep yellow flowers.		
Hymenospermum.		
Flavum (See Balfouria).		
Illicium.		
E.S.—Anisatum (Aniseed Tree). 6ft.	1	6
Ilex (Holly).		
E.S.—Aquifolium, English Holly. 15ft.	1	6
E.S.—Alba Marginata, Silver Holly. 10ft.	2	6
E.S.—Aurea, Golden Holly. 10ft.	2	6
E.S.—Cornuta, Chinese Holly. 15ft.	1	6
A most beautiful tribe of evergreen shrubs, with bright, shining green foliage, generally prickly, and in winter they produce bright red berries.		
Indigofera.		
E.S.—Decora, pink and white. 2ft.	1	0
Inga.		
E.S.—Pulcherrima, scarlet tassel flower, a very handsome mimosalike shrub. 4ft.	2	0
E.S.—Alba, white tassel flower, sweetly scented. 6ft.	1	6
Jacaranda.		
D.T.—Mimosoefolia. 40ft.	1	6
A magnificent tree, producing beautiful lavender flowers; the foliage is also extremely graceful.		
Justicia.		
E.S.—Carnea, rose. 2½ft.	1	6
E.S.—Adhatoda, white. 4ft.	1	0
Beautiful flowering shrubs, only requiring shelter and ample watering.		
Jasminum (See Climbers).		
Juglans (See Fruit Trees).		
Kerria.		
D.S.—Japonica, fl. pl., yellow. 3ft.	1	6
D.S.—Japonica, yellow. 3ft.	1	6
Lagerstroemia.		
D.S.—Indica, pink. 20ft.	1	6
D.S.—Indica Alba. 10ft.	2	0
Eavesii.—Most beautiful of all Lagerstroemia. Compact growth magnificent plumes of rosy heliotrope color. Decidedly the best	2	6
Splendid flowering, hardy deciduous shrub; the flowers are very handsome, pink and white in color, and distinct.		
Lagunaria.		
E.T.—Patersoni, pink. 40ft.	1	6
This is one of the most suitable trees for shelter from sea breezes known in the State.		
Lantana.		
D.S.—Many Varieties	1	0
The Lantanas are splendid flowering shrubs, and thrive anywhere.		
Lasiandra.		
E.S.—Grandiflora. 3ft.	2	0
E.S.—Maerantha, very free flowering, slender, evergreen shrub; free growers, producing lovely deep blue single flowers; requires plenty of room and a sheltered situation. 6ft.	1	6
E.S.—Rosea, free flowering shrub, with nice clear rose colored blooms. 4ft.	1	6
Ligustrum.		
E.S.—Japonicum. 12ft.	1	6
E.S.—Golden City. 8ft.	1	6
E.S.—Lucidum. 10ft.	1	0
E.S.—Sinensis. 4ft.	1	6
E.S.—Lucidum variegatum. 10ft.	1	6
E.S.—Vulgaris. 6ft. per 100	10	0
Ligustrums, or Privets, are useful in shrubberies; they are frequently used for ornamental hedges, either to conceal fences or to form breakwinds for flower beds, etc. They stand exposure well, and will grow in most soils.		
Laurus.		
E.S.—Nobilis, Sweet Bay. 30ft.	1	6
Laurel. (See Cerasus.)		
Lavendula.		
E.S.—Spica, Common Lavender	1	0
E.S.—Staechas, French Lavender.	1	0
Leycesteria.		
E.S.—Formosa Variegata	1	6
Handsome dwarf shrub.		

	s	d
Liquidambar.		
D.T.—Styraciflua. 30ft.	1	6
Gorgeous autumn tinted leaves, rivalling Japan Maples in color.		
Libonia.		
E.S.—Floribunda, orange and red; a free-flowering plant. 3ft. ..	1	0
Lilac. (See Syringa.)		
Linum.		
E.S.—Trigynum. 1ft.	1	6
A handsome dwarf, yellow-flowering shrub.		
Liriadendron.		
D.T.—Tulipiferum (Tulip Tree). 60ft.	1	6
Very suitable for back-row tree in shrubbery. Flowers like a tulip.		
Lophostemon.		
E.T.—Australis, 45ft.	1	0
A handsome shelter tree, suitable for planting with pines and camphor.		
Lotus.		
E.S.—Peliorhynchus, fine glaucus foliage plant, with scarlet pea-shaped flowers, produced in great profusion; splendid for hanging		
Mackaya.		
E.S.—Bella, lilac purple. 8ft. ..	1	0
Maple. (See Acer.)		
Melaleuca.		
E.S.—Hypericifolia, a scarlet flowering ti-tree; very showy; a fine plant for sea coast. 8ft. ..	1	6
Melastoma.		
E.S.—Macrantha. 3ft.	1	6
Menziesia.		
E.S.—Polifolia, purple. 1½ft. ..	1	6
Alba.—Hardy, heath-like plant. 1½ft.	1	6
Metrosideros.		
E.T.—Tomentosus, New Zealand Christmas Tree. 25ft.	1	6
Melia.		
D.T.—Azaderack (White Cedar). 30ft.	1	0
Very suitable for street planting.		
baskets	1	0
Macadamia.		
E.T.—Ternifolia, Queensland Nut; yields a nut of good flavor; an ornamental tree	1	6

	s	d
Magnolia.		
E.S.—Anonaefolia, chocolate evergreen. 8ft.	1	6
D.S.—Conspicua, deciduous, white. 20ft.	2	6
E.S.—Fuscata, yellow. 8ft.	1	6
E.S.—Grandiflora, white. 25ft. ..	1	6
D.S.—Purpurea, deciduous. 15ft.	1	6
D.S.—Stellata, white. 6ft.	3	6
No garden is complete without a collection of these noble flowers. Grandiflora and Fuscata, among the evergreens, perfume the whole grounds, and for rarity and effectiveness, the deciduous varieties, Stellata, Conspicua, etc., give great effect.		
Malus.		
D.S.—(Double Flowering Apples)	1	6
Murraya.		
E.S.—Exotica. 6ft.	1	6
A beautiful dwarf evergreen shrub, with perfumed white flowers, like small orange blossoms.		
Mussa Ensete.		
E.S.—(Abyssinian Banana). 10ft.	2	6
Very handsome large foliage, for sheltered situation.		
Myrtus. (Myrtle).		
E.S.—Communis. 6ft.	1	6
Charming plants, with dark green leaves, flowers white.		
Nandina.		
E.S.—Domestica. 5ft.	1	6
A fine shrub, with clusters of pretty flowers and graceful foliage.		
Nerium (Oleander).		
Delphine, rich crimson, single. 6ft.	1	6
Dr. Golfin, deep rosy red, single. 6ft.	1	6
Luteum plenum, semi-double, creamy yellow. 6ft.	1	6
Madam Martin, single, salmon. 6ft.	1	6
Madonna, grandiflora, very large, semi-double, white. 6ft.	1	6
E.S.—Punctatum, very large flower, a beautiful shade of light pink. 5ft.	1	6
Professor Martin. 6ft.	1	6
Splendens, very large double pink. 6ft.	1	6
Splendens Variegatum, the variegated leaved Nerium. 6ft. ..	2	0
Mdlle. Dubois, flowers single, pure white. 6ft.	1	6
Neriums are so hardy and showy and thoroughly at home in this climate.		

s d

Oak. (See Quercus.)

Ochna.

E.C.—Multiflora, yellow. 3ft. .. 1 6
The flowers, which are produced in great profusion, are very fragrant and are succeeded by ornamental berries of a scarlet and black color.

Olea.

E.S.—Fragrans. 5ft. 1 6
E.S.—Europea, common Olive. 20ft. 1 0
2/- per doz., 12/- per 100.

Osmanthus.

E.S.—Aquifolium. 12ft. 1 6
Fragrans. 10ft. 1 6
Variegatus. 6ft. 1 6
Resembles a holly leaf; hardy, sweetly perfumed.

Paulownia.

D.T.—Imperialis. 15ft. 2 0
A very beautiful, hardy, deciduous tree, with large leaves, and an abundance of spikes of flowers; corolla pale violet, with dark spots.

Pepper Tree (See Schinus).

Pampas Grass (See Gynerium). ..

Phormium (New Zealand Flax).

E.S.—Tenax. 5ft. 1 0
E.S.—Tenax Variegata. 7ft. 1 6
A fibre plant of great value; the variegated varieties are very ornamental.

Photinia.

E.S.—Serrulata, creamy white. 10ft. 1 6
E.S.—Glabra, white. 10ft. 1 6
A fine foliage, hardy evergreen, of compact habit; flowers profusely.

Philadelphus (Mock Orange).

D.S.—Dianthus, fl. pl., double white 1 6
Coronarius. 4ft. 1 0
Falconerii, pure white. 9ft. 1 6
Grandiflorus, very handsome. 6ft. 1 6
Multiflorus Plenus, large double. 6ft. 1 6
Mont Blanc, entirely covered with large, fragrant flowers. 5ft. 1 6
Speciossima, white, sweetly scented. 6ft. 1 6
grounds; quick growing and splendid shade trees, with large leaves.

Plumbago.

E.S.—Capensis, Lavender. 5ft. .. 1 0
E.S.—Capensis, Alba. 4ft. 1 0
A favorite family of free-flowering plants.

Plumeria.

D.S.—Acutifolia (Frangi-panni), very sweet-scented, white. 8ft. 2 6

Populus (Poplar).

D.T.—Alba (Silver Poplar). 50ft. 1 0
D.T.—Bolleana, Silver-leaved. 70ft. 1 0
D.T.—Carolina, splendid foliage; tree, spreading and umbrageous; new. 2 0
D.T.—Dilitata (Upright Poplar). 50ft. 1 0
D.T.—Nigra. 40ft. 1 6
D.T.—Balsomifera (Balsam Poplar). 50ft. 1 6
The varieties of this deciduous hardy tree, have a very upright habit of growth, and form fine contrasts in plantations where pines predominate.

s d

Hardy plants, bearing single and double white flowers; when flowering is all over, the old wood should be cut out, to encourage new growth. The single flowers are not unlike orange blossoms. All are deciduous.

Pittosporum.

E.S.—Eugenoides. 15ft. 1 0
E.S.—Eugenoides Variegata. 12ft. 1 6
E.S.—Nigrescens Variegata. 12ft. 1 6
E.S.—Undulatum. 25ft. 1 0
E.S.—Crassifolium 1 0
All the Pittosporums are highly ornamental, and are suitable for single specimens in the shrubbery. Undulatum, Eugenoides, and Eugenoides Variegata, are suitable for ornamental evergreen hedges.

Platanus (Plane).

D.T.—Orientalis, Oriental Plane Tree. 50ft. 1 6
Most handsome deciduous tree suitable for avenue or pleasure

	s	d
Poinciana.		
D.S.—Gillisii (Bird of Paradise), yellow and crimson, very beautiful. 8ft.	1	6
D.S.—Regia, crimson and yellow. 60ft.	2	6
Poinsettia.		
D.S.—Pulcherrima, brilliant scarlet. 8ft.	1	6
Poinsettias are magnificent shrubs when treated to a sheltered position.		
Protea.		
E.S.—Milifera (Cape Honeysuckle), pink and yellow. 8ft.	1	6
Handsome flowering shrub.		
Prunus.		
D.S.—Sinensis, Albus Plenus, double white	1	6
D.S.—Flora Rubro, double rose. 6ft.	1	6
D.S.—Triloba, double rose. Very free growing, one of the most beautiful of these early flowering plums	2	0
Pissardi—An ornamental species from Persia, having splendid coppery crimson foliage, strikingly pretty	1	6
Vesuvious.—See Fruit Trees.		
Polygala.		
E.S.—Myrtifolia. 5ft.	1	6
Pretty evergreen flowering shrub, with pea-like blooms; thrive in poorest soils; makes a good hedge.		
Psidium.		
E.S.—Cattleyanum, Purple Guava. 8ft.	1	6
Pyriferum, Yellow Guava. 15ft.		
Two splendid plants to grow as they produce an abundance of fruit which make an excellent preserve.		
Punica.		
E.S.—Granatus (Pomegranate). 10ft.	1	0
Granatum, fl. pl., 10ft.; scarlet flowers; dense, dwarf growing	1	6
Granatum Alba. 10ft.	1	6
Andre Leroy, reddish salmon, margined white. 8ft.	1	6
These make charming shrubs; the double flowering varieties are particularly fine.		
Pyrus.		
D.T.—Aucuparia—Mountain Ash. 30ft.	1	6
Japonica (See Cydonias).		
Sorbus (Service Tree).		

	s	d
Quercus (Oak).		
D.T.—Coccinea, scarlet. 40ft.	1	6
D.T.—Pedunculata, English Oak. 60ft.	1	0
E.T.—Virens, Evergreen Oak. 40ft.	1	6
D.T.—Palustris, red. 40ft.	1	6
E.T.—Ilex	1	6
A hardy family of beautiful trees, mostly requiring the cooler districts of the State.		
Raphiolepis (Indian Hawthorn).		
E.S.—Indica. 8ft.	1	0
E.S.—Ovota. 4ft.	1	0
E.S.—Intermedia. 10ft.	1	0
Free-flowering, hardy shrubs; splendid for hedging.		
Rhus.		
D.S.—Vernifera (The Lecquer Tree). Leaves during autumn turn to a bright crimson. 10ft.	1	6
D.S.—Cotinus. Feathery flowers, the leaves in autumn, when turning yellow, have a fine effect 6ft.	1	6
D.S.—Succedania. The leaves turn to a beautiful deep crimson in the autumn. 10ft.	1	6
Ricinus.		
E.S.—Communis (Castor Oil plant), large ornamental foliage. 10ft.	1	0
Rhododendron.		
Ponticum	1	6
Hybrid varieties from 3/6 to 7/6 each.		
Rondeletia.		
E.S.—Anomala, scarlet, 1½ft.	1	6
E.S.—Speciosa, crimson. 3ft.	1	6
Highly ornamental, and brilliant flowering shrubs.		
Robinia.		
Pseudo Acacia, Bastard Acacia. 40ft.	1	0
D.T.—Decaisneana, rose, flowers in great abundance	2	0
D.T.—Hispida Rosea, Rose Acacia. 4ft.	1	6
These plants produce Wisteria-like blooms, in various shades of color.		
Rosmarinus.		
E.S.—Officinalis, Rosemary	1	0
Russellia.		
E.S.—Juncea. 3ft.	1	6
A small family of plants with rush-like leaves, ornamental and suitable for outdoor and greenhouse culture; scarlet flowers.		

	s	d
Rhamnus.		
E.S.—Alaternus Variegata (Buckthorn); a splendid hedge plant for the colder districts	1	6
Salvias.		
D.S.—Azurea, lovely blue	1	0
E.S.—Bethelli, pink	1	0
E.S.—Farinacea, dwarf blue	1	0
D.S.—Patens, lovely bright blue	1	0
E.S.—Silverspot, dwarf, variegated foliage, scarlet	0	9
E.S.—Glorie de Stuttgardt, magnificent variety, spike 9 inches long, dazzling scarlet. 4ft. ..	1	0
E.S.—Hoveyii, dark purplish blue. 4ft.	1	0
Salix.		
D.T.—Aurea. 25ft.	1	0
D.T.—Babylonica. 60ft.	1	0
Well known Willow Trees.		
Sambucus.		
D.S.—Nigra (The Elderberry). 12ft.	1	0
Variegata. 12ft.	1	0
Aureum, golden foliage. 8ft. ..	1	0
Schinus.		
E.T.—Molle Californian Pepper Tree. 25ft.	1	0
A beautiful, fast growing graceful tree; light green foliage, and bright scarlet berries; leaves have a strong aromatic scent.		
Sophora.		
D.S.—Japonica, white. 20ft.	1	6
Silky Oak (See Grevillea).		
Snowball Tree (See Viburnum).		
Sparmannia.		
E.S.—African, fl. pl., white. 15ft.	1	6
Spiraea.		
D.S.—Antony Waterer, crimson Spiraea very beautiful. 1ft. ..	1	0
Ariaefolia. A most profuse bloomer, and the most elegant of the Spiraeas. 2ft.	2	0
Californica, pink. 2ft.	1	6
Caryopteris Mastocanthes (called the Blue Spiraea). 2ft.	1	6
Douglassi. 3ft.	1	0
Gracilis, small, white, dwarf habit. 2ft.	1	0
Grandiflora. 4ft.	1	6
Hypericifolia. Italian May, single, white. 6ft.	1	0
Prunifolia. 4ft.	1	0
Reevesiana, fl. pl. 4ft.	1	0
Very hardy and beautiful spring flowering shrubs; should be largely planted.		

	s	d
Spartium.		
E.S.—Album, Multiflorum. 5ft.	1	6
E.S.—Junceum (Spanish Broom), yellow; a hardy, free-flowering shrub, suitable for any climate. 5ft.	1	0
Stenocarpus.		
E.T.—Cunninghamii. 25ft.	1	6
A beautiful tree; flowers bright red; produced in clusters large, handsome foliage; evergreen and hardy in the warmer parts of the State.		
Sterculea.		
E.T.—Diversofolia, Kurrajong. 50ft.	1	6
E.T.—Lurida, red. 30ft.	1	6
E.T.—Heterophylla, Bottle Tree. 30ft.	1	6
E.T.—Acerifolia, Flame Tree. 30ft.	1	6
A handsome evergreen, very fine, dense foliage, and very ornamental. Native of N.S.W.		
Strelitzia.		
E.S.—Augusta. 4ft.	1	0
Very handsome; suitable for warm districts; flowers are magnificent, and curiously shaped, almost bird-like in its fine colors, pale blue and rich golden shades.		
Swainsonia.		
E.S.—Alba, white. 4ft.	1	0
E.S.—Osbornii. 2ft.	1	0
Very perpetual blooming and useful shrubs.		
Syringa.		
D.S.—(English Lilac). Strong, well-grown plants	1	6
We can offer many varieties, both single and double, grafted plants	2	6
D.S.—Persica, lilac. 6ft.	1	6
D.S.—Vulgaris, lilac. 12ft.	1	6
D.S.—Vulgaris Alba. 12ft.	1	6
Lilacs succeed best where the winter months are severe, and frosts are frequent, but they will do well in nearly every part of the State.		
Symphoricarpus.		
(Snowberry Tree.)		
D.S.—Racemosa, white berries. 3ft.	1	6
D.S.—Racemosa Aureo Variegata, the golden leaved Snowberry Tree. 4ft.	1	6

	s	d
Syncarpia.		
E.T.—Laurifolia. 15ft.	1	6
Syncarpia Laurifolia, or Turpentine, is one of our native trees, now thought much of as a shelter tree, particularly where heavy shelter is required, and especially near the sea coast.		
Tamarix.		
D.S.—Gillica (Flowering Cypress). Very hardy; for sea coast or exposed situation. 12ft.	1	0
D.S.—Plumosus, dwarf, plumed foliage. 6ft.	1	6
Tecoma.		
E.S.—Capensis, red. 12ft.	1	0
E.S.—Smithii, orange yellow, with brown markings. 5ft.	1	0
E.S.—Velutina, yellow. 15ft. ..	1	6
These are valuable evergreen shrubs, flowering more or less all the year round.		
Telopia (Waratah).		
E.S.—Speciossima. 5ft.	2	6
A gorgeous Australian native plant, producing magnificent large heads of brilliant crimson flowers; good shining foliage.		
Tilia.		
D.T.—Europea Linden. 40ft. ..	1	6
Tree Lucerne (See Cytissus).		
Toxicophlaea.		
E.S.—Spectabilis, white; a pretty flowering shrub, sweetly scented. 5ft.	1	6
Tristania.		
Conferta (see Lophostemon).		
Ulmus (Elm).		
D.T.—Americana or Giant. 80ft.	1	6
D.T.—Campestris, English Elm. 80ft.	1	6
E.T.—Chinensis (Evergreen). 80ft.	1	6
D.T.—Latifolia. 80ft.	1	6
D.T.—Variegata. 80ft.	2	0
D.T.—Suberosa (Cork Elm). 30ft.	1	6
Splendid shade trees, and worthy of a place. The Chinese evergreen variety is most beautiful; it has a drooping habit, with small, dense foliage; for a shade tree on a large lawn, it cannot be surpassed.		
Viburnum.		
E.S.—Lucidum, white. 10ft. ..	1	6
D.S.—Macrocephyllum. Huge Chinese Guelder Rose. Heads of bloom like White Hydrangea; very scarce.	2	6
D.S.—Opulus, Guelder Rose or Snowball Tree. 10ft.	1	6
D.S.—Plicatum tomentosum (large Guelder Rose). 6ft.	2	0
E.S.—Sieboldti, white. 3ft.	1	6
E.S.—Simensis, white. 4ft.	1	6
E.S.—Suspensum, white, sweet-scented. 15ft.	1	0
E.S.—Tinus (Lauristinus), white. 8ft.	1	0
As ornamental foliage plants, they are well worthy a place; but their beautiful flowers render them invaluable. All thrive equally well in the coldest as well as in the hottest parts of New South Wales.		
Veronica.		
E.S.—Buxifolia, white. 2ft.	1	0
E.S.—Coelestial, pale blue. 3ft ..	1	0
E.S.—Diosmaefolia, lavender. 3ft.	1	0
E.S.—Gracilis, white; good for hedge. 2ft.	1	0
E.S.—Hendersonii. 2ft.	1	0
E.S.—Hendersonii Variegata. 3ft.	1	6
E.S.—Hulkei, lavender. 4ft.	1	6
E.S.—Imperialis, a brilliant amaranth red, changing to magenta. 3ft.	1	0
A useful tribe of free-blooming soft-wooded plants; the several varieties bear racemes of various colors.		
Vitex.		
E.T.—Trifolia Variegata. 3ft. ..	1	6
Handsome, quick-growing shrubs..		
Willow (See Salix).		
Wigandia.		
E.S.—Caracasana, blue. 12ft. ..	1	0
Very showy flowering shrub, large dark green foliage.		
Wiegelia (See Diervillea).		
Yucca.		
E.S.—Aloefolia Variegata, 8 to 10ft.	2	6
E.S.—Filamentosa. 4ft	1	6
E.S.—Gloriosa, Adam's Needle, 12ft.	1	6
E.S.—Quadricolor. 3ft.	2	6
E.S.—Recurva. 5ft.	1	6
A fine genus of plants, very ornamental on banks of rockeries or dry places, some of them producing magnificent tall spikes of white and cream flowers; very hardy, and will grow anywhere in the warm climates, even in pots or vases. Aloefolia Variegata is a superbly variegated variety.		

Cupressus, Pines & other Conifers

Very suitable for planting in private gardens, parks, or cottage gardens. Are of very easy culture, preferring a deep, rich, rather heavy soil, which is better for being trenched 18 to 20 inches deep. The Pines, Cupressus, etc., form good wind-breaks (Insignis being especially planted for this purpose).

Special Quotations per 100 and upwards. Also for Extra Sized Plants, 4 to 6 feet.

Araucaria.

Cunninghami. 100ft. 1 6
Bidwilli (Bunya Bunya). 100ft. .. 1 6
Excelsa (Norfolk Island Pine). 150ft. 1 6
Imbricata (Monkey Puzzle), 40 to 60ft. 2 6

Magnificent ornamental trees. Excelsa will grow on the coast, but not too far from the sea. Cunninghami is very handsome, with quite a unique appearance, Bidwilli (Bunya Bunya Pine), leaves deep green, shining and very prickly.

Abies.

Douglassii (Silver Fir). 100ft. 1/6 to 2 0
Excelsa. 80 to 100ft. 1/6 to .. 2 0
Smithiana. 80 to 100ft. 1/6 to 2 0
Alba (White Spruce). 50 to 60ft. 1/6 to 2 0
Pinsapa. 50 to 60ft. 1/6 to 2 0
Menzesii. 80 to 100ft. 1/6 to .. 2 0
Normandiana. 1/6 to 2 0

Beautiful trees of symmetrical but rather slow growth; should be in every plantation. When making young growth they are clad with beautiful pale green foliage; quite hardy; resembles the Scotch Firs.

Cedrus.

Liboni (Cedar of Labanon); very graceful. 80ft. 1/6 to 2 6
Deodara. 80ft. 1/6 to 2 0
Atlantica. 80ft. 1/6 to 2 0

Deodara should have a sheltered position, where it can spread out its great wing-like branches, and cover the whole surface of the ground; with tall trees for a background, it thrives admirably.

Cryptomeria.

Elegans. 50 to 60ft. 1 6
Japonica. 60 to 80ft. 1 6

Elegans, of upright habit, well branched foliage, changes from green to bronzy crimson during the winter. Japonica, rapid-growing tree, pyramidal; branches pendulous, bright green foliage.

Cupressus.

Lawsoniana. 50ft. .. .. .. each 1 6
Marocarpa.. 50ft. 1/- ea., 10/- doz., 70/- 70/- 100.
Sempervirens (upright Cypress. 40 to 50ft. 1 0
Lambertiana, True; one of the best. 30 to 50ft. 2 6
Lambertiana Aurea; very beautiful. 30 to 50ft. 2 6
Knightii; hardy in all parts, 60 to 80ft. 1 0
Torulosus (Tufted Cypress), 70 to 80ft. 1 6
Benthamiana, 40 to 50ft. 1 0
Corneyana (Gracitis), 40 to 50ft. 1 6
Funebris (Funeral Cypress), 40 to 50ft. 1 0
Goveniana, 50 to 60ft. 1 0

Most largely grown of all the Conifers, embracing a variety of beautiful, quick-growing trees; they all do well near Sydney and in all parts of the State.

Dammara.

Australis, 50ft. 2 0
Robusta, 80ft. 2 0

Indigenous to Australia and New Zealand. Suitable for coastal lands.

Juniperus (Juniper).

Africanus. Very dense growing, 6 to 8ft. 1 6
Bermudiana (Pencil Cedar), 30 to 40ft. 1 6
Chinensis (Chinese Juniper), 30 to 40ft. 1 6
Hibernica. Close growing and very compact, 10 to 15ft. 1 6
Viginiana (Red Cedar), 30ft. .. 1 6

Hardy, upright growing conifers; will thrive in any climate; distinct in form and foliage and contrast with Cupressus or Pines.

s d

Libocedrus.

Decurrens (Incense Cedar), 18ft. 1 6
Dwarf, handsome tree; densely branched, conical shape.

Norfolk Island Pine (See Araucaria).

Pinus.

Insignis (Remarkable Pine), 100ft. 1/- each., 9/- and 10/- doz.; 50/- to 70/- 100.
Canariensis (Canary Pine), 60 to 70ft. 1 6
Halepensis (Alleppo Pine), 80 to 100ft., 1/- each, 10/- per doz.
Pinea (Stone Pine), 80 to 100ft. 1 6
Sylvestris (Scotch Fir), 80 to 100ft. 1 6
Maritima (Pinaster), 80 to 100ft. 1 0
Fine for planting near the sea or exposed situations.
Ponderosa, 70ft. 1 6
Muricata (Bishop's Pine), 60ft. .. 1 6
This family includes some of the finest trees in cultivation. They are hardy, quick growing, and beautiful specimens.

Podocarpus.

Elatus. The largest variety, 50 to 60ft. 1 6

Retinospora.

Pisifera, 16 to 18ft. 1 6
Ericoides, 6 to 8ft. 1 6
Obtusa, 20 to 30ft. 1 6
Plumosa, 15 to 20ft. 1 6
A beautiful tribe of tree shrubs, from 15 to 20 feet high, closely allied to the Cupresses family, which they resemble; close habit, branching and pyramidal.

Salisburia.

Adiantifolia (Maiden Hair Tree), 60ft. 1 6
A fine tree, with foliage somewhat resembling Adiantum; it is not evergreen, however; lovely in autumn.

Taxodium.

Sempervirens. Quick growing; 200 feet. 1 6
Distichum, 30ft. 1 6

Taxus (Yew).

Baccata, English Yew, 20ft. 1 6
A very handsome tree shrub; quite hardy, compact in growth, and with good foliage.

Thuja.

Lobbi. Handsome tree from California, 50ft. 1 6
Orientalis, pyramid growth, 10 to 12ft. 1 0
Aurea, compact growing, deep golden tinge, 4 to 8ft. 1/6 to 10 6
Occidentalis, 15ft. 1 0
Beautiful family of plants, of compact dwarf habit of growth. T. Aurea is a golden Thuja, of great beauty. All the family are hardy anywhere.

Thujopsis.

Dolobrata, 80ft. 1 6
Dolobrata Variegata, 40ft. 1 6
Hardy evergreen coniferous tree, resembling the Thuja.

Wellingtonia (Big Tree of California.)

Gigantea (Redwood) 2 6
In a young state it is of a beautiful habit of growth, and, although rather slow growing, it is always worthy of a place. Only suitable for high altitudes in the State.

Yew (See Taxus).

Shade, Shelter & Ornamental Trees.

We can offer in Quantity.

Acacias, or sorts.—10/- per doz.; 70/- per 100.
Flame Trees.—12/- per doz.; 80/- per 100.
Camphor Laurel.—10/- per doz.; 70/- per 100.
Eucalyptus (Sugar Gum).—10/- per doz.; 70/- per 100.
Ficus Macrophylla.—
Moreton Bay Fig.—10/- per doz.; 70/- per 100.
Australis (Port Jackson Fig).—10/- per doz.; 70/- per 100.
Grevillea Robusta (Silky Oak).—10/- doz.; 70/- per 100.
Lophostemon Australis.—10/- per doz.; 75/- per 100.
Pinus Insignis.—8/- to 10/- per doz.; 60/- to 70/- per 100.
Schinus Molle (Pepper Tree).—8/- to 10/- per doz.; 60/- to 70/- per 100.
Sterculea Diversifolia.—6 inches. 5/- to 6/- per doz.; 35/- to 40/- per 100.
Arancaria Excelsa (N.I. Pine).—12/- per doz.; 80/- per 100.
Oaks, Elms, Planes.—12/- to 15/- per doz.; 80/- to 100/- per 100.

Hardy Climbing Plants

E—Evergreen; and D—Deciduous.

	s	d
Asparagus.		
E.—Plumosus	1	0
E.—Tenuissimus	1	0
Lovely when trained to a wall in half-shade, say, under a verandah.		
Akebia.		
E.—Quaintata. A beautiful climber from Japan; flowers are of dark heliotrope color; borne in small clusters.	1	6
Allamanda.		
E.—Hendersonii, large yellow flowers; thrives best against a wall; likes a warm aspect; a handsome climber.	2	0
Ampelopsis (Virginian Creeper).		
D.—Hederacea	1	0
D.—Hoggii, foliage large, ornamental	1	0
D.—Henryana, dark velvety leaves, veined silvery white (new), 20ft.	1	6
D.—Sieboldtii variegata, 15ft.	1	6
D.—Lowi, small leaves, deeply cut, very pretty	1	6
D.—Veitchii Purpurea; foliage beautifully tinted red	1	0
Grown for their beautiful autumn-tinted foliage. A Veitchii Purpurea adheres to walls in the same manner as Ivy, and has a most picturesque appearance.		
Antignon.		
D.—Leptopus, pink	1	6
D.—Alba, white	1	6
A charming slender creeper, producing an abundance of bright flowers and bracts.		
Aristolochia.		
E.—Elegans; blackish purple flowers, of peculiar shape; one of the most beautiful and free flowering of this genus. (Dutchman's Pipe).	1	6
Bignonia.		
E.—Australis, Wonga Wonga Vine	1	6
E.—Capreolata very distinct	1	6
E.—Cherere, large scarlet	2	0
E.—Excelsa; yellow and white	1	6
D.—Grandiflora, orange bronze	2	0
E.—Jasminoides, rose and white	1	6
E.—Jasminoides alba, pure white	1	6
E.—Lindleyana, lavender	1	6
D.—Radicans, red	1	6
E.—Tweediana, rich yellow	1	6
E.—Venusta, orange.	1	6
D.—Madame Galen, brownish-red, distinct	1	6
E.—Mackenii, rosy lilas; very fine.	1	6
All the Bignonias are worthy of a place in the garden, being of easy culture, fast growers and profuse bloomers.		
Venusta, when grown on a trellis, or trained against a wall, is unsurpassed in the profusion or magnificence of its large racemes of bright orange-colored flowers during the winter.		
Beaumontia.		
E.—Grandiflora, white, a magnificent climber, bearing large, trumpet-shaped flowers, highly perfumed.	2	0
Bougainvillea.		
E.—Glabra, rose lilac	1	6
E.—Glabra, Sanderiana, rose	1	6
E.—Grandiflora, magenta	2	6
E.—Speciosa, purple, white centre.	1	6
E.—Spectabilis, rose lilac	1	6
E.—Splendens, crimson	3	0
Bougainvilleas like a warm, northerly aspect and shelter; their flowers are magnificent, and they continue to bloom for a long time. Glabra may be grown as a shrub, but is best trained against a wall in a northerly aspect.		
Canavallia.		
E.—Bonariensis	1	6
Has scarcely an equal in extent or quickness or growth, or beauty of foliage; its leaves are large and of a brilliant shining green, with bright purplish red spikes of pea-like flowers.		
Clematis.		
Jackmanii, varieties named	3	0
Montana (American Virgin Bower), pure white; a valuable climber, suitable for all parts of the State	1	6
Deciduous plants of great beauty; require a sheltered posi-		

	s	d
tion and good soil; grown on a trellis, they are very effective; produce large single and double flowers of a variety of colors.		
Coboea.		
E.—Scandens, dark purple	1	6
Alba, white	1	6
This is one of the best creepers, and very suitable for covering a trellis; it grows freely, has fine foliage, and produces an abundance of bloom.		
Dolichos.		
E.—Lignosus, white	1	0
Lignosus, pink	1	0
Fast growing twiners.		
Fuchsia.		
Procumbens. A distinct species, valuable as a climber; flowering during winter season	1	0
Ficus.		
E.—Stipulata, Climbing Fig	1	0
E.—Minima, very pretty, small-leaved variety	1	6
E.—Radicans, variegata	1	6
Adhering to walls, fences, rocks, and are very useful in general.		
Gelsemium.		
E.—Sempervirens	1	6
A beautiful climber, corolla of the flower deep yellow, with protruding anthers.		
Hedera (Ivy).		
E.—Helix	1	0
E.—Helix Rhomboidea Variegata	1	0
E.—Maderiensis Variegata, a fine variety of the Variegated Ivy, the leaves being broadly margined with white; the best Ivy yet introduced	1	6
E.—Tricolor Marginata	1	6
Ivies are so well known that they need no description here, further than to remark that no garden or grounds should be without them; they thrive well anywhere.		
Honeysuckle (See Lonicera).		
Hoya.		
E.—Carnosa, Wax Plant	1	6
E.—Carnosa, variegata	2	0
Ipomaea.		
E.—Hardyii, pink	1	0
E.—Learii, blue	1	0
E.—Pandurata, white, moon flower	1	0
E.—Tuberculata, best pink	1	6
This plant has few equals for fast growth and beautiful foliage. Flowers are supported on a long, graceful tube. Average size of flowers, 4 inches across.		
Ivy (See Hedera).		
Jasminum.		
E.—Gracilis, white, 5ft.	1	0
E.—Grandiflorum, white, 10ft. ..	1	6
E.—Poicoiceum, white, star shaped 12ft.	1	6
E.—Primulinum, yellow, good. 18ft.	1	6
E.—Souvenir de Poateau, produces berries black in color ..	1	0
All flowering; some of them have beautifully scented flowers.		
Lathyrus.		
E.—Latifolius Alba	1	0
E.—Pink Beauty	1	0
E.—Pubescens. Lovely purple-lilac color; a great acquisition.	1	0
Everlasting peas.		
Lonicera.		
E.—Aurea Reticulata, white and yellow	1	6
E.—Caprifolium, English	1	6
Confusca, yellow	1	0
E.—Halleana, white	1	6
E.—Sinensis, white and red	1	0
E.—Tartarica Splendens, scarlet..	1	6
A large family (Honeysuckles) of charmingly scented flowered climbers and trailers with fine foliage; of quick growth; flowers abundantly.		
Mandevillea.		
D.—Sauveolens	1	0
A beautiful, slender, deciduous creeper, bearing lovely white flowers and fine foliage.		
Manetia.		
E.—Bicolor, yellow and red	1	6
Glabra	1	6
Maurandya.		
E.—Alba, white	1	0
E.—Barclayana, blue.	1	0
Beautiful close growing little climbers; would do well on a wire fence or on a verandah trellis.		
Nasturtium (Double Flowering).		
E.—Scarlet Flower	1	0
Charming, hardy, quick-growing climbers, with fine foliage; profuse bloomers, and perfectly double flowers.		

	s	d
Phaseolus.		
D.—Caracalla (snail flower) .. .. A slender climber, with full foliage, producing clusters of lovely lilac flowers, shell-shaped; very curious and beautiful.	1	0
Physianthus.		
E.—Albans (Arranga or Cruel Plant), white flower, somewhat resembling Stephanotis	1	0
Passiflora (Passion Flower).		
E.—Coerulea, blue and white ..	1	0
E.—Edulis (Edible Passion Fruit) white, tinged purple	0	6
E.—Eynesford Gem, purplish crimson	1	6
E.—Constance Elliot, pure white	1	6
E.—Fragrant Beauty	1	6
E.—Grandilla, suitable for warm climate only. 15ft.	2	0
E.—Empress Eugenie, blue, best flowering, distinct .. .. Very ornamental climbers, doing well in almost all localities, excepting where very cold.	1	6
Quisqualis.		
E.—Indica, producing beautiful sweet-scented flowers of white orange, and crimson on the same racemes	2	0
Rhyncospermum.		
E.—Jasminoides .. .. A bright, perfumed, white flowering creeper, of quick growth, and fine foliage; it is evergreen and hardy, except in the coldest districts.	1	6
Solanum.		
E.—Jasminoides, white, a fast growing climber	1	6
E.—Seaforthianum, beautiful clusters of blue flowers	1	6
D.—Wendlandii. One of the most superb summer flowering vines it is possible to conceive; it blooms continuously, each one nearly three inches across, as many as 100 being in a cluster. The color is an attractive shade of lavender blue, strikingly beautiful	1	6
Stephanotis.		
E.—Floribunda .. .. Stephanotis is prized as a first class plant for exhibition; it is usually grown in the greenhouse, but will do well in warm situations out of doors. The foliage is wax-like, and the flowers are pure white, and produced in abundant clusters.	2	6
Stigmaphyllum.		
E.—Ciliatum .. .. Producing orchid-like flowers, yellow.	1	6
Sollya.		
E.—Heterophylla, blue, an excellent climber, producing pretty flowers of various shades of blue.	1	6
Tacsonia (Passion Flower).		
E.—Exoniensis, rose pink	1	6
E.—Ignea, intense scarlet	1	6
E.—Mortii, magenta color	1	6
E.—Mollissima, pink	1	6
E.—Smythiana, orange, 18ft. ..	1	6
E.—Van Volxemii, crimson color This family is distinguished from the Passiflora by the long cylindrical tubes of the calyx of their flowers; they are very handsome, quick growing, beautiful climbers.	1	6
Thunbergia.		
E.—Laurifolia, large blue flowers Fine free flowering plant of great beauty.	1	6
Vinca.		
E.—Argentea Variegata (Periwinkles). Useful for low bordering; trailing habit.	1	0
Virginian Creeper (See Ampelopsis).		
Wistaria.		
Magnifica, blue flowers when in full leaf	1	6
Multijuga, a Japanese variety, with dark purple racemes; attains a length of from 2 to 3ft.; an extra fine form	1	6
Multijuga Alba, magnificent racemes of pure white blossoms, very distinct .. .. each	1	6
Multijuga rosea, rose colored, each	3	6
Sinensis, lavender	1	6
Sinensis, fl. pl., double purple ..	3	6
Sinensis Alba	1	6
Wistaria Sinensis is a handsome climber, and strikingly unlike any other. In deep soil, it grows to an enormous size. The flowers hang in pendant clusters a foot long. The time of flowering is early spring; the plant is in full bloom before it puts forth a leaf.		

Azaleas

We have a very fine collection of these showy plants in both Singles and Doubles, and can supply lists on application.

Prices from 1/6 Each.

S. denotes Single—D. denotes Double—S.D. denotes Semi-Double.

Alba Magna (S.)—Large white, occasionally striped.

Baron de Vriere (S.)—Pure white; very large. 2/-.

Bernard Andre Alba (S.D.—Double white. 2/-.

Charmer (S.)—Bright amaranth; of good form.

Coronata (S.)—Rosy red.

Comte Charles de Kerchove (D.)—A very free-flowering variety of perfect shape; flesh color, with white stripes. 2/-.

Comtesse de Flanders (S.)—Very large flowers, clear satin rose. 2/-.

Dame Melanie (S.)—Very bright rose, edged with pure white, carmine blotch. 2/-.

Deutsche Perle (D.)—This is, without doubt, the best double white Azalea, being very free-flowering, early-blooming. 2/-.

Duc de Nassau (S.)—Large, dark, rosy purple. 2/-.

Empress of India (D.)—Flowers perfect; the other segments are gracefully wavy and well expanded; the segments which occupy the centre are carmine, white and salmony-rose. 2/-.

Empereur de Bresil (D.)—Large double rose of exquisite form, banded with white, upper petals marked with glossy red. 2/-.

Eulalia van Gert (S.)—Pink, carmine spots.

Exquisite (S.)—Pink and white.

Indica Alba (S.)—Pure white.

Magnifica (S.)—Large, deep purple.

Morti (S.)—White, green tinge in centre.

Refulgens (S.)—Purplish, shaded rose.

Roi de Hollande (S.)—Bright red.

Souvenir de Prince Albert (D.)—Deep rose, broadly margined with white. 2/-.

Splendens (S.)—Fine rosy salmon.

AZALEA MOLLIS (S).

Strong plants from 2/- to 3/6. Orange color, pale yellow, orange red.

This useful, hardy Japanese flowering shrub cannot be too highly recommended, for it is invaluable for open beds and borders. It blossoms in a profuse manner, the large funnel-shaped flowers ranging in color from rosy-salmon to various shades of yellow and bright orange. Should be more extensively known.

Begonias

Variegated Foliage, in variety.

These are remarkable for their variegated and beautifully colored ornamental foliage. 1/- to 2/- each.

TUBEROUS ROOTED, Single and Double.

We offer a choice strain of selected seedlings of this gorgeous section of Begonias. They will be found most suitable for cool greenhouse and conservotary decoration, and also for the hardy fernery. Their magnificent flowers are produced in profusion during the Summer and Autumn, varying in color from pure white to the deepest scarlet and crimson. Price, 1/- to 2/- each; 10/- to 15/- per dozen.

HERBACEOUS. SHRUBBERY VARIETY.

Large Collection of these. Good for small borders. 1/- to 1/6 each.

Bazaar Plants.

We specialise in making up collections of these suitable for bazaars and fetes for charitable or other purposes, and send only such as we know secure ready sales. Our collections are acknowledged by promoters to be THE VERY BEST VALUE they have ever received; and sales in many instances nett 100 per cent. clear profit on cost of plants, packing, and, in many instances, very high freights. It is only necessary to state amount it is intended to expend, and leave the selection in our hands.

Bouvardias.

Plants in 4-inch Pots, 9d. each, 8/- dozen.

Beautiful dwarf plants for outdoor cultivation in the warmer districts; and in colder parts of the State they may be grown with advantage if silghtly protected during the winter months. The plants bloom profusely during the year, and some even in winter. They are charming for boquets. The varieties are from pure white to deep crimson, and some are perfumed. They should be in every garden.

Alfred Neuner.—Double petals, waxy white, beautiful.

Beauty of Brisbane.—Pure white, very robust habit, free flowering.

Bockii.—Bright pink, with white throat, very fine.

Coral Queen.—Scarlet, with white throat.

Countess Hopetoun.—Color very salmon, changing with age to flesh pink; blooms very large, and of great substance.

Duchess of York.—Cheerful blush pink, shading to a tinge of heliotrope.

Etna.—Reddish vermillion; double flowers; very distinct.

Ethel Kerslake.—Flowers large, pure white, and highly perfumed; of the same type as Mrs. G. H. Kerslake.

Flavescens.—Improved. Yellow, changing to white.

Hogarth.—Fl. pl. Dark scarlet.

Hogarthi.—A good, hardy, variety, producing masses of scarlet flowers.

Humboldtii Corymbiflora.—Improved snow-white.

King of Scarlets.—Deep scarlet; vigorour grower; exceptionally good variety.

Laura.—Salmon rose, single; fine variety; distinct color.

Mabel Porter.—Dark scarlet, very large trusses. 1/6.

Maiden's Blush.—Bright bluish pink.

Miss Ida Cheeseman.—Large flowers of a pale, delicate pink color, the tube and reverse of petals being a deeper shade, giving it a charming appearance.

Mrs. G. H. Kerslake.—Large, massive and waxy white, set upon a very stout tube of medium length; deliciously fragrant.

Mrs. McCulloch.—Immense trusses of large flowers, of reddish salmon color; flowers best in autumn and winter.

President Cleveland.—Very large, brilliant scarlet.

President Garfield.—Double rose.

Priory Beauty.—Pale shade rose, very fine, large trusses.

Rubra.—Dark red; single; distinct.

Salmon Queen.—Color salmon, with a darker tube, very distinct; flowers profusely through the whole season.

Vreelandii.—White, hardy.

Wallhallow.—Improved Laura, having larger truss of bloom.

Cannas.

THERE is probably no class of plant that has been so greatly improved upon during recent years, as Cannas.

We have a splendid collection, embracing some 30 varieties, and shall be glad to furnish names and descriptions to planters.

Price, 9d., 1/6 each; 8/- to 12/- dozen.

Camellias.

WE propagate about 150 varieties of these, but only catalogue a few of the choicest. Customers would do well to leave selection in our hands.

2/- Each.

Alba Plena.—White, fine. 2/6 each.
Angelo Cocchi.—White, striped rose.
Archduchess Augusta.—Red, white stripe.
Aspasia.—White, pink spots.
Augusta Superba.—Pink cupped.
Blanda.—Rose, very hardy.
Bonomiana.—White stripes, splendid flower.
Candidissima.—White, very beautiful.
Calliope.—Pink and white stripes.
C. H. Hovey.—Velvety crimson, shaded violet.
Comptesse Callina.—Pure white, fine.
De La Reine.—White, spotted with lake red.
Dionisia Poniatowski.—Pure white, perfect flower.
Dryade.—Rose, fine form.
Fimbriata Alba.—Splendid, white fringed. 2/6 each.
Great Eastern.—Red, very large and showy.
Grunelli.—White, free bloomer.
Guilfoyle's Helena.—Pink, striped red.
Harriet Beecher Sheather.—Rosy salmon, fine flower, free bloomer.
Hellenor.—Large, carnation striped.
Imbricata Alba.
Innocence.—Pure white.
Isabella.—Large and handsome; white.
Jubilee.—Delicate pink, rose striped; splendid.
Lady St. Clair.—Pale pink.
La Pace.—White, shaded rose, striped crimson.
Lavinia Maggi.—White, crimson blotches.
Maria Theresa.—Blush, crimson spots.
Mrs. Mort.—Flesh splendidly imbricated.
Mathotiana Alba.—Large, pure white.
Pauline Maggi.—Pure white, very double.
Princess Louise.—Pure white, very fine.
Prince Frederick William.—Superb rose, reflexed, perfect shape.
Reine de Beautes.—Very delicate, clear rose, good form, extra fine.
Rosa Madiai.—Carmine, blotched with white.
Sarah Frost.—Bright red, splendid.
Sulpheurous.—Dark red.
Tabbs.—Crimson, marbled and blotched with white.
Tricolor Imbricata.
Valteverado.—Vivid rose; fine.
Vandesia Seperba.—Striped carmine.
Venus de Medicis.—Crimson, veined rose.
Virginia Franco.—Rose, changing to spot pink, flesh margin.
Wrightii.—Rich crimson, large, magnificent.

We shall be pleased if our Clients will forward the names of any of their friends to whom a copy of this Catalogue may be useful.

F. FERGUSON & SON,

Postal Address: Hurstville. **Hurstville and Camden, N.S.W.**

Strong Carnation Plants.

We can supply strong plants any time between February and October. The best soil for Carnations is a good, rather adhesive loam, with the addition of one part rotten stable manure, one leaf-mould, and coarse sand to keep it open, adding a little broken charcoal. This is a good mixture for use in all stages of the plant's growth.

Perpetual Flowering.

1/- Each, 10/- per Dozen (except where shown).

A. S. Montgomerie.—Lilac pink (a most unusual shade), flowers two-and-a-half and three inches across, calyx perfect, strong habit and very free flowering. 1/6.

Avalanche.—Pure white, of lovely form, always in flower.

Balaclava.—Dark scarlet, large flower, and deliciously perfumed.

Beatrice.—Deep yellow, marked bright purple, excellent.

Bernard.—Pure white in centre, the outer half being almost covered with bright crimson, sound calyx and free flowering.

Beryl Gazzard.—Scarlet, splendid form, and perfect calyx.

Calypso.—White ground, pencilled, lavender; very fragrant and free. 1/6.

Christine.—Large, sweetly scented lavender, pink blooms, long stems, very decorative.

Colin Gazzard.—Bright crimson maroon, large, very sweetly perfumed.

Comet.—A very fine deep scarlet, free bloomer and very robust.

Esperance.—A beautiful white self, with shell shaped petals.

Frank Errey.—Bright crimson excellent form, and great substance.

Glenroy.—Lustrous purple, of splendid form and vigorous growth.

Herminus.—White, thickly pencilled bright red, strong calyx.

Illustrious.—Dark velvety crimson, large and free, good form.

Ivy.—Crushed strawberry, flaked scarlet, large flowers, vigorous.

Jim Currie.—Orange ground, edged and striped scarlet, good form.

Kerslake's Yellow.—A sport from Mrs. G. H. Kerslake, retaining its size, form and constitution.

Kioto.—The color is unusual, being yellow, slightly suffused pink and variously flaked; flowers have smooth petals and can be grown up to three and a half inches across. 1/6.

Lady Chelmsford.—Pure white ground, heavily pencilled purple and violet; ideal show form.

Lady Northcote.—Pure white, edged rose pink, clove scented; free.

Lucius.—Creamy yellow, with heavy edge of light scarlet, large smooth flowers.

Marian.—Soft rosy pink, free flowering, perfect calyx.

Mandarin.—Orange yellow, with broad markings of bronzy pink, good form, sound calyx:

Mr. John Pope.—Brilliant scarlet crimson, shaded maroon, perfect calyx; vigorous.

Mrs. Byron Ruse.—Orange, edged scarlet; very large, fine form.

Mrs. G. H. Kerslake.—Rich golden yellow, edged and pencilled scarlet.

Mrs. H. Gazzard.—Bright pink self, large, vigorous, good form.

Nabob.—Pure white, heavily edged maroon; splendid for exhibition.

Phyllis Magno.—Yellow edged and heavily lined with scarlet.

Princess Alice.—White, striped rose.

Purity.—Pure white, of excellent form; splendid for exhibition.

Queen Alexandra.—Yellow self.

Rosette.—A clear and beautiful shade of deep bright cerise pink, large well built flowers, with fringed petals, perfect stem and calyx; a vigorous grower. This is recommended as one of the best of deep pink varieties. 1/6.

Tessie McGann.—Yellow ground, heavily pencilled rich crimson, strong growth; one of the very finest.

Uralla.—Very dark red, good petal and exquisite form, very robust.

Waratah.—Vivid scarlet, smooth petal; excellent show flower.

White Champion.—One of the best pure white Perpetuals; fine form.

White House.—A very fine large white; one of the best.

SPECIAL OFFER.

We have Selected the following

12 Distinct Carnations.

The most popular self colors and others edged and marked in striking and fascinating shades are included. Price, 11/- post free in N.S.W.

COMET.
ESPERANCE.
GLENROY.
ILLUSTRIOUS.
MRS. H. GAZZARD.
MRS. FOTHERINGHAM.
ENCHANTRESS.
LORRAINE.
GLADYS FRYER.
IVY.
LUCIUS.
QUEEN ALEXANDRA.

AMERICAN PERPETUALS.

These are a remarkably vigorous race, with long stiff stems, which make ideal flowers for cutting. The flowers are of the largest size and the petals are fringed and for decorative purposes especially, we cannot too highly recommend them. They are vigorous growers, wonderfully free bloomers, and sweetly perfumed.

Alma Ward.—White, faintly overlaid with pink, very large, sweetly scented.

Black Chief.—Deep velvety crimson, good calyx, size and shape.

Carola.—One of the largest dark crimsons, strong grower, but sometimes rather weak in calyx.

Enchantress.—One of the largest Carnations in cultivation; a pleasing shade of soft pink.

Ethel Croker.—Clear bright pink, sweetly perfumed.

SPECIAL OFFER.

Six Perpetual Carnations.

selected for distinction and variety of colors. Price, 5/6, post free in N.S.W.

WHITE HOUSE.
FRANK ERREY.
KERSLAKE.
GLENROY.
MARIAN.
MRS. BYRON RUSE.

Flora Hill.—Pure snowy white, not large, but very free bloomer.

Glendale.—Large white, with bright red stripes, very fragrant.

Harlowarden.—Bright crimson, deeply fringed, long stems; free.

Lady Carlisle.—Deep bright rose, free bloomer; vigorous.

Lily Brayton.—Shell pink; pretty and popular variety.

Lorraine.—A free flowering scarlet self, of good size and non-bursting, strong healthy growth, ever-blooming.

May Day.—Deep satin pink, exquisite form, strong growth, and highly recommended.

SHOW OR SPRING BLOOMING CARNATIONS.

A fine collection of all the best named varieties, 1/- each; 10/- doz. Strong plants.

Miss Ida Hewitt.—Bright pink; one of the best of this color.

Mona.—Cerise lake, very free.

Mrs. H. Burnett.—The finest flesh-pink Perpetual, profuse bloomer.

Mrs. T. W. Lawson.—Deep pink, sweetly scented.

Othello.—Deep maroon; a first-class all-round flower.

Pasadena..—White, striped scarlet.

Pearl Brown.—Pink, heavily splashed deep maroon, clove scented.

Prosperity.—Pure white, just touched pink, large flower, vigorous.

Rose-Pink Enchantress.—Only differs from Enchantress in color; a gem.

Salmonea.—Deep salmon, very sweetly scented, growth very vigorous.

Santa Barbara.—Fine scarlet, large, free, non-bursting.

Snowdrift.—Intense pure white, marvellously free bloomer, and extremely vigorous grower. Strongly recommended as a splendid garden variety. An absolutely non burster.

Telopia.—Dazzling scarlet, beautifully crimped, perfect shape.

Victory.—Strong grower, well shaped, true scarlet, clove scented.

White Enchantress.—A pure white.

White Mrs. H. Burnett.—A pure white sport from Mrs. H. Burnett.

Windsor.—A glorious shade of deep pink with paler edges.

Chrysanthemums

We offer a very large selection of these splendid flowering plants from September to November, which are the best months to plant. They readily go by parcels post. These listed are the leading and best varieties, but we can supply about 40 to 50 others if required.

Price, 6/- per dozen, or 7/- post free. Our selection, 6/- per dozen post free.

(I.) Incurved; (R.) Reflexed.

Alice Benson.—A beautiful white Japanese, reflexed; tips of petals slightly incurved; good grower.

Alice Lemon.—A beautiful flower of a light soft pink color that every exhibitor should grow.

Buff Globe.—A large bright buff bloom; good show variety.

Cheltoni.—This is a beautiful yellow sport from Nellie Pockett. A yellow Nellie Pockett.

Clara Wells.—An incurved variety, rich cream color, large well-formed flowers and one of the best.

Daily Mail.—A massive flower somewhat like William Turner, but narrower florets, color buttery yellow; whorled and incurved.

Edith S. Ouittenton.—Color pure white; very large exhibition variety; a prize-taker.

Edith Cavell.—A large incurved Japanese variety of a light chestnut color, with gold reverse; good, easy grower.

E. E. Dakin.—Deep carmine pink, reverse of petals silver.

F. S. Vallis.—Canary yellow, one of the best for exhibition.

G. Kerslake Junr.—Large, bright yellow flowers, good show bloom.

Gladys Blackburn.—Yellow, late buds have a tinge of bronze; a splendid variety for exhibition.

G. W. Pook.—Salmon terra-cotta, good for any purpose.

Hammond Phillips.—Light pink, with long, broad, straight petals, which appear like paper shavings; very pretty.

J. S. Lloyd.—A primrose sport of the popular variety William Turner, a fine large flower.

J. H. Perry.—Purple crimson, with silvery reverse; has been grown probably larger than any other variety in Australia.

John Keyston.—Rosy red, with long drooping petals, reflexed to the point and curled at tips.

Kara Dow.—Chestnut, with gold reverse, the largest and best bronze we have.

Mrs. G. W. C. Drexel.—Incurving pink, good for exhibition or as a decorative.

Mrs. G. Lloyd Wigg.—A very large exhibition variety of a pale yellow color.

Mrs. Geo. Kelly.—Old rose, distinct and good; a prize-taker in England.

Mrs. H. Stephens.—Golden salmon bronze, fine large flower, and very pretty.

Mrs. D'Willis James.—Bright red, reverse gold, large and full.

Mrs. R. Chugg.—Terra-cotta pink, fine, large flowers, and a good easy doer.

Mrs. W. A. Reid.—An intense fiery scarlet crimson, of enormous size; the best of its color.

Mrs. C. Wheeler.—Lilac pink, with silvery reverse.

Mrs. Wm. Duckham.—Deep yellow; a splendid variety, with long drooping florets.

Mendon.—An immense flower of bright pink, with a silvery white reverse.

Nellie Pockett.—Pearly white flowers of good form, good easy grower.

Nellie Francis.—Old gold, marked with reddish bronze; a splendid variety for exhibition.

Pocketts Crimson.—The finest deep crimson we have for exhibition, beautifully reflexed.

Reginald Vallis.—Purple amaranth, large flower, and a good keeper.

W. Mease.—Old rosy cerise, very large flower, and beautifully curved in the centre.

Woodside.—Yellow, of large size, very refined and distinct.

William Turner.—Purest white, the finest Chrysanthemum in commerce; winner of many championships.

White Australia.—Under favorable conditions, this is one of the longest petalled varieties in cultivation.

Dahlias.

We have a magnificent collection of these very gay garden plants. The Cactus varieties are particularly attractive. Blooming can be maintained from January to May in favorable seasons. They must have plenty of water and manure to induce good flowers. Tubers and green plants are available from September to December, and may be planted late, especially the Cactus varieties, which really bloom better when planted late.

Tubers ready from beginning of August; Green Plants, September to December.

1/- each, 10/- dozen.

Special lists of all the very choicest ready in September.

Delphiniums (Perennial Larkspur)

This is one of the showiest of hardy perennials, producing long spikes of all shades of blue; they excite the admiration of all lovers of flowers. Strong plants, 2/- per dozen.

Buffalo Grass.

This grass is much esteemed for lawns, edgings, and grass plots generally. Roots should be planted from 6 to 12 inches apart, in spring or autumn. Price, per sack, 10/-; per bushel, 3/-.

Edging and Carpet Bedding Plants.

Alternanthera Aurea Nana.—Foliage yellow and green, very dwarf and pretty. Per doz., 2/-; per 100, 7/6.

Alternanthera Paronychorides.—Foliage rosy pink, red and green. Per doz., 2/-; per 100, 7/6.

Box.—Dwarf (the true Dwarf Dutch). Per 100, 7/6.

Box.—Common dwarf. It takes 100 plants to lay 20ft. Per 100, 5/-.

Echeveria Secunda Glauca.—Very pretty dwarf, succulent plant, suitable for dry situations. Per 100, 7/6.

Irisene Lindeni.—Foliage deep blood-red. Per doz., 2/-; per 100, 10/-.

Pyrethrum Aureum.—Golden Feather; a very pretty edging, with bright golden foliage. Per 100, 4/-.

Thyme.—Lemon. Makes a beautiful edging and stands the heat well.

Thyme, Variegated Lemon.—This also makes a good edging; grows stronger than the above. 2/6 doz.

Ericas (The Heath)

THESE lovely plants cannot be too highly recommended for flowering purposes. They thrive best in a peaty soil, but will succeed in ordinary garden soil. Manure should not be put near the roots. During the dry season, they should be kept well watered.

Price, 1/6 to 2/- each.

Andromaediflora.—Pale pink.
Arborea.—White.
Autumnalis.—Red.
Beaconsfieldiana.—Pale yellow.
Bowieana.—Pure white.
Cavendishii.—Yellow.
Candidissima.—White.
Charsleyana.—Rose pink.
Cerinthoides Coronata.—Fine scarlet.
Hentyana.—Light rose.
Hybrida.—Red; one of the best.
Hyemalis.—Pink and white.
Intermedia.—Pure white, very long spikes.
Jubilee.—Deep rose, large spikes.
Linnaeoides.—Rose.
Mackinnoniana.—Pink.
Mammosa.—Purple.
Melanthera.—Purple.
Pyramidalis Gracilis.—White.
Roegerminans.—Small, pink, sweet scent.
Rubens.—Dark rose.
Ventricosa Globosa.
Ventricosa Impressa.
Vestita Coccinea.—Scarlet.
Vulgaris.—Purple (Heather of Scotland).
Webleyana.—Light waxy rose; very beautiful.
Wilmoreana.—Pink and white.

Ferns and Lycopods.

We have a splendid collection of these elegant plants in stock, at prices varying from 1/- to 7/6 each, the prices being regulated according to the variety and size of the plant.

Fuchsias.

OUR list of Fuchsias embraces all the best we know to be in cultivation, and amongst them are many well grown plants of great beauty.

Fuchsias demand shelter from the wind, plenty of water during dry weather, with a mulching during the summer, and the ordinary treatment of other outdoor plants. They may be grown without much trouble, and make splendid decorative plants. Any good garden soil will suit them.

1/- Each; 10/- Doz.; 11/- Doz. Post Free.

SINGLE VARIETIES.

Arabella.—White tube and sepals, corolla rosy pink.

Aurora Superba.—Sepals recurved; of a coral color; very large; purple corolla.

Black Prince.—Sepal carmine, pale pink corolla, margined with deep rose.

Fair Maid.—Creamy white, tube and sepals tinted bluish; corolla deep carmine, flushed magenta.

General Roberts.—Drooping habit; sepals rose, deepening into the corolla of shaded crimson.

Mrs. Marshall.—Tube and sepals white, corolla pink.

Rose of Castile.—White sepals, corolla violet.

DOUBLE FUCHSIAS.

Avalanche.—Tube and sepals crimson, purple corolla.

Duchess of Edinburgh.—Double white; good variety.

Jubilee.—Sepals crimson; rosy mauve corolla.

Molesworth.—Sepals bright carmine reflexed, corolla double; unusually large, and pure white.

Monument.—Corolla deep purple; outer petals striped carmine, tube and sepals crimson.

Phenomenal.—Short tube and reflexed, sepals crimson, corollla azure violet, flaked red.

Storm King.—Sepals rosy coral; corolla rosy blush.

Viceroy of Canada.—Violet corolla.

White Giant.—White corolla, red sepals.

White Jubilee.—Enormous; sepals red, reflexed corolla.

Green-house, Bush-house and Verandah Plants.

NOTE.—Those marked * can only be grown satisfactorily under glass, but most of the others named will do well either in ordinary bush-house, or on a verandah.

Dry Tubers .. each 1/6; doz.	15	0
In Pots .. .. .. each 2/-; doz.	20	0
Dry Tubers can be obtained during April, May, June, July, and later on, in a growing state in pots.		
Lycopodiums.—Of sorts	1	0
Maranta.—In variety	2	6
A very varied and useful class of plants, with fine, bold foliage, and of many shades of color; almost beyond description.		
Palms.—See index.		
Pelargoniums.—See index.		
Primula Sinensis .. .. .. 1/- to	1	6
***Pandanus** Veitchii .. .. .. from	2	0
Baptisti .. .. from	2	6
Utilis .. .. from	2	6
One of the most charming table decorative plants grown; white and green striped foliage; a perfect specimen plant.		
Panicum Variegatum	1	0
Pilea Mucosa (Artillery Plant) ..	1	0
Highly interesting and remarkable plant, which becomes covered with bright pink blooms. Useful for table decoration.		
Russelia Juncea .. .. .. 1/6 to	2	0
A beautiful little plant for baskets; very ornamental		
Stephanotis Floribunda .. 2/- to	2	6
Saintpaulia Ionantha	1	6
Leaves are dark green, fleshy, with downy surface, spread laterally over the soil, forming a rosette; from the centre and sides spring up like a bouquet of flowers, violet-like, both in color and shape.		

Hedge Plants.

African Box Thorn (Lycium Horridum) Plant 12 inches apart. 5/- per 100, 40/- per 1000; not less than 500 at 1000 rate. This prickly hedge plant is a quick-growing evergreen, suitable for fencing large gardens.

Bougainvillea Sanderiana Glabra.—Plant 2ft. apart; makes a pretty hedge, and flowers abundantly. 15/- per doz.

Coprosma Lucida.—Plant 3ft. apart. 9/- per doz. This is a good hedge plant, and is particularly hardy, especially on the sea coast.

Duranta Plumerii.—A neat-growing evergreen hedge plant, bearing clusters of purplish blue flowers; very fragrant. In 3in. pots, 6/- per doz., 40/- per 100. In 4in. pots, 9/- per doz., 60/- per 100.

Eugenia Myrifolia.—Plant 3 feet apart, very ornamental. 10/- per doz.; 60/- 100.

Euonymus. Golden.—A very striking plant for hedges or single specimens, the foliage being beautifully margined and marked with gold; young plants, 9/- doz.

Eugenia Myrtifolia.—Plant 3 feet apart, each; 15/- doz. Will make a grand ornamental flowering hedge. See descriptions in general shrub list.

Laurel (English).—A favorite hedge plant in England, and does equally well in cooler parts of this State. Strong plants, 8 and 10 inches, 9/- doz., 60/- per 100.

Ligustrum Lucidum.—Plant 12 inches apart. 2/- per doz.; 12/6 per 100; not less than 50 at 100 rate. Extra strong transplanted, 15/- 100.

Pittosporum Eugenoides.—10/- per doz.; 60/- per 100.

Pittosporum Eugenoides, Variegated.—12/- per doz.

Pittosporum Nigrescens.—10/- doz.; 60/- per 100.

Pittosporum Undulatum.—The well-known Victorian Laurel. 10/- per doz., 60/- per 100.

These make a fine evergreen hedge for a garden, and can be trimmed close into any desired shape. The foliage is handsome, and of a fine fresh green color. Plant in single rows, 2ft. apart.

Plumbago, white and blue.—Plant 2ft. apart. 10/- per doz., 60/- per 100.

Prunus Myrobolana.—The Myrobolan Plum. This is a hardy, everlasting hedge plant. It is allowed to reach 8 and 10 feet, at which it is kept trimmed, when it becomes very dense. It has the advantage of bearing heavy crops of plums, in appearance somewhat similar to the American Cherry Tree Plum. Strong, 3ft. trees, 7/6 doz., 50/- per 100.

Privet.—Evergreen. Plant 12 inches apart. 1/6 per doz., 10/- per 100; not less than 50 at 100 rate.

Privet, Golden.—Plant 11 inches apart. 6/- per doz.

Raphiolepis (Indian Hawthorn).—Plant 2 feet apart; good flowering hedge. 10/- per doz., 60/- per 100.

Rhagodia Hastata (Salt Bush).—Plant 12 inches apart. 1/6 per doz.; 10/- per 100; not less than 50 at 100 rate.

Tecoma Capensis.—Bright red flowering hedge. 10/- per doz.; 60/- per 100.

Viburnum Tinus.—Plant 2 feet apart; useful, evergreen hedge. 10/- per doz.; 60/- per 100.

Purple Guava.—Makes a neat hedge, being covered in luscious fruit from June to October. Plant 3ft. apart. 10/- doz.

Cupressus as a Hedge.

FOR this purpose, several of the Cypress family are admirably adapted, especially upright Cypress and Macrocarpa and Lambertiana. These, if planted about 3 feet apart, and kept closely cut, say two or three times a year, form a close, dense, compact hedge, and are very effective. The Thuya Orientalis can also be used for this purpose.

Cupressus Torulosus, from cuttings.—The Best. Plant 3ft. apart, 15/- doz.

Palms

WE have a grand stock of the various varieties in all sizes, from dwarf Kentias, in fancy pots for table decoration, to extra large specimens for hall, stage, and conservatory work; and shall be glad to furnish customers with any further particulars. Prices quoted are for ordinary sized plants.

	s	d
Areca.		
Baueri .. .. from	1	6
Sapida .. .. from	1	6
Brahea.		
Filamentosa	1	6
Robusta	1	6
Splendid palms for embellishing the garden grounds. Most suitable for planting as a single specimen in lawns and elsewhere; one of the quickest growing palms. Filamentosa is the palm so largely used for railway stations in New South Wales, Redfern (late Eveleigh) having some very fine specimens on the platform.		
Chamaerops.		
Excelsa .. .. from	1	6
Fortunii .. .. from	1	6
Humulis	1	6
The Chamaerops are very hardy palms, especially suited for the cooler parts of the State, where they grow into magnificent specimens. They will stand several degrees of frost.		
Cocos.		
Australis .. .. from	2	6
Plumosa .. .. from	2	6
Weddelliana .. .. from	2	6
The Weddelliana is the most graceful fern-like palm in existence, very beautiful for table and drawing-room decorations, while the other varieties are suitable for outdoor culture.		
Corypha.		
Australis. The New South Wales Cabbage Tree Palm; when planted out, make fine specimens .. .. from	1	6

Sabal.		
Blackburniana .. .. from	1	6
Palmata .. .. from	1	6
Umbraculifera .. .. from	1	6
Adamsonii	2	0

Railway Station Palms.

(See Brahea Filamentosa).

WE hold a large stock of this hardy and handsome Palm, and cannot too highly recommend it for planting in almost any part of the State. Plant in the open border, choosing the deepest soil.

OUR PALMS are well established in pots, having a good root-hold. All have been three months in the pots, and in some instances, 2 and 3 years, and, with fair treatment (an occasional sponging of leaves, and, where possible, a few days now and again in a bush-house), will last for years, and improve in appearance daily.

Regal Pelargoniums.

1/6 to 2/- each.

This name is applied to that magnificent group of Pelargoniums, the flowers of which are of large size, very rich, and showy, and, although not really double, yet, from their fullness of form and extra number of petals, have the appearance of being so.

Beauty of Oxton.—The upper petals are of a very rich maroon color, darkly blotched, the under petals very dark crimson, shaded with maroon; light centre, tinted with rose; all the petals are margined with white and beautifully fringed.

Black Prince.—A fine flower of bright maroon color, with dark shading and pale margin; very free.

Captain Raikes.—The flowers are very large and full, fiery crimson, flaked with purplish black, and bordered with carmine; semi-double.

Conductor.—Bright carmine, upper petal blotched with maroon, light centre.

Decorator.—Rosy crimson, petals spotted dark crimson.

Duchess of Bedford.—Purest white, prettily fringed with feathered spots of delicate rose in the upper petals; habit dwarf; compact.

Duchess of Edinburgh.—Flowers white, with purple blotch, beautifully fringed, large truss and very free; dwarf habit.

Edward Perkins.—Very large flowers, brilliant orange carmine, with dark blotches on the upper petals.

Emperor of Russia.—An exceedingly distinct and showy variety, each petal having an equal cloud of dark maroon crimson, elegantly marked with a pure white belt.

Gold Mine.—Rich orange scarlet, upper petals blotched dark maroon, large white eye; distinct.

Her Majesty.—An extremely fine variety, producing immense trusses of large, well-shaped, pure white flowers, beautifully undulated and fringed; almost double. Was awarded a First Class Certificate by the Victorian Horticultural Improvement Society, 1885. and was also awarded a First Class Certificate by the Royal Horticultural Society of Victoria, 1886.

Madame Thibaut.—White, blotched and marbled with rose, upper petals marked with crimson maroon, large white centre.

Mrs. Harrison.—Flowers large, color pink, striped white, white centre and margin.

Monsr. Desmonlin.—Deep rose, dark blotch, light throat and edges; large and free.

Persimmon.—Intense orange scarlet color, massive bold flowers and enormous trusses; plant of vigorous habit.

Purple Emperor.—A decided improvement in this color; fine bold open flowers, forming into large trusses, upper petals feather and blotched maroon; distinct.

Queen Victoria.—Flower semi-double, of a rich vermillion color, all the petals broadly margined with pure white. A very pleasing and attractive variety.

Sultana.—Lower petals rosy purple, top marked black, lilac margin, clear white centre.

Volonte Nationale.—Flowers extra large and of good shape, each petal blotched with rosy carmine, margined with a broad band of pure white, white throat, beautifully crimped.

Zonale Pelargoniums

1/- Each; 9/- per Dozen.

SINGLE FLOWERING.

Chas. Fremine.—Blush, suffused lilac.
Chaucer.—Bright cerise; good.
Crabbe.—Cherry red; large truss.
Dr. Nansen.—Pure white.
Dream.—Pale Pink.
Eucharis.—Beautiful pure white.
Friant.—Dark crimson, enormous flowers, perfect.
Iseult.—Salmon, orange; upper petals suffused with pink.
James Kelway.—Brilliant vivid scarlet; fine habit and size.
John Copeman.—Light magenta, distinct.
Kitty.—Cherry red, white eye, splendid.
Madame Beuvron.—Rosy pink, blotch on base of upper petal.
Marquis de Poilene.—Purple shaded, fire color, white centre, enormous.
Monelik.—Magenta pink, one-third of centre pure white.
Miss E. Rawson.—Rich orange scarlet, perfect shape.
Mrs. Ewing.—Pale salmon, tinted pink towards the centre.
Mrs. Sampson.—White, with a well defined ring of fiery scarlet-pink; large white eye.
Pink Pet.—Pure pink, very free and showy.
Sir Wilfred Laurier.—Centre pure white, outer portion vivid magenta.
Suvarna.—Bright orange; large.

DOUBLE FLOWERING.

Caesar.—Reddish violet.
Californie.—Large flowers of bright orange.
Double Jacoby.—Crimson maroon.
Dr. Despres.—Deep crimson, enormous pips and trusses.
Esperance.—White, mottled and striped scarlet.
Eteranthe.—Scarlet; free blooming.
Gustav Emich.—Gigantic flowers rich, clear scarlet.
Hedwig Buchner.—Snow-white; enormous trusses.
Jean Viand.—Soft rose pink.
Joyful.—Deep salmon centre, broad white margin.
King of Denmark.—Salmon pink; large truss.
Madame Carnot.—Very large trusses of perfectly formed pure white flowers.
Mad. Godfrey Stars.—Rich purplish pink.
Madame H. Tilmant.—White centre, margined scarlet.
Madame Jouis.—Deep salmon centre, white edges.
Madame Landry.—Deep salmon; free.
M. Canovas.—Vermillion scarlet.
Olive Schriener.—White, margined light red.
Pink Raspail.—Rosy pink; exquisite.
Rainbow.—Rose, suffused white.

Ivy-Leaved Pelargoniums

Fine for covering fences; showy and handsome. **1/- each; 9/- doz.**

Beauty of Jersey.—Lovely scarlet, shaded purple.

Beauty of Perth.—It is a most beautiful variety, color very bright heliotrope, the petals splashed with deep crimson; very large trusses, free and sturdy grower, quite distinct from any other Ivy Pelargonium.

Her Majesty the Queen.—A pleasing salmon-colored variety.

His Majesty the King.—A pleasing shade of dark cerise; trusses large and produced in great profusion.

Jeanne d'Arc.—White, suffused light lavender; first-class.

Joseph Warren.—A large rosy-purple; choice.
La Rosiere.—Flesh, turning to rose.
La Corinthienne.—White, tinted blush; very pretty.
Mrs. J. G. Day.—Bright crimson, large blooms.
Madame Crouse.—Silvery Pink.
Madame Thibaut.—Dark rose.
Mrs. Banks.—White, slightly tinted, large flowers, black blotch in upper petal.
Souvenir de Chas. Turner.—Gigantic trusses, color deep pink shade; feathered maroon in the upper petal.

Penstemons.

Price, 9d. to 1/- each; 7/6 to 9/- per dozen.

We have a splendid collection of these showy perpetual flowering plants, and shall be pleased to furnish lists and descriptions on application.

Phloxes (Perennial)

Price 1/- Each; 10/- per Dozen.

The perennial Phlox is one of the finest herbaceous plants for border decoration; it is easy of culture, and remains a long time in bloom, coming in at a season when flowers are getting scarce. To bring them to perfection, they should be planted in rich soil, and well watered when coming into bloom. We have a very large and fine collection.

The Petunia.

Double Varieties, 1/- each; 10/- per doz.

As an autumn flowering decorative plant, is a great favorite everywhere. We supply, in the spring, plants in 4 inch pots, including a double white fringed variety.

Verbenas.

WE stock a choice collection of selected varieties of these handsome bedding plants, varying in color from pure white to deep scarlet and blue.

To customers wishing to make a selection themselves, a full list of varieties available will be posted on application. Price 9d. each; 6/- to 7/6 per doz.

Violets.

Choose a moist and slightly shaded position if possible. If grown in the open, they must be mulched and watered freely during summer.

Post free at prices marked (per dozen).

Admiral Avellan.—Rich purple crimson, single. 2/-.

California.—Very deep blue, single. 1/6.

Count Brazza.—Best double white. 2/6.

John Radenbury.—Pale blue, single. 2/-.

La France.—Metallic blue, largest. 3/-.

Md. Millet.—Double rose, strongly perfumed. 3/-.

Marie Louise.—Rich lavender blue, double. 2/6.

Neapolitan.—Delicate mauve, double. 2/6.

Mrs. J. J. Astor.—Beautiful double pink. 3/-.

Princess of Wales.—Bright blue, extra large, single. 2/-.

The Czar.—Dark blue, single. 1/6.

White Czar.—Large size, white. 2/-.

Wholly Set-up and Printed in Australia at Carter's Printing Works, 377 Sussex St., Sydney.

Our Trees are Pedigree Trees

. . . AND . . .

We would advise planters to demand such. By this we mean trees propagated from proved varieties; NOT MERELY THAT THEY ARE TRUE TO NAME, BUT THEY ARE WORKED FROM SELECTED TREES. Observant planters will have noticed that in an orchard block, some individual trees are better than others—better bearers—better colour—better growers—and, in fact, more profitable in all ways. By working from such trees, we continue the good qualities of the parent. Our special facilities (see introductory), enables us to propagate our young trees from these selected parents, and so offer our clients what are really

Pedigree Trees

It is unnecessary to point out that a COMMERCIAL ORCHARD must have Pedigree Trees, if the concern is to be a PAYING ONE; and while we know our prices FOR FIRST GRADE NURSERY STOCK WILL BEAR FAVORABLE COMPARISON with similarly grown stuff, we wish to point out that we do not raise so-called cheap trees, which are certain to prove dear trees eventually, and mean the loss of several years' labor and profit. With our trees, first cost is last, and they grow into money while you sleep.

Fruit Trees occupy almost 100 Acres in our Nurseries.

PEDIGREE

FOR 60 YEARS

Fruit Book & Catalogue of

Fergusons' Pedigree Trees

Ornamental Plants, Vines,
Roses Shade Trees Etc.
